Beer Analyzed By Experts

ALL the Beers purchased by the Liquor Control Board of B. C. from the Vancouver Breweries Limited, Rainier Brewing Co. of Canada Limited, Westminster Brewing Co. Limited, Victoria Phoenix Brewing Co. Limited and the Silver Spring Brewery Limited, who are all members of the Amalgamated Breweries of B. C., for sale at Government Liquor Stores and the Licensed Beer Parlors, have been and will be analyzed from time to time by different expert firms of the continent for the protection of the public.

THE substance of these various analyses instigated by order of the Liquor Control Board shows that the Beers are perfect, the taste agreeable and malty. The foam is creamy and stands up well. The alcohol by weight is about 4.25 per cent. and the extract 5.49 per cent. with an original gravity of about 13.20. These analyses indicate further that the Beers are of good quality, wholesome and free from any foreign substance.

TO make a good Beer with such health-giving qualities it requires a skilled brewmaster and an up-to-date hygienic plant, such as maintained by the above mentioned Breweries. These plants are open for inspection and visits of the public are gladly solicited. Only the best materials obtainable are used in the manufacture of the Beers.

THE Brewing capacity of the above Breweries, members of the Amalgamated Breweries of B. C., is about eight times as large as the present output, which gives best assurance to the public of receiving only fully matured and properly aged Beers for many years to come.
