# AUTO RIDING NEW DANGERS

**Judge Helen MacGill Tells of Difficulties of Adjusting Ourselves to Changes**

VANCOUVER, Jan. 20.—Judge Helen MacGill of the Vancouver Juvenile Court is a friend of the young girls that come before her, and is always ready to defend them. "I am very fond of the young people of today and I feel that frequently criticisms of their actions are a rank injustice," she says.

Judge MacGill was speaking on the subject near and dear to her heart, for her position as judge in the Juvenile Court gives her an insight into the hearts of boys and girls in their teens, which their own parents frequently miss.

"We are living in a difficult and puzzling world," she continued "and while we are quick to condemn the 'flapper' today, and to blame her mother for lacking the ability to bring her up in the good old-fashioned way we were brought up, do we really understand how well the mother is doing in adjusting herself to present day conditions?"

"When I was a girl buggy riding was the chief amusement. One might go buggy riding without a chaperone, though it was not considered quite the thing, but at the most a young couple who were buggy-riding could not remain away more than a few hours without the neighborhood being aroused and a search made for them.

The automobile makes it possible for young people to dash off miles and miles, in the space of a few hours stop at a roadhouse for a dance, and still be home again in a comparatively short time.

The war helped to tumble old-fashioned ideals around our ears, to change our standards and our fixed ideas of right and wrong.

**Love Necessary**

Our children started to criticize us after the war, when, I often think they were not exactly sure that our generation was right in thrusting their generation into the shambles of war.

My experience as a mother has taught me that one must establish loving and confidential relations with one's young sons and daughters. Mothers must learn to say "yes" or "no," firmly but wisely. They must also learn to say "You must stand on your own feet, make your own decisions, and be true to your convictions of right and wrong."

Mothers must trust their young people, even though their hearts stand still sometimes with fear of what may happen, until they realize that their children are growing up in a world that is entirely different from the one they grew up in.

# 'FRISCO CHINATOWN DANCES CHARLESTON

**Prizes Published and Awarded Pupils Who Execute it Best**

SAN FRANCISCO, Jan. 21.—In the "Street of Dim Lanterns" they are dancing the Charleston. The younger generation of San Francisco's noted Chinatown has accepted the ultra-modren step much to the disgust of staid celestial parents.

Chinese "jazz" musicians are supplying lilting tunes and sleek, well-groomed youths and brown-eyed beauties are taking to the step enthusiastically. First somewhat timidly but now in open defiance of the frowns of more conservative elders, is the dance indulged. To emphasize the approval given the new step, prizes are published and awarded couples who execute it best.

# EGG SITUATION IS CONSIDERED

**Department of Agriculture Helpless to Aid Poultrymen who Lose Money from Price Drop**

VICTORIA, Jan. 21.—Depression which has descended upon the poultry industry of British Columbia in the last few weeks is the result of the working of the law of supply and demand and cannot be removed by Government interference. This is the view of the Department of Agriculture, as made known here following poultrymen's continued demands for help.

**Buyers' Strike**

The sudden drop in egg prices which occurred some time ago and still prevails is due, in the first place, to the decrease in egg consumption as a result of the extremely high prices which egg eaters had to pay before Christmas, it is stated. Faced with a cost of seventy and seventy-five cents a dozen, the public simply cut down its egg bill by buying fewer eggs. Although prices have come down to the lowest figure on record for years this buyers' strike is just beginning to wear itself out and the usual purchasing volume to return.

The mild weather is another cause of the existing egg surplus it is explained. Cheered by the warmth of the winter months, B.C. hens are laying at an amazing rate and prairie chickens, which usually go out of active business at this time of year, are producing eggs in large quantities. Consequently the whole Canadian market is glutted with eggs and prices have tapered off steadily.

**Back to Normal**

It is believed that the poultry business will get back to normal in the next few months as the egg surplus is absorbed. Meanwhile the Government cannot do anything to improve conditions for the poultrymen, the agricultural department believes.

Slaughter of chicken flocks has started on the mainland, where owners feel that they must cut down their overhead. The larger poultrymen, however, intend to hang on to their flocks in the expectation that condifions will right themselves soon.

# PRESS APOLOGY FOR LACK OF PUBLICITY

(Edmonton Journal)

The "colyumist" of the New York Times apologies on behalf of the journalistic profession to Irving Berlin and his bride for its failure to give them more publicity. He notes regretfully that a mere fifty reporters and photographers gathered outside the honeymoon suite at Atlantic City and explains the smallness of their numbers by the fact that the staffs had many merely routine matters to attend to at the time. Assurance is, however, given that they did their best under the circumstances. Every man who could be spared from duty elsewhere was, it is stated, drafted from the campaign that swept forward to the accompaniment of the historic cry "On to Berlin!"

# ANOTHER SMALLPOX CASE AT EDMONTON

EDMONTON, Jan. 21—Another smallpox case in the city was reported by health officers when it was learned that a man who had the disease had been removed to the isolation hospital. The disease appears to have been contracted in the country, but it only became noticeable after the patient, who has been a student here, arrived in Edmonton a few days ago.

Infectious disease cases for the week numbered 176, made up largely of German measles, which totalled 92 or 30 more than the previous week. The total number of all cases during the previous week was 133. Reports of other diseases last week were as follows: Scarlet fever 18; measles 7; mumps 33; whooping cough 14; chickenpox 9.

**BABY'S COLDS**

Children's delicate digestions are easily disturbed by too much "dosing." Still, the little ones' cold troubles cannot be neglected.

At the very first sign of croup, sore throat, or any other cold trouble, apply Vicks VapoRub over the throat and chest. There is nothing to swallow—you just rub it on. Colds go over night, croup is usually relieved in 15 minutes.

## "Lovers in Quarantine"

Bebe as a bride on a funnymoon trip. It sure was funny. Accidents will happen. First, the poor man found he had eloped with the wrong girl. Next, they got stranded on a tropical island, and thereby hangs a tale of complications and explanations. Come and see it and try not to laugh. A tickling tale of a tangled honeymoon. Bebe is a "champ baby vamp" in a fast, frothy farce pepped with tabasco and loaded with laughs. Advice to lovers—When going on your honeymoon, don't forget to take the bride along. Strong cast:
