

Many Grateful for its swift Relief

From all parts of Canada and beyond, come voluntary expressions of gratitude from people benefitted by Buckley's Mixture.

One woman writes: "I would pronounce it worth its weight in gold".

Another says: "It is the best thing I have ever taken for Bronchitis".

This from a man: "It is sure a wonderful medicine".

"Coughed for 13 years, but it was stopped by your marvellous medicine", asserts another.

Scores of original letters in our files attest the unique power of "Buckley's" in instantly relieving Coughs and Colds of all kinds. Druggists everywhere sell and guarantee it.

W. K. Buckley, Limited 142 Mutual Street, Toronto 2

A NEW AID TO CHIROPRACTIC

DR. McMILLAN HAS INSTALLED AN INSTRUMENT FOR DETECTING DIMINUTION OF NERVE FORCE

By his knowledge of anatomy and of the proper position of the joints surrounding the spinal column, the chiropractor knows by touch when any joint needs adjustment. Some patients however, have been known to fool the chiropractor, when for some reason or another he was unable to trace the one joint out of alignment.

Dr. McMillan has had this instrument in his office for the last two months and has tested it thoroughly. It works—and that is its whole justification.

It is at the service of patients without additional cost. For appointments, Dr. McMillan's phone, number is 691 and his address is Exchange Block, rooms 6 and 7, at the corner of Sixth Street and Third Avenue. Advt.

JOHN F. MAGUIRE DIED IN VANCOUVER

Was Formerly in Business Here, Was Keen Sportsman and Encouraged Music

The death occurred recently in Vancouver after illness lasting only a few days, of John F. Maguire, formerly of Prince Rupert and previous to that a resident of Hazelton. He was well known throughout this part of the country having engaged in business here and also having been interested in encouraging good music by arranging...

WATER NOTICE

TAKE NOTICE that Gosse Packing Company, Limited, whose address is Vancouver, B.C., will apply for a licence to take and use 100,000 gallons per day of water out of Unnamed stream, which flows northwesterly and drains into Captain's Cove at head of Captain's Cove. The water will be diverted from the stream at a point about 700 feet from mouth and will be used for commercial and domestic purposes upon the land described as Lot 1233, Range 4, Coast District. This notice was posted on the ground on the 4th day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 10, 1926.

WATER NOTICE

TAKE NOTICE that Department of Public Works of Canada, whose address is Ottawa, will apply for a licence to take and use 3,000 gallons per day of water out of unnamed stream, which flows easterly and drains into Dodge Cove on the east side of Digby Island, B.C. The water will be diverted from the stream at a point about 100 feet west of the northwest corner of Lot 36, subdivision of part of Lot 1993, Range V, and will be used for domestic purposes upon the land described as Dodge Island. This notice was posted on the ground on the 22nd day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 24, 1926.

WATER NOTICE

TAKE NOTICE that John Dybhavn, whose address is P.O. Box 1700, Prince Rupert, B.C., will apply for a licence to take and use 4,000 gallons per day of water out of an unnamed creek which flows northerly and drains into Nesto Inlet, on its south shore. The water will be diverted from the stream at the natural outlet of a small lake, about 650 feet from the mouth of the creek, and will be used for domestic and industrial purposes upon the 7 acres of land described as unreserved land for which lease is applied. This notice was posted on the ground on the 23rd day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is December 1, 1926.

Pneumonia Left Her With A Bad Cough

Mrs. W. R. Bennett, 2307-14th St. West, Calgary, Alta., writes:—"Over a year ago, before my twins were born, I had an attack of pneumonia which left me with a very bad cough. Being under the doctor's care, he tried first one thing and then another, but I coughed day and night. A friend brought me a bottle of Dr. Wood's Norway Pine Syrup for to try, and after coughing for two months and taking four six ounce bottles of cough medicine, I got rid of my cough with one and a half bottles of Dr. Wood's Norway Pine Syrup."

Price 35c. per bottle, large family size 60c.; put up only by The T. Milburn Co., Limited, Toronto, Ont.

ing for outside artists to appear here. He was also keenly interested in public questions and in the development of this port.

In his early days Mr. Maguire had been a keen sportsman and was the first to introduce the game of badminton into Prince Rupert, using a part of his place of business for this healthful recreation.

His daughter, Mrs. Dalby Morkil, was known from her frequent visits to her father and for her ability as a vocalist, she having often entertained Prince Rupert audiences with her art.

Mr. Maguire is the last member of the family, Mrs. Maguire's death having preceded his by several months.

THE MAN IN THE MOON

The difficulty about the hats the local stores sell is the overhead expense.

A Scotsman is reported to have wanted to break off the engagement when his fiance became fat, but as she could not get the ring off he had to marry her.

I have a kitten with at least ten lives. The average cat is said to have nine but this one is away livelier than the average.

The Ottawa circus which opens December 9 promises to be much less amusing than last year owing to the fact that a number of the clever acrobats have been left at home by the promoters of the big show.

The people most of us dislike are tax collectors, meter readers, and umbrella men. There are a few I might add to the list for my special animadversion which include proof readers, restaurant and boardinghouse keepers, insurance agents, book agents, creditors and borrowers.

I suggest there be a law to make it criminal for a person to speak without thinking. But then you can't put the whole population in jail except Dumb Jacko.

Blessed are the poor. They never wear dress clothes at an evening party.

What a flattering thing it would be for some of us if we were important enough to be shot at like Mussolini.

Everything good is bad if taken immoderately.

A local shiek who was out last night says it was not only his head that was empty. "You ought to have seen the pay check at the Boston."

You can tell Christmas is coming by the number of bazaars and business sales.

Ten Years Ago in Prince Rupert

DECEMBER 1, 1916.

The idea of a municipal elevator being established in Prince Rupert is being advanced and there is no doubt that it will receive the support of some members of the city council.

R. G. Johnston, manager of Inverness cannery, announces that he has organized a company to be known as the Provincial Cannery Ltd. which will build a cannery at Rivers Inlet. Mr. Johnston will continue as manager of the J. H. Todd cannery at Inverness.

Word has reached here that the Canadian Fish & Cold Storage Co.'s barge Donald D., which went adrift recently in Queen Charlotte Sound from the tug Dola, is now a total loss in Godfish Passage north of Hecate Island.

Constantinople has dedicated a new Widows' Home, the first institution of its kind in Turkey.

REMINDER ABOUT COW BAY FLOATS

WILL BE SENT BY CITY TO FEDERAL AUTHORITIES, COUNCIL DECIDES

The city council, on motion of Ald. Casey, seconded by Ald. Stephens, decided last night to remind Hon. James Melcoim, federal minister of public works; Hon. Dr. J. H. King, former minister of public works, and J. C. Brady, M.P., of a communication dated February 27 from Dr. King in which it was stated that consideration of an appropriation for the construction of wharves and floats at Cow Bay would be taken up in connection with the supplementary estimates. The communication will urge that construction of said wharves and floats be proceeded with.

AN OUTLET ON THE PACIFIC

(continued from page two)

pulp and paper is almost unlimited, with water powers and transportation facilities available for the successful development of such industries.

What with the vast timber resources, available water powers, transportation facilities and an open door to the markets of the world through the Port of Prince Rupert, Northern British Columbia offers a most attractive field for lumbering activities.

Farming is the staple industry in the great valleys contiguous to Prince Rupert. Along the line of the C.N.R. great strides have been made in fruit and mixed farming, while an additional source of revenue is found by many settlers during the winter months, when agricultural operations are lightest, in the production of poles and railway ties either from their own uncleared lands or from other timber limits. Indeed, at present, some of the pioneer farmers make as much money out of the ties, poles and cordwood they produce as from their agricultural crops. Of course, eventually, when the land is more extensively cleared and markets extended, they will devote their efforts exclusively to farming.

TERRACE

Terrace is the centre of the fruit belt, great success having been attained at that point in the growing of small fruits, especially strawberries. A good many of the ranchers are also going in for the growing of apples, pears and cherries, and have met with marked success. Other fruit-growing valleys are the Kitsumkalum, Lakelse, Bella Coola, and the Naas.

About 150 miles east the country and climate change and the soil is more suitable for mixed farming. This applies especially to the Bulkley Valley, of which Smithers is the principal town, being a divisional point on the line of the C.N.R. The land in this district has proven good for the growing of wheat, oats and more especially timothy. There is no doubt that in the near future the valley will be a great producer of dairy products.

BURNS LAKE

Burns Lake is the centre of the Lakes District, where stock-raising is carried on to a great extent. This industry will increase greatly with the construction of abattoirs which one of the large packing houses is proceeding with at the present time.

Estimated areas available for the settler: Skeena Valley, 200,000 acres; Francois Lake, 64,000 acres; Nechaco Valley, 200,000 acres; Naas River, 300,000 acres; Bulkley Valley, 120,000 acres; Fraser Lake, 15,000 acres; Bella Coola, 350,000 acres.

Mining development has been greater this year than ever before in all parts of the northern portion of the province, and particularly in the Stewart Alice Arm and Kitsumkalum Lake sections. A great many properties were under development during the summer season on which work will be resumed as soon as weather conditions permit. Several properties had work carried on continuously through the winter and indications are that the coming year will prove some new producers.

Production has exceeded that of last year, reaching nearly \$11,000,000 in the three metals produced in this north country, viz.: gold, silver and copper. This makes a total production in the last three years of over \$30,000,000, and \$86,000,000 in the last ten years, previous to which the output of this part of the province was negligible. It has the greatest mineral production of the province.

Since 1914, this district has produced approximately 785,000 ozs. of gold, 14,000,000 ozs. of silver, and 293,000,000 lbs. of copper.

HUNTERS' PARADISE

Prince Rupert is also the headquarters and centre of a hunter's paradise. Within a few hours' boat journey one can obtain all classes of shooting during the hunting season, including bear, goat, deer, geese, and all species of ducks. There are splendid streams and large trout lakes where one may enjoy trout fishing unsurpassed in any waters.

At Lakelse Lake, 90 miles east of Prince Rupert, on the G.T.P., there is obtainable good grizzly bear and goat shooting and excellent trout fishing, added to which there is situated at the south end of the lake a mineral hot spring. A hotel has been erected at this spot where tourists may enjoy an excellent holiday.

From Hazelton or Prince George one may obtain pack horses and guides, and in a day or so be in good moose and caribou country.

When we come to consider railway facilities Prince Rupert has as fine a connection as almost any place on the

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1925.

Has produced Minerals as follows: Placer Gold, \$77,663,045; Lode Gold, \$122,808,459; Silver, \$74,111,397; Lead, \$89,218,907; Copper, \$197,942,647; zinc, \$39,925,947; Miscellaneous Minerals, \$1,594,387; Coal and Coke, 273,048,953; Building Stone, Brick, Cement, etc., \$44,905,886; making its Mineral Production to the end of 1925 show an

Aggregate Value of \$920,919,628 Production for Year Ending Dec. 1925, \$61,492,242

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES Victoria, British Columbia.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

continent, for, as has been mentioned, it is the western terminus of the Canadian National Railway, and is thus linked up with the entire railway system of Canada. It is also well furnished with sea transportation facilities; for, besides being served by the Canadian National Coast S.S. Co. plying between Alaska and the southern ports, it has the additional advantage of the vessels of the Canadian Pacific and Union S.S. Companies which connect it with the outer world.

SMALL CITY Prince Rupert is still small among the cities of Canada, but it is still young. The first lot sold for building purposes was as recently as 1909, just seventeen years ago, and incorporation was not effected until a year later. The port can, therefore, boast sixteen years of corporate life. But the future is before it. The people of Prince Rupert are not content to sit still and wait for what destiny may send; but with infinite hope in their hearts they are straining all their power to make for a prosperity that will be lasting and a source of permanent strength to the whole of the Dominion.
