SALT CHUCK ORE OF HEAVY VALUE

Alaska Mine, Shipping Through Here, Produces $320,000 Worth of Palladium Annually

Alaska's only palladium mine, the Salt Chuck near Ketchikan which uses the port of Prince Rupert for the shipment of its production, is now producing about 350 tons of ore per day. The mine has been in production since the fall of 1923, or since the concentrating plant was placed in operation. It was mined on a limited and intermitent scale before that time.

The Salt Chuck's chief metal content, or rather the most valuable part of the metal content, is a palladium ore which belongs to the platinum group. Salt Chuck now produces between 4,000 and 4,500 ounces of palladium per year, worth about $80 per ounce. The ore is concentrated at the mine and the concentrates are shipped via Prince Rupert to Irvington, N.J., for final treatment. Besides palladium, the ore carries copper, gold, and silver.

Salt Chuck is the biggest producer of palladium ore on the American continent. Mineralogists who have visited and inspected southeastern Alaska believe it is a country likely to contain many deposits of palladium ore. The Salt Chuck is controlled by J. E. Chilberg, former Seattle banker, who now stays on the property and manages it. Other Seattle men are interested.

TIMBER SALE, X7549.

Sealed Tenders will be received by the Minister of Lands at Victoria not later than noon on the 22nd day of April 1926, for the purchase of License X7549 to cut 5,353,000 feet of Spruce, Hemlock, Balsam and Cedar, on an area situated on Paril River, Ochwe Bay, Gardner Canal Range 4, Coast District.

Three (3) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

WATER NOTICE.

Diversion and Use

TAKE NOTICE that George Little and Clair L. M. Giggey, whose address is Terrace, B.C., will apply for a license for clearing streams purposes on Kitsumgallum River (from its mouth to source approximately 16 miles), which flows southerly and drains into Skeena River about 90 miles east of Prince Rupert The river to be used for rafting, driving or otherwise conveying poles, piling, ties saw logs and all forest products, and the construction of booming and holding grounds at the mouth of said river and elsewhere. This notice was posted on the ground on the 6th and 7th days of January, 1926. CONSERVATIVES EXPRESS CONFIDENCE IN LEADERS

VICTORIA, Mar. 8.—The following resolution was adopted at a meeting of the executive of the Liberal-Conservative Association here.

"This executive assembled does hereby resolve that a vote of confidence be passed in the leader of the Opposition, Rt. Hon. Arthur Meighen, and the men he has supporting him in the stand taken against the Liberal-Progressive Government now holding power at Ottawa.

"And that we go on record that our local member, the Hon. S. F. Tolmie, by his actions deserves the continued confidence of all Liberal-Conservatives in the city of Victoria. And that a telegram be sent embodying the resolution to our local member to be placed before the Liberal-Conservative opposition in Ottawa."

Although a skilful flatterer is a most delightful companion if you can keep him all to yourself, his taste becomes very doubtful when he takes to complimenting other people.—Dickens.

WATER NOTICE.

USE AND STORAGE.

TAKE NOTICE that Wallace Fisheries Limited whose address is 1001 Vancouver Block, 736 Granville Street, Vancouver, B.C., will apply for a licence to take and use 20 cubic feet per second and to store 2395 acre feet of water out of Claxton Creek, also known as Wallace Creek, which is a tributary of the Skeena River, and flows southwesterly and drains into Skeena River about 26.00 chains south of the northwest corner of Lot 20, Range 5, Coast District.

THE STORAGE DAMS will be located at the following places, their capacities will be as respectively set forth, and they will flood the areas respectively shown:—

1. Located: Natural Outlet to Icy Lake at head of Wallace Creek. Capacity, 420.0 acre feet. Will flood, 56.65 acres.
2. Located: Natural Outlet to Useless Lake at head of Wallace Creek. Capacity, 41.0 acre feet. Will flood, 12.00 acres.
3. Located: Natural Outlet to Ptarmigan Lake at head of Wallace Creek. Capacity, 300.0 acre feet. Will flood, 47.61 acres.
4. Located: Natural Outlet for Emergency Lake, at head of Wallace Creek. Capacity, 198.0 feet. Will flood, 22.67 acres.
5. Located: Natural Outlet for Artificial Lake, about ¼ mile upstream from mouth of Wallace Creek. Capacity, 236.0 acre feet. Will flood, 15.65 acres.
6. Located: 3 Dams near head of Claxton Creek at Natural Outlet to Lakes. Capacity, 1200.0 acre feet. Will flood, 156.28 acres.

The water will be diverted from the stream at a point about 2000.0 feet northeast from the southwest corner of Lot 20, Range 5, Coast District, and will be used for Power and Industrial Purposes upon the land described as Lot 20, Range 5, Coast District and upon Foreshore Lease fronting thereon and numbered in the Lands Department as No. 265 to be known, subsequent to survey as Lot 6855, Range 5, Coast District.

THE STORAGE LICENSE applied for is as to 959 acre feet thereof to supplement and right to take and use 8.24 cubic feet per second under Conditional License No. 3794 and 11.2 cubic feet per second under Conditional License No. 3795, and as to 1436 acre feet thereof to supplement the right to take and use the water applied for herein.

THIS NOTICE was posted on the ground on the 1st day of February, 1926. A copy of this notice and an application pursuant thereto will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is February 4th, 1926.

NORTHERN DOGS BRING HONORS

Teams Return With Drivers After Taking Part in Races

WINNIPEG, March 6.— Four teams of dogs with their drivers reached Winnipeg late last night enroute to The Pas from Montreal via Canadian National Railway. The drivers, Emile St. Goddard, Shorty Russick, Earl Brydges and Bill Grayson, reported a splendid trip east and all spoke of the enthusiastic reception they received in New England where they were among the eleven entries in the first dog derby ever held in the district. Russick's dogs returned with first prize in this race and St. Goddard second.

During a short visit reporters paid to the dogs in their "side door Pullmans" before leaving the Union Station this morning for The Pas, they remarked the difference in the reception accorded strangers by the various teams. St. Goddard's dogs were by far the most quiet and his dog "Hart" which bears a strong resemblance to the famous movie dog "Strongheart" was the most amiciable and friendly. The eight Indian dogs which comprise his present team belong to St. Goddard personally, he states, and have all been acquired by him since last winter, with the exception of the leader, which he used with Dacon's team to win the 1925 Dog Derby. Last year's team he reports are now acting for the movies in California.

ABANDONED FARMS OF SOLDIERS DISCUSSED

Proposal to Seattle 3,000 of them Under Empire Settlement Plan

VICTORIA, Mar. 8. — If lands abandoned by returned soldiers are revalued before being sold to settlers under the Empire Settlement Act scheme, lands still being farmed by veterans should be revalued, too, in the opinion of delegates to the conference here of the Farmers' Institutes of Vancouver Island.

Delegates from Metchosin came to the conference armed with a resolution calling upon the Dominion Government for a full and complete statement indicating the conditions under which immigrants are being settled on abandoned veterans' farms and outlining their prospects for "making good."

But the resolution was withdrawn after Major T. Godfrey, Vancouver Island Supervisor for the Soldier Settlement Board, had explained the Empire Settlement Act scheme.

Plan Explained

Major Godfrey pointed out that in July, 1924, 3,000 returned soldier settlers had abandoned their farms. The Empire scheme had then been evolved. The plan conceived was to locate selected immigrants on the vacant farms for trial periods of twelve months. No rents are charged during the trial period, and at its expiration the land is offered for sale to the immigrants, provided they show, in the interim, they are likely to make a success of farming in Canada. Major Godfrey was thanked for his explanation, and the meeting decided to shelve the resolution.

SPEEDING UP BOATS IN ALASKA SERVICE

Princess Mary Will Continue Till End of May on Ten Day Schedule—Tourist Boats Start in June

The Princess Mary will continue in the C.P.R. Alaska service until June but, from now on, will carry out a ten-day schedule instead of the fortnightly one that has been in effect during the winter months. Starting about the first of June, the tourist service of the C.P.R. to Alaska will open with the Princess Louise and Princess Charlotte running opposite each other on a five-day schedule. In July the Princess Alice will make three special trips giving a two-boat-a-week service during that month.

CUT GLASS WEEK

How to know real Cut Glass, what to look for and what to avoid in selecting genuine Cut Glass.

The brilliant diamond-like sparkle which is the chief charm of the genuine article is only produced after careful and painstaking work on the part of expert workmen.

The ordinary pressed glass tumblers and glassware with their yellowish tinge, yield a dull clink when struck, which is not to be compared with the musical bell-like tone of the genuine Cut Glass.

The high percentage of lead in high grade glassware gives it that scintillating brilliancy.

See our window display this week.
