JOSEPH SANKEY IS COMMITTED FOR TRIAL

GOVERNMENT SUSTAINED ON NON-CONFIDENCE MOTION BY MAJORITY OF SIX

Ottawa Excited as Vote is Taken on Resolution Which Tories Suddenly Presented

OTTAWA, June 16.—After a debate lasting throughout yesterday and well into this morning, the House of Commons at 2.10 a.m. rejected a Conservative motion of non-confidence by a majority of six. The vote against was 113 and for, 107.

In the division, two Alberta Progressives voted with the opposition. They were Lucas of Camrose and Boutilier of Vegreville. Other Progressives, Independents and Labor members went with the government.

There was intense excitement. The House had scarcely opened up for business when the motion came unexpectedly. Fred Davis, conservative member for Calgary East, moved that the House, because of failure to implement promises made in the speech from the throne and for other causes, has no longer confidence in the present government. Davis said that much promised legislation whereby the natural resources of Alberta would be restored to the province were not being put into effect.

Particular interest was created in the announcement of the division as Premier King had told the House early in the debate that, if the vote carried, the government would not hesitate in dissolving parliament and appealing to the people.

Rt. Hon. Arthur Meighen, leader of the opposition, declared that, if the motion carried, it would be the duty of the government to resign.

LABOR LEADER ON WAGE PACTS

William Green Condemns Strikes That Violate Agreements — Speaks to Rotarians

DENVER, June 16.—General strikes which would involve the violation of wage agreements are condemned yesterday by William Green, president of the American Federation of Labor, addressing the Rotary International Convention. The general strike, he said, meant that line of industrial conflict was immediately changed so that it seemed to become a contest between employees and the government rather than employees and employers. He contended that the real issues of the strike were lost sight of in a maelstrom of public opinion and public inconvenience.

Premier Baldwin announced this in parliament yesterday stating that it seemed preferable to wage reductions as one of the two alternatives that must be adopted in solving the present difficulties.

F. McLeod, in the provincial police court. He will face a jury, it is expected, at the next session of the Supreme Court Assizes in the fall.

Evidence as to the finding of human blood stains upon garments worn by the prisoner on the day of the murder was given by Dr. J. A. West and articles of clothing taken from the prisoner were identified by Provincial Police Inspector Spiller and Constable T. A. Gamm.

Examination of witnesses was conducted by A. M. Johnson, K.C., crown prosecutor, and by L. W. Patmore, counsel for the defence.

Inspector Spiller was the first witness to take the stand last night. He testified that, when in Port Essington on May 24, he had searched the accused personally and also the shack in which he resided. A pair of brown shoes worn by the prisoner, also a woollen undershirt, trousers, cotton shirt and khaki shirt, from which portions of blood stains had been taken by the police for pathological examination by Dr. West, were offered as exhibits.
