1894 DUNLOP 1926

The Story the Years Tell

In these days of value-seeking, the knowing motorist, looking for proven dependability over the years, can see nothing to it but "DUNLOPS." To-day DUNLOP is giving you a Balloon Tire greeted everywhere as the "Real Goods."

Go back Five Years and Dunlop was giving you the first Tip-Top Cord Tire.

Go back Fifteen Years and Dunlop was giving you the first real Anti-Skid: Traction Tread—

Go back Twenty Years and Dunlop was giving you the first Straight Side Tire—

Go back Thirty-Eight Years and J. B. Dunlop was giving you the first Pneumatic Tire the world had ever seen.

The fact that the Dunlop Dealer is willing to stake his reputation on, and invest his money in, Dunlop Tires, shows he has faith in the Dunlop Product, and feels that it is a good investment for you.

The judgment that tells you INDIVIDUALLY to buy Dunlop Tires, Belting, Hose, Packing, Golf Balls, etc., is the judgment of the MANY.

FRENCH ALL RIGHT BUT BRITISH BETTER

That is Idea of Duchess of Portland in Regard to Fashions

LONDON, March 9. — The Duchess of Portland has donned her fighting clothes to stimulate interest in all British fashions for women.

Paris styles were good, she admitted, but London modes too are up-to-date. The Duchess has visited her favorite shops here personally and informed the owners that unless they handled Nottingham lace and other dress material from British manufacturers she would strike them off her list.

For the first time in the history of the trade the advance fashions of spring were shown here instead of exclusively in Paris. Appelene, green grass and turquoise are among the spring colors.

MUST HAVE CHAPERONE IF THIS LADY GOES

LONDON, Mar. 9.—The daughter of a cabinet minister almost started a panic by telephoning the organizer of a little dancing party that it would be impossible for her to attend unless there was a chaperone.

Debutantes have treated chaperones so shabbily of recent years that the venerable dowagers who used to delight in sitting on the sidelines at balls have nearly all gone on a strike.
