The New Quiet 12 REMINGTON

does good work always-because it is built to do so. Even the less experienced operator finds good work easy, for the machine seems bound to turn out first class typing, however operated.

And don't forget the "natural touch" which makes its operation as easy, as simple, as natural as breathing or walking. To every typist we say "Try the touch." "The best ever," is the universal verdict.

REMINGTON TYPEWRITER COMPANY

GREETING: CARDS

Our Christmas Greeting Cards are now on display. We have a wide selection of artistic cards in a variety of styles and greetings that will enable you to express exactly your wishes and gladden the hearts of your friends to whom they are sent. They are priced from 5c to \$1.00 each and we would recommend that you make your choice now as a number of our customers, last year, left making their selection until it was too late.

BE WISE AND BUY EARLY

We also have Personal Greeting Cards and a book of sample cards may be examined in the store or we will, on request, send a book for you to examine the samples at

New System of Poultry Keeping-Get High-Priced Winter Eggs-Famous Poultryman

TELLS HOW

"The great trouble with the poultry FOR FIRST HALF OF SEASON ISSUED business has always been that the laying life of a hen was too short," says Henry Trafford, International Poultry Expert and Breeder, for nearly eighteen years Editor of Poultry Success. The average pullet lays 150 eggss. If

kept the second year, she may lay 100 more. Then she goes to market. Yet, it has been scientifically established that every pullet is born or hatched with over one thousand minute egg germs in her system-and will lay them on a highly profitable basis over a period of four to six years' time if given proper care. How to work to get 1.000 eggs from every hen; how to get pullets laying early; how to make the old hens lay like pullets; how to keep up heavy egg production all through cold winter months when eggs are highest; triple egg production; make slacker hens hustle; \$5.00 profit from every hen in six winter months. These and many other money making poultry secrets are contained in Mr. Trafford's "1,000 EGG HEN" system of poultry raising, one copy of which will be sent absolutely free to any reader of this paper who keeps six hens or more. There is big profit for the poultry keeper who gets the eggs. Mr. Trafford tells how, if you keep chickens and want them to make money for you, cut out this ad and send it with your name C.N. Operating vs. Prince Rupert and address to Henry Trafford, Suite 292A, Herald Bldg., Binghamton, N.Y. and a free copy of "THE 1,000 EGG HEN will be sent by return mail.
