Cow Bay Question Seems Eternal.

The mayor has made an effort to settle the Cow Bay question and it looked as if he had succeeded until snags were encountered in the city council. Possibly these will be removed. before the next meeting.

There is one thing that seems to be forgotten in connection with this controversy and that is that the Provincial Government gets nothing out of the deal. All it does is lose. At present the !! Provincial Government has some lots at the Bay which it proposes to give to the city for specific purposes as long as the MEN are wise. They keep whole question is settled for the benefit of Prince Rupert and their legs covered. the successful operation of the railway.

When the city gives its sanction to fill up the sink hole at JAKE says he does not mind Cow. Bay, it gives the railway company an opportunity to so im-lloving his neightbor if she happrove its yardage that it may be in a position to serve Prince pens to be a nice looking young Rupert better. It all comes back to use in the long run. We lady. must of course protect our own interests but we are the gainers! if conditions are improved and the smelly hole at that end of THEY tell me that oil is ob-Jaw accompanied by Mrs. Wilthe town ceases to be a menace to the health of the whole city. tained from nuts, but most of the son.

Explanation Of Railway Board Order.

Many people do not seem to quite understand what is SUCKERS are suckers, no matmeant by the order made this week by the board of railway ter where they are found. It is commissioners in confirming the former judgment and refusing easy to sell them oil stock, fake the appeal of the Montreal Board of Trade. An order was made mining claims or paregoric and some time ago by the chairman of the board that the railways they usually come back for should file tariffs to the west at equal rates, mile for mile with another dose. those to the eastern seaboard, which are set by statute. They filed a fariff conforming only partially with the order which is explained by the Edmonton Bulletin as follows:

From Edmonton to Vancouver previous to the passing of come back from Flordia. this order the rate on wheat was 13.5 cents per bushel. The rate now is 12.6 cents a bushel. It ought to be lower than that. But taking the reduction already made, the saving to the Alberta in life is usually the one who is North country never looked so farmers is tremendous.

This reduction from the former to the present rate amounts! to nine-tenths of a cent a bushel. On a million bushels the saving is \$9,000. On one hundred million bushels the saving complexion should beware of get- nothing but a good year in store will amount to \$900,000. That is, even if the present high ting alligator skin or toad warts. for them and every indication rates should be maintained in disregard of the order of the com-

It is to be supposed, now the order has behind it the authority of the full board of the railway commissioners, that The best has skin I love to pet the railways will make compliance with the terms of the order and cut down the westbound rates to a parity with the eastbound, distance taken into account.

What Rate Should Be.

mission.

If the railways do that the rate on wheat from Edmonton to Vancouver for export will be 10.2 cents a bushel over the C.P.R. lines and 9.7 cents a bushel over the National lines. Or if the higher of these rates-10.2 cents-is made applicable to both roads, which is more likely, the saving to the Albertal grower will be 3.3 cents a bushel, compared to the rate of 13.5 Canadian House of Commons are cents a bushel charged before the McKeown-Oliver Order was issued.

A saving of 3.3 cents a bushel means a saving of \$3,300,- behind the scenes the other 000 on a shipment of 100,000,000 bushels. That is what the actors are planning well ahead. McKeown-Oliver order ought to mean to the farmers of Alberta, on the export of their wheat crop only, for the year 1925. And that is what it will mean if the railways are compelled to an put that order into effect to the full.

The rate on wheat from Edmonton to Ft. William is 26 dinner if you can't hear the cents a 100 lbs., or 15.6 cents a bushel. The rate from Ed-[soup," he remarks. monton to Vancouver under this order of the railway commission cannot be more than 10.2 cents a bushel. The difference is 5.4 cents a bushel in favor of the westward route.

On an export crop of 100,000,000 bushels that spread in ment as there is on the last but freight rates works out to a difference of \$5,400,000. On every ton on a fellow's pants. carload marketed it amounts to \$54.

If Ft. William has not seen the last car load of Alberta wheat that will go via the eastward route that will have to be because the Pacific terminals cannot handle the traffic or because the Alberta farmer does not really sense the difference it makes to his pocket whether he ships his wheat eastward or westward.

In freight charges alone, the difference in marketing lasti year's crop of wheat through Vancouver under the McKeown-Inishings in the hall Oliver order instead of marketing it via Ft. William, is equiva | second floor of the Hotel Prince lent to an increased yield of one bushel on every acre of Alber- Rupert was done tonight when ta. land that was sown to wheat last spring.

at Lake Kathlyn Whereas Should be Several Thousand Tons

is due for a hard knock this sends along some zero weather in the next week or so.

Last year at this time Chas. Wilson, the Lake Kathlyn iceman, had harvested several thousand tons of ice that had thickness of twenty-one inches. in comparison with which there is now only ten inches of ice on Lake Kathlyn and he has not made a start on the cutting.

The ice crop at this lake during the past five winters has not been less than nineteen inches in thickness and Mr. Wilson is still hoping that it will increase this year up to 12 14 inches at least. If the crop is a failure this year, it will be one in five, and still no quite as bad as that of the far mers in some districts.

FROM RHEUMATISM

-THEN PERFECT HEALTH AGAIN THANKS TO "FRUIT-A-TIVES"

"I have suffered from rheumatism for 10 years and have tried many so-called remedies, and several doctors have treated me with no success. Fortunately, I was recommended to try "Fruit-a-tives" by a person in-

terested in me, and after taking four boxes was greatly helped, and finally completely relieved, and am never without "Fruit-a-tives." - Elie J. Moineau, 2052 Park Avenue, Montreal, Que.

"Fruit-a-tives" drive Rheumatism out of the system because this famous fruit medicine frees the system of the poisons which cause the pain and Inflammation.

"Fruit-a-tives" is a natural medicine, made from intensified juices of apples, oranges, figs and prunes combined with tonics. 25c, and 50c., at all dealers.
