CHECK SPECULATION IN GRAIN TRADE IS EFFORT BEING MADE

TORONTO, Oct. 22 .- At the instance of the Secretary of Agriculture, the Chicago Board of Trade, which is the seat of the principal speculative market in the grain trade, has put into effect certain amendments to its rules, which have been proposed with a view to limiting an undesirable class of speculation. A clearing system is being established which will compet prompt settlements between brokers, and it is thought compel them to reduce the credit extended to their customers. Whatever effect it has will be upon the class of traders who operate upon harrow margins, and it is agreed that restriction in this quarter will be wholesome, says the National City Bank Let-

SUSPEND TRADING Another effort to limit violent fluctuations is made by creating a committee which will have authority to suspend trading of fluctuations exceeding certain prescribed limits within a single day. A rule of this kind has been in force on the New York Cotton Exchange for some time. The efficacy of such a rule, however, must depend largely upon having the limitations conform rather closely to market conditions, for if such a rule hindered trading in wheat in Chicago the operators might be readily shifted to Winnipeg, and cotton trading forbidden in New York might be shifted to Liverpool, and in either case the action of the markets where business continued to be done probably would be more influential upon prices than the absence of trading in the markets that were closed. Efforts to control prices by the suppression of bona-fide trading do not give promise of import-

which was a factor in it, although the the farmers have realized the problems in which case the inevitable collapse would have been more disastrous.

BETTER TREATMENT OF

PROFITABLE TO ALL PARTIES CONCERNED

WINNIPEG, Oct. 22.- Co-operation between harvesters from Eastern Canada and the farmers of the west this year has added another chapter to the more friendly relations sought between worker and employer.

Many distressing tales have been told the hardship and harsh treatment meted out to the workers in former years, who when unfavorable weather and hauling the grain to market. prevailed, were forced to shift for themselves, in many cases, with only MINISTER OF LABOR limited funds, until the rain clouds MINISTER OF LABOR had lifted and permitted field operations to continue.

The men, in many instances, drifted back to the Prairie cities and when was time for harvesting to be resumed. the farmers found themselves without help, and consequently suffered costly delays before securing new workers. With the shortage of help this year,

nan, the new Minister of Labor, attendhis first Cabinet Council yesterday following his return to the capital from Kenora, where he was feted by constituents irrespective of party affili-

Mr. Heenan, like his former colleague, Hon. Harry Mills of Fort William, who was a member of the Drury Ministry in Ontario, has jumped from cab to cabinet. Both were locomotive engineers in New Ontario. Trade unions are expecting great things of Mr. Heenan, who was an honored official of the Brotherhood of Locomotive Engineers in his own division.

There is not a more approachable man in the cabinet. It is predicted that he will deal frankly with any case put before him, and will act promptly and firmly when action is required.
