DAILY EDITION Tuesday, January 26, 1926.

Ottawa Interest Will Be Retained.

Interest in the proceedings of Parliament is likely to be maintained this year as a result of the closeness, numerically, of the two parties and the consequent danger of the Government at any time being defeated by a wavering Progressive majority. The situation will make the opposition more active than usual and will tend to create a general alertness and attention to the duties of the hour that has not been seen for many a day.

In the reminiscences of Lord Grey, that British statesman tells of being under secretary of state for foreign affairs and having to be in his seat all the time owing to the close attention to business of the Irish members. At that time they were kept on the qui vive although they had a majority of something like forty. With less than ten of a majority, the present Government will have to watch its step all the time.

Contract Let For Biological Station.

The contract for the biological station has been let and the new building will be commenced just as soon as the work on the substructure is completed. For the past year or more this building has been planned and at one time was ordered to be commenced but the plans were changed and now, after asking for tenders, the contract is let and there can be no more backing down. The station will become an accomplished fact and will attract to the city many scientists of note and workers in marine biology that will add a new tone to the life of Prince Rupert. Thus step by step we are securing a place in the sun.

Immigration And This Province.

Immigration to British Columbia is rather a different thing to immigration to the prairies. It is an easy matter to go to the prairies and with a team of horses or oxen turn over the sod and raise a crop of wheat. One man with four horses can easily cultivate a quarter section as long as help is secured for the harvest. Indeed one good skilled man can cultivate nearer half a section than a quarter, if the conditions are right. Most of the wheat land is plowed in the autumn and is ready for the seed directly the snow is off the ground. In British Columbia things are very different. Here mixed farming is the only kind possible. Dairying is the most profitable occupation and there is always plenty of demand for milk or milk products. However, that involves much labor and means the expenditure of much money.

Big Move Toward Canada Is Indicated.

There seems likely to be a big movement toward Canada this year. All indications point that way. The British Government is now coming to a realization of the fact that the British Islands are over-populated and that something has to be done to solve the unemployment problem. That something they realize will have to be emigration. Canada needs population and Britain has a surplus. The situation should not be a difficult one to retieve. Transportation rates have been lowered to such an extent that it is possible for almost anyone to get funds enough to migrate. Canada needs population. That is the only solution to the vacant lands problem and eventually also the railway problem.

SHREDDED WHEAT
with hot milk--so satisfying!

LABOR LEADER TALKS ABOUT LOCARNO PACT

J. Ramsay MacDonald Says Must Keep Spirit as Well as Letter of Agreement

NEW YORK, Jan. 26.—Great Britain had no business putting its signature to the Locarno pact "unless we intend to carry out the spirit we communicated to the people who initialed with us," J. Ramsay MacDonald, former prime minister and foreign minister, says in a foreword to a book "From Dawes to Locarno," written by George Glasgow, noted journalist.

"We must remember that we led them to expect, not the ways open to us, in accordance with the imperfect letter, to get out of our responsibilities," Mr. MacDonald declares in the book, which Harper and Brothers soon will publish. "Our people have undertaken a tremendous responsibility. They have taken risks which are actually greater although they appear less on paper, than they were willing to take under the Protocol.

"We have handed over the British army and navy to other powers under Locarno, if we do it under the Protocol. The Rhineland must be subject to a new agreement. We must strive to make the disarmament conference a success.

War Not Impossible

Mr. MacDonald says that from one point of view the Locarno treaties, by settling the Rhine frontier, dealt with somthing "that never could become a prime cause of a European war, and adds, "If anybody thinks that by getting agreement on the Rhine frontier we have made European war impossible, he should think again."

"There were three things about the Locarno pact, however, which gave Europe new hope. Locarno offers a magnificent opportunity that will be fruitful for peace only insofar as that opportunity is taken."

HOSPITAL AUXILIARY FACING DISBANDMENT

So Few Were in Attendance Yesterday Afternoon that Annual Meeing Had to be Postponed

The annual meeting of the Ladies' Auxiliary of the Prince Rupert General Hospital was to have been held yesterday afternoon but there was such a small attendance that it was necessary to postpone such business as the election of officers and receiving of annual reports. Matters of a routine nature were dealt with.

Stating this morning that another special meeting would be called in the near future, Mrs. Frank Dibb, president of the Auxiliary, said that if better support for the Auxiliary is not forthcoming there will be nothing else to do but disband. The Auxiliary has a membership of about thirty but during the past year some half a dozen women have been carrying on the work. Such a state of affairs cannot continue declares Mrs. Dibb.

VANDERHOOF

At the first congregational meeting of the Vanderhoof United Church last week A. B. Laird, R. H. Moore, W. J. Rimes, Edwin C. McGeachy, James W. Campbell, E. A. Mitchell, Dr. W. Ross Stone, R. C. Abbott and Mrs. E. B. Smith were elected to the board of management. E. C. McGeachy, who presided, paid tribute to Rev. R. T. McFarlane under whose pastorate of the past few months the church has made great progress.

Miss J. M. Richards of the local school teaching staff has again been taken seriously ill.

Mrs. R. H. Moore entertained at bridge and whist last Wednesday. The prize winners were Mrs. Laird and Mrs. George Steele.

George Ogston has been taken to the hospital at Edmonton where he underwent an operation early this week. E. A. Mitchell, who accompanied him to the hospital, is expected home in a day or so.

Tossed for Hours Unable to Sleep

Now enjoys rest and sleep thanks to Dr. Chase's Nerve Food

About the surest indication of exhausted nerves is sleeplessness. You may have headaches and indigestion. You may be nervous and irritable. But the most distressing symptom is lying awake at night unable to rest or sleep.

Mr. Fred Ross, Dresden, Ont. writes: —"I certainly can sympathize, with anyone who suffers from nerve trouble. For many months I was afflicted with nervousness, and after going to bed I would toss about for hours unable to sleep. Dr. Chase's Nerve Food was recommended to me, so I gave it a trial. I found it a splendid treatment as I can now enjoy a good night's rest. For the nerves, the best password I can give is 'Dr. Chase's Nerve Food.'"

THE MAN IN THE MOON says:

LOVE and capital are international. Nature will have her way.

IF January lasted all the year just think how thrifty we should become.

LETS all be farmers and howl to the Government for help, or Salvationists and take up a collection, or barbers and make a fortune, or bootleggers who boot bad times out of town.

A VILLAGE is a place where everybody knows a lot more about everybody than everybody knows about himself.

LET'S all go to Florida and invest all our savings in buying a half interest in a town lot.

SOMEBODY on the street remarked that the members of a certain unnamed board had some pretty good timbre. Asked if he was referring to the heads of the members, he replied in the negative for they were all bone.

IT'S rumored that the badminton players are pretty sore. Doubtless they must have fallen and hurt their foes or something.

THE bear goes to sleep during the winter and quits making a noise. Oh to live in bear land!

IT'S oh to live in bear land
Where bruin goes to sleep.
He gently whiles away the time
'Till flowers begin to peep.

There is no jazz in bear land,
No rollicking parties there;
For they sleep away the long dark days.
No morning after there.

Then let me live in bear land
And forget for a month or two
The foolish words that people say
And the foolish things they do.

GRAHAM IS OFFERED ELEVEN SEATS FOR HOUSE OF COMMONS

TORONTO, Jan. 25.—"I have not accepted the kind offer of the Hon. G. W. Cross of a chance for election in his riding of Athabaska," stated Right Hon. George P. Graham, minister of railways in the federal government, who is in Toronto on personal business.

"On the other hand," smiled the minister, "I have not refused this or any other offer so generously made. I am considering them, because I have not made up my mind what course to pursue. That is all I can say at present."

Mr. Graham, it appears, has the offer of no fewer than 11 seats from Liberals who are willing to resign in his favor.

EXPERIMENTAL SALE

Out of Town Customer Buys Four Pairs Ladies' Shoes For Less Than Price of One

The Universal Trading Co. will not reserve any of the shoes offered at this sale. Cash talks and we play no favorites. One out of town customer bought four pairs yesterday, the cost of all four pairs being less than the price of one pair originally

Watch the window. The price drops 25c a pair tonight, making a new low price of $2.20 per pair for Wednesday shoppers.

ARE NOT OUT TO SKIN THE FARMERS ATTACKERS REPROVED

(Edmonton Journal)

The strong reproof which H. W. Wood administered at the U.F.A. convention of those delegates who accused the elevator companies of being out to "skin the farmers" should discourage others from making such wholesale charges, which he regarded as quite unfair. No pool in the world, he declared, had ever had beter treatment from the elevators than had that in Alberta. "I want to tell you," he went on, "that there are just as good men in the grain business as there are in the farmers' movement. They are not out to skin you any more than you are out to skin them." His work having brought him into very intimate touch with those against whom these criticisms were directed, he is in a position to know what he is talking about.

Ten Years Ago in Prince Rupert

January 26, 1926.

J. V. Patterson, who was responsible for selling two sub-marines to the British Columbia government, has bought 40,000 tons of steel which will be used in shipbuilding at Seattle and other points on the coast.

At the Burns banquet of the St. Andrew's Society last night, President S. D. Macdonald, on behalf of the society, presented a fountain pen and safety razor to J. M. Thompson as a recognition of his efficient services as secretary.

The American halibut schooner Liberty, which arrived in port this morning with 50,000 pounds of fish, presented a very wintry appearance. So cold was the weather the vessel experienced that it was necessary to keep the crew employed in cutting away the ice in order that she might be navigated.
