

### A Watch to be Proud of

During the many years we have been selling watches we have never handled an assortment better than the new lot of imported watches received this Fall.

Since the war, owing to unsettled conditions, a great many inferior watches have been put on the bargain counters and many of them will not keep going more than a year.

One of our new makes has all the steel parts of stainless steel, which will not rust even if exposed to water.

Prices from \$15.00 up. Let us show you!

## WATERFRONT WHIFFS

### Preparations start soon for opening of halibut season---black-fish play in harbor--- activity in boat building

Hardly it seems has the halibut season closed before preparations are made for its reopening. The month of January will see work started in getting the fleet ready for another year's operations. The owners have been doing more or less work on their craft ever since they were tied up last month. In two or three weeks members of the various crews will be back aboard again preparing gear and otherwise putting the boats in readiness for their seasonal activity.

Fishermen who have gone far afield for their vacations will hardly have their Christmas and New Year dinners digested before they will be thinking of getting back to Prince Rupert again. With the season reopening on February 15, it is probable that the first of the fleet will be getting away to "the high spots" on February 5 or soon thereafter.

Tom Hansen was in port from Porcher Island this week with his halibut boat Brant which has been getting some engine repairs.

The Prince Rupert Boat House power tug Pachena, Capt. Paul Armour, left Wednesday afternoon for Kletmu to tow

#### IN PROBATE

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Administration Act, and

In the Matter of the Estate of Clark Edward Bronson, Deceased, Intestate

cover tomorrow morning. Second Officer Jack McAuley has already been in the south a week, having been relieved by Second Officer D. R. Barclay from the Birnie.

After the Newington gets steam up again, the Birnie, Capt. Joe Peterson, will get her tie-up starting about January 15.

Rupert Marine Products' powerboat Hanaco, Capt. Jim Morrison, left on Wednesday morning with a scow load of lumber which will be used at the Denison & Wright mine on Porcher Island. The vessel was delayed in returning on account of stormy weather but was expected to get back today.

Coastwise Steamship & Barge Co's freighter Anyox, Capt. Prince, which also discharged coal for the Prince Rupert Coal Co. and Philpott & Eritt, unloaded 18,000 feet of lumber on Wednesday at the Big Bay wharf. The lumber is to be used for boat building locally.

The Big Bay Lumber Co. today sent a shipment of lumber to Skeena City to be used by Sasaki, the boat builder, in the construction of a new boat.

The fifty-eight foot halibut boat which is being built at the McLean ways for Chris Hovmuller is now nearing completion. The 40-60 h.p. Hein engine which is coming from Denmark is expected to arrive any time and will be installed in the new boat before it is launched about the week after next.

Lars Voge of the Selma is understood to be contemplating the construction of a large halibut boat which will be powered with one of the new type Fairbanks-Morse full diesel engines.

Some of the more daring bird hunters braved the elements during the week and were rewarded for their valor. Claude Kirkendall picked up half a dozen ducks across the bay while Jack Linden & Co. went out to Tugwell Bar for a few hours on Christmas Day and brought back a fair-sized bag of the feathery ones.

Dr. R. G. Large of Port Simpson was in from Port Simpson on business, arriving Tuesday and sailing on his return Wednesday afternoon. He tied up his Sunbeam III, formerly the property of Dr. W. T. Kerlin of this city, at the Yacht Club floats during his stay.

Jeff Lambly and Joe Reid left early this month on the former's boat, O Baby, on a two month's trapping expedition. Their objective was Estevan Island and, if things don't come up to expectation, then somewhere else. The O Baby had been thoroughly overhauled and rather extensively altered following her wreck on the end of Digby Island earlier in the season.

#### THAT KNOTTY KNOT

What is a knot? The word has often appeared in newspapers and books, and is used every day, but there is still a very large number of people who do not clearly understand the meaning of the term.

The statute miles is 5280 feet, while the British Admiralty knot, or nautical mile, is 6080 feet. The statute knot is 6082.7 feet, and it is generally considered the standard.

This is arrived at by the division of the earth's circumference into 360 degrees, each containing 60 knots. For the purpose of fixing time, each degree also is recognized in computing time east or west of the Greenwich meridian. In United States, such degrees are allowed an arbitrary four minutes each, the general practice being to base 15 degrees to one hour of clock time.

As each degree contains 60 knots, the 360 degrees in the earth's circumference multiplied by this makes 21,600 knots. Dividing this in turn, into the number of feet in the earth's circumference gives 6082.66 feet, the length of the statute knot. For general purposes, one one knot may be said to equal 1.15 miles, five knots, 5.75 miles, 10 knots 11.52 miles and 25 knots 8.8 miles.

The waterfront had another south-west duster Wednesday night similar to but not so severe as that of two or three weeks ago. No damage is reported to have been done.

That the year 1927, which opens at midnight tonight, may be one of the greatest happiness and prosperity for the fishermen and the waterfront community in general is the hearty wish of the Daily News. We hope that the coming twelve months may be pleasant and successful for all and that it will be our happy privilege when 1928 and many other years to follow open to extend similar greetings to each and all.

### Aggregate Value of \$920,919,628 Production for Year Ending Dec. 1925, \$61,492,242

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES  
Victoria, British Columbia.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.
