Consolidated Secretary Takes Stand but Fails to Make Explanations

Hysterious telegrams, promissory notes and contributions to campaign funds disclosed to commission in Vancouver

VANCOUVER, December 9 .- Material for a melodrama de. he was mayor in 1910, 1911, 1915, 1925 seloped at Wednesday's sitting of the customs commission. There were mysterious code telegrams for which witnesses absolutely failed to furnish the key. There was talk of liquor running by automobiles across the border with offers of return cargoes of machine guns to be transported to China. There were details of checks and accounts with items of many thousands of dollars labelled for campaign funds. Finally, there was evidence which indicated it was a comparatively easy matter to smuggle goods from the United States
