Dr. Chase's Ointment.

VERYWHERE Dr. Chase's Ointment is known and appreciated by mothers who have with gratitude witnessed the benefit it has brought to their suffering children.

Chafing and cracking of the skin is often the beginning of eczema. The trouble develops where two surfaces of skin rub together—as in the neck, armpits or between the legs of fleshy infants.

Dr. Chase's Ointment applied after the bath brings relief from this condition and prevents eczema.
