Lecturer Speaks on "Biproducts of Rotary" at Luncheon in St. Regis.

WOULD ELIMINATE WAR

Breaking Down of Religious Pre-Judices and Barriers Among Objects Attained.

"Service is the greatest thing in the world," stated Dr. Charles Baker, lecturer for international Rotary, who addressed the local Rotary Club yesterday afternoon. He arrived in the city with Ed. Rich, of Tacoma, on the power yacht Argosy and discovering there was a luncheon going on made it his business, as all Rotarians do; to attend. He was welcomed by President C. "Bi-products of Rotary."

Dr. Baker said that the Rotary idea was spreading, growing, developing. He believed that Rotary would have more to do with; the elimination of war than any other force. In South Africa the Questions Submitted Tonight Will clubs had already staved off as many as six revolutions. He told of the growth of the Rotary spirit among the Englishmen, breaking down their natural reserve and making them more human. By its means friendships and international relationships were being Fair Board tonight and tomorro developed that were never before dreamed of.

Rotary, the speaker said, was helping people see that the most important thing in life was to help others to be happier. Service became a habit. It was the most important thing in the world. He urged members to sit down and think things over. If they did so they would decide that service was the greatest thing in the world.
