Quaker Oats and Milk!

the breakfast that "stands by" you through the morning

"Hot Oats and Milk" is the breakfast recommended by health authorities today.

An ill-chosen meal at the beginning of the day is a mistake. Breakfast is all important. To be right and to feel right you must start the morning with well-balanced, complete food.

Oats is the best balanced of all cereals. It is rich in *protein*, the great tissue builder, in carbohydrates, the energy producer, and in the essential mineral salts. Few foods have its remarkable balance. That is why Quaker Oats and milk are so widely urged to-day. It is a breakfast that "stands by" you through the morning.

You will know the genuine Quaker Oats by the Quaker figure on every package. No other oats have the delicious flavour, brought out by Quaker milling.

SORE THROAT?

DEAL promptly with the first sign of hoarseness, soreness or inflammation—it might be the forerunner of laryngitis, influenza or serious bronchial trouble.

The quickest, safest and most soothing remedy is Peps. As a Peps tablet dissolves in the mouth it gives off medicinal fumes that are *breathed* into the innermost recesses of throat and chest.

In their speedy direct way Peps thoroughly disinfect the throat and air-tubes, destroy mischievous germs, relieve any soreness, inflammation or irritation.

Take Peps whenever you *suspect* you need them. A Peps in the mouth filters the air you breathe, and fortifies against sudden colds and chills and the infection dangers encountered in trains, street cars and crowded assemblies.

Peps are equally good for obstinate cough and colds, bronchitis, bronchial asthma, and other chest weaknesses of old and young
