FARM RELIEF AS AN ISSUE

PRESIDENT COOLIDGE MAY NOT GET REPUBLICAN NOMINATION NEXT YEAR IF NO ACTION TAKEN

WASHINGTON, D.C., Oct. 27.—If Senator McNary of Oregon, who will be the new chairman of the Senate committee on agriculture is correct, the farm relief issue will remain unsettled for many months and will project itself into the 1928 campaign in all likelihood. Senator McNary has not said this in so many words but has indicated his belief that while the McNary-Haugen farm relief bill will be pressed again at the coming session of Congress, it will not be passed and farm relief legislation will not be enacted at the approaching session.

This is equivalent to predicting that the farm relief issue will be thrown over to the seventieth Congress, which will be elected in November. The new Congress, however, will not meet in regular session until December, 1927. The coming session of Congress will be the final session of the old Congress or what is sometimes called the "lame duck" session.

It is, of course, possible that an extra session of Congress will be called next spring. President Coolidge does not want one but for one reason or another may be obliged to call one. For instance, if the coming short session should fail to pass all the appropriation bills, the President could not escape calling an extra session next spring. With such an extra session, the farm relief issue might be cleared away and disposed of before the 1928 campaign. Without an extra session, it is difficult to see how it will be possible to escape dragging the farm relief controversy into 1928.

While most politicians think President Coolidge will be renominated, there is no disputing the fact that if there is no farm relief legislation before 1928 and agricultural conditions are not greatly improved, the movement to nominate Frank O. Lowden or some man favored by the farmers will be strong. Whether the western farmers will turn against the Republicans in a presidential election is something open to dispute. Some light may be thrown on this in the coming November balloting. The attitude of part of the Republican chiefs is that the farmers in states such as Iowa, Illinois and most of the agricultural regions will line up for the Republican ticket regardless of what is done about farm relief.

INSTRUCTION SCHOOL FOR GOVERNMENT MEN WHO INSPECT FOXES

CARLETON PLACE, Ont., Oct. 27.—(By Canadian Press).—A school of instruction for the benefit of the various Government Inspectors of Silver Foxes was held recently at Carleton Place.

WATER NOTICE.
Diversion and Use.
TAKE NOTICE that Robert George Johnston, whose address is Liverness Canyon, will apply for a licence to take and use 10,000 gallons per day of water out of creek west of Wharf at China Hat, also known as (no name), which flows south-east and drains into Trout Bay about 400 feet south along the beach from the southeast corner Lot "A", Kitasoo I.R. The water will be diverted from the stream at a point about 500 feet from its mouth and will be used for domestic and canning purposes upon the land described as Lot "A", Kitasoo I.R. This notice was posted on the ground on the 15th day of September, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is September 26, 1926.
ROBERT GEORGE JOHNSTON,
Applicant.

NOTICE OF INTENTION TO APPLY FOR LEASE

In the Land Recording District of Allin Mining Division of Cassiar District.
TAKE NOTICE that the Engineer Gold Mines, Ltd., Inc., a registered mining company operating within the Province of British Columbia, occupation, a mining company, intends to apply for a foreshore lease of the following described lands:
Commencing at a post planted about 500 feet distant in an easterly direction from the North West corner Lot 429, 8 1/2 acre Mineral Claim, situated at the mouth of Wann River, on Taku Arm of Tagish Lake, thence in a southerly direction 225 feet, thence Easterly 100 feet, thence Southerly 150 feet or less to high water mark, thence Westerly 100 feet or less to point of commencement and containing 0.5 acres more or less.
Located this 16th day of August, 1926.
(Signed) H. McN. FRASER,
B. C. L. S. Agent.

MINERAL ACT

Certificate of Improvements.
Wann Fractional No. 2, ANVOX and Jona Mineral Claims, situated in the Allin Mining Division of the Cassiar District, about one mile up stream from the mouth of Wann River.

Victor Northern Electric

Kick!
U.S. visitors to Canada have admitted "bootlegging" these powerful DX-221 tubes across the border. Made and sold in Canada only, but known all over the world. Fit any standard base.
\$2.75
Victor Talking Machine Company of Canada Limited

Ontario. It is the custom of the National Live Stock Association to send out each year official inspectors through the different provinces of Canada to inspect all registered ranches, to carefully examine, identify and tattoo every fox on each ranch and to make a return to the Canadian National Live Stock Records at Ottawa of all foxes passed by them for registration as pedigreed and qualified animals. A high standard as to quality of fur, etc. is set for this inspection.

In order to ensure a uniform standard of inspection these officials chosen from the different provinces, are assembled at Ottawa for instruction and consultation prior to starting on their respective routes.

The Caldwell ranch was this year selected for a field day of practical work among the silvered beauties. Over thirty inspectors were present, all expert judges, some coming from Prince Edward Island and some as far west as British Columbia.

Among the prominent officials accompanying the party were Messrs. H. L. Arkell, Dominion Live Stock Commissioner; P. G. T. Hitchman, Registrar Canadian Live Stock Records; Dr. Church, Chief Inspector, Wm. McRae, of the Live Stock Department, Ottawa; George A. Callbeck, of Prince Edward Island, representing the Canadian Silver Fox Breeding Association; George Gillies, of Annapolis, director of the Association; R. Patterson, president of the ranch at Carleton Place and others.

INTERIOR ONCE WAS TROPICAL

SAY MEN WHO HAVE BEEN DRILLING NEAR BARKERVILLE IN CARIBOO

QUESNEL, B.C. Oct. 27.—(By Canadian Press).—The central region of British Columbia known as the Cariboo country, was once a jungland of dense tropical forest containing enormous trees comparable in size with the giant sequoias of California.

That is the theory of men who have been drilling in the bed of Devil's Canyon Lake, near Barkerville, for gold. A gang of drillers under John Rollin, working 100 feet below the lake, came upon the remains of a huge tree. Neils Nelson, one of the partners in the gold-mining operation, was formerly a game warden in the Yellowstone, National Park, home of the giant California redwood or sequoia, said to be the largest trees in the world, and he states that the tree found in the lake bed is quite as large as any he ever saw in California.

Discovery of the tree is only one of the interesting finds of the expedition. Another is the remains of an ancient tunnel believed to have been bored scores of years ago when the gold excitement first struck the Cariboo country. It is believed to be the site of the old tunnel in which a miner lost his life some sixty years ago when he found himself unable to escape from a sudden burst of poisonous gas when many feet underground.

The operations now being proceeded with are based on the same general principle as that used by the miners of sixty years ago, except that the equipment used is not so primitive.

BABY DIED FROM LEAD POISONING

Gnawed Edge of Crib Which Had Been Recently Painted—Blood Test Was Made
MONTREAL, Oct. 27.—(By Canadian Press).—Lead poisoning, contracted when she gnawed the edge of her crib while teething, caused the death of Elizabeth Frances Rathgeb, aged one year and nine months. When a blood test was taken by a doctor and this particular form of poisoning was disclosed the father of the child recalled that the crib had been newly painted.

IS SAFE FIELD FOR INVESTMENT

NO COUNTRY BETTER SAYS DIRECTOR OF BANK OF NEW ZEALAND

VANCOUVER, Oct. 27.—(By Canadian Press).—No country in the world offers such a safe field for investment as Canada. In the opinion of Sir Harold Beachamp, director of the Bank of New Zealand and for fifteen years chairman of that institution, who reached here recently on his return to the Antipodes after a tour through Canada and Europe.

"Canadian securities have been regarded with disfavor in Great Britain ever since the Grand Trunk Pacific bondholders' failure to realize on their investment, but the hesitant attitude of Old Country people towards putting their money in Canadian ventures is wearing off," said Sir Harold. "I expect that during the next few years Canada will get more British money for industrial purposes than ever before. The United States is providing most of the capital for industries at present, but while I believe the flow of United States capital to Canada is likely to continue indefinitely and that it is a good thing for the country, it is regrettable that British capital has been so scarce recently. Canadians should look forward to an early reversal of this situation."

The unnecessary "lop-sided position" of the trade balance between Canada and New Zealand was emphasized by Sir Harold, who during his stay in Eastern Canada looked into the possibility of improving this condition. Several large woollen manufacturers are now considering the advisability of sending representatives direct to New Zealand to purchase wool, instead of continuing the practice of buying through London, as is done at the present time. This would, he thinks, greatly improve the trade balance between the two countries and establish better commercial relations.

Sir Harold expects Canada will soon rank second in the world as a producer of gold. The mineral wealth, water-power resources and timber of the Canadian Pacific coast, he believes, will prove an important factor in future development of trans-Pacific trade.

NEW FORM OF AUTO TAX IS PROPOSED

Association Would Have Levy Collected on Basis of Weight Instead of Present Method

VICTORIA, Oct. 27.—Adoption of a flat fee for motor licence according to weight classification in place of the present system will be urged on the provincial government by the Automobile Club of British Columbia.

Announcement of this effect was made by A. W. Cruise, director and chairman of a special committee, which has been investigating. The suggestion is, according to Mr. Cruise, that the licence fee would be based on the weight of the automobile. There would be three classes—light, medium, and heavy, and a single flat rate for each class.

Several interviewers have been held with the Attorney-General Manson and negotiations are proceeding. The Government has so far withheld its opinion of the proposal.

Many states have adopted this policy and found it very satisfactory, says Mr. Cruise. It eliminates the necessity of having a different licence for each make of vehicle.

NEW YORK IS MASS OF BANALITY SAYS WRITER OF FRANCE

PARIS, Oct. 27.—Jacques Deval, a French writer who has just returned from the United States, describes New York in Le Journal as a "mass of banality, incapable of being comprehended, indescribable in figures only, and a city of abstinence and desolation."

"Outside Central Park," he informed his stay-at-home countrymen, "all the trees and verdure of this city of six million souls could be put in a florist shop. There are no birds on the roofs, no dogs in the streets, no cats in the doorways, no flowers in the windows, no smiles on the faces of inhabitants. London is not morose without being noble, with no quiet retreats, a city for which no one could possibly become homesick. Women pass by who are beautiful accompanied by men, young and handsome, but the Latin anxiety to please at any cost, does not exist."

"New York is the saddest and most exhausting city in the world. There is no way to live happy there. Each morning open my newspaper, as heavy as a telephone directory, fearing to read a notice: 'In broad daylight a man smiled in the street; the police intervened.'"

REWARD FOR BRAVERY IN TITANIC WRECK
