HENRY FORD AS CRITIC OF JEWS

Says They are a Good Influence But Their International Money Power is Danger

HOLD FATE OF NATIONS

Talk of World Peace Not Possible as Long as Invisible Government Exists

(Associated Press)

NTW YORK, Jan. 22.—Henry Ford says in a copyrighted interview to Farm and Fireside that the Jews as a whole are a good influence and because they are so much smarter than "the boob Gentiles," it makes the latter "hustle to keep up."

"The Jews are not a menace, on the whole they are a good influence," Mr. Ford told Andrew Wing, managing editor of the magazine. "It serves people right if they let the Jews work them."

What Mr. Ford opposes most is "the international Jewish money power that is met in every war," which he says, is "the chief element in the Jewish question, because the international money power is Jewish."

"No matter what happens to the nations in a war, the money power always wins," asserts the manufacturer. "No war starts without it and every war stops when it says so. That is what I oppose—a power that has no country and that can order young men of all countries out to death.

"Most people who talk about world peace never penetrate to the cause of war. The pacifist organizations and others are just dabbling about the surface. As long as the international money power constitutes the invisible government of the backward nations and as long as it has so strong a hand upon the politics of the greater nationals, peace is impossible.

Profits from War

"The profits of the international money power are not produced by peaceful industry but by war; and until we dig these influences out and expose them and neutralize them, world peace cannot be hoped for. That in a nutshell is the chief element in the Jewish question for the international money power is Jewish.

"They have overplayed their hand, as they always do. It is destined, it seems, that such influences should always overplay their hands at a critical moment. Their setback in Great Britain and the United States occurred just as they thought they were sitting on top of the world."

Mr. Ford adds that "the Jewish question is here and too many people are afraid to study it."

"Neither the Jews nor the others benefit by concealment," he concludes.

She Could Never Do The Things Other Girls Did

Miss I. J. Ross, Scollard, Alta., writes:—"I am only twenty years old, but have suffered from heart palpitation and nerve trouble for several years.

I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work.

About six months ago I began taking

MILBURN'S HEART AND NERVE PILLS

and am just twice the girl I was, and can enjoy everything in general life so much more. I am very grateful for what your Pills have done for me."

TURKISH WOMEN LACK HUSBANDS

Since Break up of Harems Many Undisposed of and on Hands of Government

EUNUCHS GO TO FARMS

ANGORA, Jan. 23.—Hundreds of beautiful women, highly trained in the social graces, arts of the toilette, dancing, music and religion, who have been freed from harems, now have the Turkish government seeking husbands for them. Most of them are wholly unfitted for the practical work of life.

Abandonment of the harem also placed on the hands of the government many eunuchs, but their disposition has not been so difficult. In the absence of regular employment in the cities, they have been sent to the provincial district for work on the farms.

When President Mustapha Kemal assumed power in Angora, one of his own official acts was to banish the harems and slave householders of Sultan Mohammed VI., the princes and members of the Royal Court.

In order to set an example, most of the Nationalist government officials have one, or at most only two wives. Indeed, Mustapha Kemal Pasha has no wife at all, having recently been granted a divorce. Economic conditions also serve to make it almost impossible for one to indulge in the old luxury of plurality of wives.

Prior to the present social revolution in Turkey, every woman was obliged to veil herself from all except her father, brother and husband. If a man, either Turk or foreigner, entered the sacred precincts of the harem, he usually paid with his life, while the master also had the right to kill his unfaithful wife or concubine.

Only three foreigners, an American, a Britisher and a Frenchman, are known to have entered a real harem when it was occupied, and they were disguised as Turks and spoke the Turkish language. By posing as government representatives, they escaped the usual penalty.

Any departure from the rules of conduct in the harems were severely punished by the eunuchs who maintained security of the places and who were euphemistically called "Masters of the Maidens," or "Chiefs of the Abodes of Felicity."

While Sultan Mohammed VI had only four legal wives, he had at his disposal several hundred "ikbals," or favorites. Sultan Abdul Hamid was said to have had 1,000 wives in his harem.

MEIGHEN WOULD GIVE ONLY SYMPATHY TO PEACE RIVER PEOPLE

Says in Letter to Robert Forke Not Ready to Undertake New Enterprises Yet

In a letter written by Hon. Arthur Meighen to Robert Forke outlining the Conservative policy and later read in the House of Commons at Ottawa the Conservative leader says:

"Peace River outlet: Without doubt there will have to be provided a western outlet for the Peace River territory. It would be provided as soon as possible, because until it is, that territory cannot develop as so splendid a district should develop, because of the very long haul freight rates which now are necessary. At the same time, I stated frankly in our interview that I could not undertake an immediate outlay for this purpose.

"Undoubtedly the cost would run into a very large sum and we should be in a better position to take care of the responsibilities entailed by railways already constructed before we venture on any new large enterprises. The sooner we are in a position, however, to go on with this the better I will be pleased, as we must all have the very greatest sympathy with people who have gone into that district."

From Pillar to Post

"Your speedometer shows you have gone 25,000 miles. Been taking some long tours?"

"No, the 5,000 is the distance I have covered going back and forth to the office and the other 20,000 the distance I have covered looking for parking places."
