GREAT BRITAIN STILL GRIPPED BY STRIKE

BOTH SIDES PROCLAIM THEIR DETERMINATION OF FIGHTING TO BITTER END

With Transportation Facilities Improving, General Situation in Britain Today Becomes Easier

Orders arise in centres of industrial dispute but nothing of very serious nature has yet occurred

STREET MOBS CLUBBED BY POLICE

Food supplies reaching cities in satisfactory quantities but London milk ration is cut in half

LONDON, May 6.—The grip of the general strike gives no respite and the third day finds both government officials and Labor chiefs proclaiming their determination to fight to a bitter end.

The administration's new mouthpiece, the British Gazette, says: "There can be no compromise of any kind. Either the country will break the strike or the strike will break the country."

It was reiterated again today by the government that no negotiations will be opened until the men have returned to work.

Meanwhile, attempts of the strike sympathizers to halt the volunteer transportation services gave rise to further rioting, the worst disorders being along the Clydeside, the centre of labor radicalism.

Near Edinburgh a train was attacked and passengers were injured with breaking glass. In Edinburgh there were disorders throughout the night with the police wading clubs amid a mass of people. Charges were made in the endeavor to clear the streets of rioting gangsters which sought to stop the emergency tram services.

The mounted police were used in the southeastern section of London where a mob attempted to burn a motor bus.

Further movements of naval and military forces are reported.

From a standpoint of the general public, the situation may be said to be easier, there being a large increase throughout the country of transportation facilities. The London electric service is showing a thirty-three per cent increase over Wednesday. Food is arriving in satisfactory quantities but the milk ration is cut to half of the usual supply.

Its voyage marks almost a century of service for the vessel.

It is expected to be her trip as a new "Bear" is built to replace her.

The vessel is due at Nome, Point Barrow July 25, Herschel Island not later than August 5.

Coastguard Cutter Is Taking Supplies to Bering Sea and Arctic Ocean

SAN FRANCISCO, May 6.—On the way back to the ice pack of the Bering Sea and the Arctic, the United States coastguard cutter Bear left Wednesday for supplies for the native elements on the Aleutian Islands and the coast of Northern Alaska.

This voyage marks almost a century of service for the vessel.

It is expected to be her trip as a new "Bear" is built to replace her.

The vessel is due at Nome, Point Barrow July 25, Herschel Island not later than August 5.

WILL CONFER ON TAXATION

Income Tax to be Matter for Consideration View to Dominion Withdrawing

OTTAWA, May 6.—Preparations are being made for the conference of finance ministers which will discuss the whole question of taxation and will deal, among other things, with the duplication of income tax. At present there is a Dominion income tax, a provincial income tax and in some cases civic income taxes. The result is that incomes are overtaxed and there is considerable dissatisfaction in regard to it.

It was in 1917 that the Dominion income tax was first introduced by Sir Thomas White, finance minister in the Borden Government, and it was then looked on as a war measure. Prior to that time the only income tax was that imposed by the provinces.

The whole question, it is understood, will be reviewed and there is a possibility that the Dominion Government may see fit to gradually recede from the field.

Labor Amendment Regarding Strike Situation Defeated in Parliament by 317 to 95

LONDON, May 6.—According to figures published by the Trades Union Congress the maximum wage earned by miners for the last half of 1925 was 54 shillings weekly with the average about fifty.

LONDON, May 6.—The government won a victory today on its proposed measure to control the strike situation when a Labor amendment to the bill relating to the protection of property was defeated 317 to 95.

The Labor amendment would have hampered emergency regulations by eliminating the clause making it an offence to do injury to railways, roads, electrical works or other public services.

It will still be a crime subject to arrest and imprisonment for any person in the fight to cripple the nation's industries or to interfere with the public utilities.
