CRITICISM IS AGAIN OFFERED

BOARD OF WORKS IS ASKED HOW FRASER STREET GRADING IS TO BE PAID FOR.

SECTION 8 WATER

The Board of Works was again made the butt of criticisms at last night's council meeting. The inquiry of Ald. Jos. Greer as to how the surfacing of Fraser and Fifth Streets was being paid for and the reply of Ald. Perry that it was being charged to maintenance brought forth considerable discussion. Ald. Casey and Ald. Stephens took exception to new streets being built at the expense of the city as a whole. They felt that people getting such improvements should pay for the work and that it was unfair to have such work paid for out of general fund when similar work on Second and Third Avenues had been done as local improvement. Alderman Stephens went so far as to charge the Board of Works with exceeding its powers in undertaking such work and expenditure without first consulting the city council.

WAS PROVIDED FOR

Ald. Perry and Ald. W. J. Greer, in defence of the Board of Works, stated that it was their understanding that this work had been provided for in the year's estimates.

Ald. Casey also charged the Board of Works with neglecting to bring in a report regarding the improvement of water pressure on Eleventh Avenue as a fire protection measure. Section Two, he said, had been promptly attended to but nothing had been done in the case of Section 8 though both matters had been brought to the attention of the Board of Works at the same time. "This thing of referring matters to the committee and the committee paying no heed is not good business," Ald. Casey asserted.

WHO IS WORST?

Mayor Newton suggested that the Board of Works might have fallen down but the finance committee might be accused of the same fault sometimes. Ald. Casey's quick rejoinder was that, as far as he was concerned, he had missed but two meetings of the finance committee this year, a delinquency record which he thought was probably exceeded by several other members of the council. He did not see why a committee could not meet without its chairman.

Ald. Perry stated that the question of water service was new to him. This was the first he had heard about it.

The matter was finally left in the hands of the Board of Works for report.

MADAME SEGOND WEBBER, famous tragedienne, in the role of La France and singing the Marseillaise, in the recent "Save the Franc Pageant in Paris."

He criticized the policy of granting experimental permits. As for the septic tanks themselves, Ald. Brown said there was no trouble with them as long as the weather was wet and there was drainage but in dry weather, when the surface water disappeared, trouble often arose.

Ald. Perry stated that there would be no trouble with septic tanks if the ground was of gravel or sand. In the muskeg, however, the tanks did not work satisfactorily.

Possibly Overloaded

Ald. Stephens said he had heard of tanks being overloaded. Perhaps that was the cause of the trouble in some cases.

After some further discussion, in the course of which it was suggested coke might be brought from the Anyox smelter to be used in making filter beds, it was decided to leave the matter in the hands of the Board of Works to be dealt with at a meeting when the city engineer, medical health officer and as many members of the council as possible would be present.

PIGGERY WATER LINE IS OUT OF BUSINESS

Ald. Casey Brings Matter to Attention of Council—Board of Works Will Investigate

Ald. Casey informed the city council at last night's meeting that water service to the piggery at the end of Eleventh Avenue had been interfered with through a defect in the line and that, though the Chinaman had approached the city engineer for assistance, the latter had been unable to meet the situation. Ald. Casey said he did not believe in a man being turned down because he was a Chinaman. He paid his taxes like any other citizen and he believed he should be given service to which he was entitled. He moved that the Board of Works be authorized to look into the matter and report to the council ways and means of remedying it.

Mayor Newton reported that the Board of Works already had the matter under consideration, a complaint having been made by King Tai, owner of the piggery. It had been found that the only way to remedy the matter would be through constructing another line which would involve a large expense which it seemed was hardly warranted.

It was decided to refer the matter to the Board of Works for further consideration.

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful and interesting.

Every manager of a household--every member of the household who shares the responsibility for the family's welfare--should make a habit of reading the ads.

Read the advertisements in order to buy wisely
