### ANOTHER ATTACK ON MEIGHEN LEADERSHIP BY MONTREAL PAPER

(Edmonton Journal) The Montreal Star has returned to its attack upon Mr. Meighen. It cites what various, Liberal newspapers have said about the increased popularity which he is likely to have because of its desire to oust him from the Conservative leadership, and declares that it never denied that he is "the most popular leader for the Conservative party that the Liberals have ever had." It is a good rule of political strategy, it thinks, to find COMING TO WESTHOLME what the enemy wants you to do and then not to do it. But if overlooks the fact that Conservative newspapers have been even more unanimous than the Liberals in expressing this view of the effect which its onslaught must have.

> The question of who is to lead a party is a matter of interest to all citizens, regardless of their political affiliations, and the comment of the Liberal journals does not warrant the interpretation which the Star puts upon it. It simply recognizes what should be obvious to all, that the meeting of its demand for the reasons that are given for it would be resented by all who like to see public men dealth with fairly and who want to have them judged by their attitude towards present nationa.

"Imaginary" Rheumatism Caused by Illfitting Shoes

ANY, many times physi-IVI cians have diagnosed what appears to be rheumatism, as really being pains arising from the effects of Fallen Arches.

When the foot arches begin to break down, the pain is often ascribed to a sprain or rheumatism. Pain occurs along the inside of the foot. in the heel, also the calf of the leg, and is often located in the knee or hip joints.

This condition brings on general muscular weakness-the ligaments are strained, interfering with proper nourish-ment of the foot. The circulation becomes poor-attendant symptoms appear-numbness. cold, and at times, undue perspiration, To prevent and cure this condition the foot must be given support, combined with the utmost freedom of

movement. Arch Defender Shoes give support to the scaphoid bone where needed, while allowing full flexibility and freedom to the muscular structure of the
