THE manager of a household is the purchas-

ing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

The Well-Managed Home

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful and interesting.

Every manager of a household---every member of the household who shares the responsibility for the family's welfare---should make a habit of reading the ads.

Read the advertisements in order to buy wisely
