**Old Age and Active Minds.**

Of the 1,650 persons who were distinguished enough to get into the English Dictionary of National Biography, compiled by Sir Sidney Lee, the average life was seventy. Four lived to be over one hundred, and nearly four hundred lived to be over eighty. The good may die young, but the wise live to a ripe old age. Why is this? It may be argued that the chances of distinguishing oneself are greater the longer one lives. Publicity is cumulative, and more can be accomplished in fifty years of active life than in twenty. It is best to believe, however, that an active brain has a tonic effect on the nervous system, and on the circulation of the blood. When the mind closes the body withers. Observe the old chaps. Their lease on life is perfectly shocking. A gay spirit, the fruit of an active mind, appears to be the source of their longevity.

**Immigration is Doubled.**

Against the cry of lost and vanishing population, part of the parrot-like platform patter of those politicians whose desperate scramble for party advantage blinds them to fact, may be set the immigration figures for the first three months of the present year. Here they are:

	1925	1926
British .....	4,358	6,626
United States .....	2,729	3,790
Other countries .....	3,705	12,133
Total .....	10,972	21,949

Returned Canadians..... 6,458 13,692

These statistics of new arrivals during the first quarter of 1926 show an increase over the corresponding three months of 1925 in respect of the British and American influx of 38 per cent in each case; an increase of 277 per cent in respect of those from other countries; and an advance of 112 per cent in the number of Canadians returning from the United States after a period of not less than six months there.

It is to be noted that during last year, the first year of the three-thousand family settlement scheme arranged by Hon. Mr. Robb with the British Government, 492 families arrived. Up to the middle of last month the number of families that had arrived since January of this year amounted to 708, bringing the total to that date up to 1,200. A further 490 families have been accepted for settlement this year, which will bring the total up of 1,692, aggregating 8,981 persons. For the most part, incidentally, the heads of these families are experienced in agriculture and in practically every instance they have enough capital to get a fair start, with, of course, some accommodation from the Land Settlement Board.

**From States To Canada.**

Immigrants are also taking advantage of the low fares that went into effect last January, and there is reason to believe that when the figures for the first half of this year have been compiled they will show a substantial increase in the movement of homeseekers over that of 1925. Land sales in the West already indicate expanding activities on the part of farmers now established. Particularly is this noticeable among those farmers who have come to Canada from the United States, while figures of homestead entries in the first six months of this year are much greater than the averages of the last few years.

There is also to be added on to this encouraging outlook the fact that the farmers of Western Canada have started upon the new season under the most favorable conditions. Their optimism, moreover, is reflected in the exceedingly active demand for farm equipment. This is not only good news for the Dominion as a whole; it promises additional business for British Columbia.—Victoria Times.

## WOMEN ENJOY FINE ADDRESS

Prof. W. C. Keirstead of New Brunswick Spoke Before Canadian Club on Wednesday Afternoon

Members and guests of the Women's Canadian Club had the pleasure on Wednesday afternoon of listening to Professor W. C. Keirstead, of the University of New Brunswick, who gave a very inspiring address taking for his subject "The Advantages and Dangers of Provincialism or Sectionalism in Canada."

Professor Keirstead, who is a fluent and able speaker, has been lecturing to Canadian Clubs throughout Canada for the last five weeks under the auspices of the Association of Canadian Clubs. The Women's Canadian Club in Prince Rupert is indebted to the Association for arranging Professor Keirstead's itinerary to include this city. There was a very good attendance with the President, Mrs. McMorde, in the chair, with a few well chosen remarks, she introduced the speaker.

At the close of the lecture Mrs. W. S. Fisher moved a vote of thanks to Professor Keirstead, which was seconded by Mrs. T. Andrew. During the afternoon Mrs. Kenny rendered very charmingly a pianoforte solo entitled "Rustle of Spring" and also accompanied for the singing of "O Canada" and "The National Anthem."

## "THE FOOL," CROWDED WITH ENTERTAINMENT, IS VIVIDLY THRILLING

Great Cast Receives Wonderful Direction in Picturization of Channing Pollock's Big Stage Hit.

The much heralded screen version of Channing Pollock's greatest stage play, "The Fool," comes to the Westholm Theatre tonight and tomorrow.

Produced by the Fox Company and with a year spent in its making, this film adaptation of "The Fool" is rated as one of the finest pictures of the season by critics and public alike who have seen it.

"The Fool" is the story of the adventures and romance of a young minister who believed that he could live like Christ in the twentieth century. It has been ranked as one of the greatest plays ever written for stage or screen, not only because of the significant moral message it contains, but also for the sheer thrill and entertainment of its melodramatic action and climaxes.

All of the leading members of the cast were especially selected, and Edmund Lowe, handsome young Fox screen star, scores the greatest success of his meteoric career in the role of the hero minister, Daniel Gilchrist. Another big part, one which Lowell Sherman made fame in on the stage, is that of Jerry, played by Ray Bloomer in the Fox screen version. Brenda Bond, a new and pretty face in motion pictures, but well known on the stage, has the role of Clare. Others among the leading members of the supporting cast are: Anne Dale, Riley Hatch, Mary Thurman, George Lessey and A. J. Herbert.

## LIEUT. REECE MAKES FORCED LANDING IN DIXON ENTRANCE WITH ENGINE OF PLANE AFIRE.

(Continued from Page One).

Lieut. Reece and Mr. Maynard then proceeded to dismantle the machine and stowed the wings, fuselage and engine on shore. The pontoons were badly damaged. The powerboat Wigwag, Capt. Claude Ketchum, was sent to the rescue by Jarvis McLeod, collector of customs, and brought Lieut. Reece to the city yesterday morning.

It was fortunate, said Lieut. Reece, that the accident to the engine occurred when he was flying at an altitude of only 100 feet. On hearing the explosion, he immediately switched off the engine and glided down to the water, making a perfect landing in spite of the rough sea. He had his fire extinguished almost before he landed, but it was smothering the engine with the water-soaked great coat that put out the flames before the fire reached the oil tanks. It was about 2.30 in the
