COURTEOUS ACT OF FORMER GOVERNOR.

In view of the little disagreement between the Governor-General and Mackenzie King which started a constitutional controversy at the time of the recent election, it was a courteous thing for Baron Byng to meet Premier King on his arrival in England and show him the courtesy which was his due as head of the Canadian Government. He might easily have excused himself but he did his duty like a soldier and a gentleman. His action was the indication of a big man. It does away with the idea that there was anything personal about the action of the former Governor when carrying out his duties at Rideau Hall.

ALL EYES ARE TURNED THIS WAY.

Prince Rupert is surprising the people of Western Canada through the fact that she is really doing business and making a mark in the commercial world. All eyes are turned to her and the prospects are they will turn with even greater surprise before the season ends. Another grain ship is due here tomorrow and a third will follow in a few days. This grain is going to the United Kingdom and shows clearly that this port is to be a factor in the grain shipping business to any part of the world where the business happens to offer.

USEFUL SAFETY VALVE FOR THE GROWERS.

As long as Vancouver remained the only western port, there was danger of the rates being raised to such an extent that the prairie shippers would suffer a considerable embargo. By having the Prince Rupert competition, it insures that the Vancouverites will be kept at the lowest figure possible and the farmers on the prairies will benefit accordingly. In that way the Prince Rupert elevator will soon pay for itself in benefit to the grain growers.

When the Edmonton elevator was built there was a lot of criticism of the action of the government in spending so much money there, yet the first year it was the means of saving a lot of damp and tough grain and raising the grade and consequently the price so that it paid for itself almost the first year in benefit to the prairie grain growers.

The advantage of a new institution must not always be judged by direct financial results but by the benefit to the staple industries of the country. While it is a good thing for us to have the elevator at Prince Rupert it is an advantage to the people of the prairies also as it makes an outlet for their grain at a competitive point and it is useful as a place to dry the damp and tough grain of which there is so much on the prairies this season.

WHO IS TO BLAME FOR CONDITIONS?

According to an article in the Pacific Fisherman republished in this paper yesterday, the halibut boats have in some instances been able to discharge their catches at Ketchikan, ship the fish to Prince Rupert on a small freighter and beat the time it would take if the fishing boats had come to Prince Rupert direct. This may be a fairly tale but if it is true somebody is seriously at fault in the handling of the local business. The most rapid service that is possible should be given the halibut if it is to reach the market in the best possible condition and Prince Rupert on account of her position should be able to handle the business faster than any other port.

BURNS LAKE

The Silver Island Mining Co. Ltd. has made two excellent strikes—one of lead,

zinc and silver and the other of grey copper carrying heavy values in gold, silver, lead and other minerals—on the mainland shore of Babine Lake opposite Silver Island, R. C. Campbell-Johnson, Vancouver mining engineer who examined the property this summer, reports that a working capital of at least \$250,000 will be required to put the showings on a producing basis.

Mrs. Gordon B. Robb has returned home after an extended visit to the Pacific Coast.

Big game hunters are beginning to get results in this district. Last week a party guided by Barney Mulvaney obtained a big bull moose near the Natskuk. M. F. Nourse and William Reid shot a deer apiece on Burns Lake. The local Indians brought in a bear which was bagged two miles out on the Burns Lake-Endako trail. Many big game hunters are now enthusiastically joining in the chase.

Jack Barth, who was apprehended near here on a charge of theft from C. N. R. trains, was sentenced by Magistrate Hoskins at Smithers to thirty months at New Westminster penitentiary.

USE OF CHURCH FOR PUBLIC SCHOOLS IS BEING DISCUSSED

A person called at the office this morning and pointed out that it was very unfortunate that certain critical remarks had been made at the recent School Board meeting regarding the housing of the public school class in the United Church building. People seemed to think that the School Board had rented some damp, dark, dismal dungeon of primeval days. Parents who have visited this room have found a ground floor room with high ceiling and splendidly lighted by four very large windows. To date there has never been a need for using the electric lights. There is no sign of leakage or seepage in ceiling or walls. The heating is entirely adequate. A large gymnasium is always open to the class for play purposes. Indeed the School Board chairman, the secretary, the teacher, the scholars and the parents who have taken the trouble to investigate are enthusiastic over the room.

Is It Worth 50 Cents?

"Money can't buy anything else like this wonderful herbal Zam-Buk. It's simply priceless!" says one enthusiastic mother.

For injuries, Zam-Buk is the indispensable ever-ready healer. Where there is any skin or scalp disease, Zam-Buk is magical in extracting germs and poisonous impurities and growing new healthy skin. Being prepared exclusively from pure refined herbal essences, all highly concentrated, Zam-Buk retains its medicinal virtues indefinitely. It never goes rancid and useless like fatty salves and ointments do. Yet, whilst so much more safer, purer and reliable, herbal Zam-Buk costs no more to buy.

From Stadacona St., Montreal, Mrs. Villiers, writes:—"For healing, give me Zam-Buk! It is the finest thing I know. It saved me from a poisoned hand, rid my three children of scalp sores, and healed my husband's badly crushed finger. We wouldn't be without it at any price."

Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds.

When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat.

These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion.

At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors inhaled to break up the inflammation.

Colds are usually relieved over night.
