

"Unless someone tells her about her eyes—she'll need an extension on her arm"

The woman is far-sighted, but doesn't know it. How ridiculous she makes herself look, in her attempt to read the menu! Too many women, and men too, go through this same futile performance. Be sure that your own sight is normal.

Have your eyes examined!

## LEAGUE AGENCY IN WASHINGTON

HEADQUARTERS FOR BIG WORLD  
ORGANIZATION OPPOSITE STATE  
DEPARTMENT

WASHINGTON, Oct. 12.—An official agency of the League of Nations, the International Labor Office with headquarters at Geneva, is operating almost at the front door of the State Department.

Although the United States stays outside the League, recognition has been given to the Washington Branch of the International Labor Office, which is exempt from taxation and which is permitted to import duty free books and documents from the Geneva headquarters.

**INTERPRETS U.S. LABOR**  
The office has been operating here quietly for some time and only recently came to public notice with the issuing of a series of public statements dealing with its activities and with the worldwide work of the Geneva office.

Leifur Magnuson, a former official of the American Labor Department, is director of the Washington Branch, the prime purpose of which is to interpret the industrial and labor situation in the United States for the central office.

"The Washington Branch collects federal and state government publications in the field of labor and industry and sees to it that they are regularly dispatched to Geneva," said Mr. Magnuson.

**AFTER 8-HOUR DAY**  
"It prepares memoranda in response to specific inquiries from the central office. Larger researches also have been undertaken among which have been a study of the housing situation in the United States; the use of leisure time by industrial workers; the status of health insurance and old age pensions in this country. For associations and individuals in this country, this branch gives information concerning the work of the Geneva office."

Inquiries directed by members of congress, government departments and state officials to the Washington branch deal with such subjects as industrial conditions in Egypt, China, Japan and India world unemployment and price movement, working women in industry in the different major countries, establishment of the eight hour day and 48 hour week abroad.

The International Labor Office, has as its prime object the establishment of the eight-hour day and the 48 hour week among the laboring people in all countries.

**LAND ACT.**  
Notice of Intention to Apply to Lease Land

## BID INVITED FOR REPAIRS

PRINCE RUPERT SHIPYARD ASKED TO  
GIVE PRICE ON KAIYU MARU

VICTORIA, Oct. 12.—Prince Rupert as well as other shipyards is invited to bid on the repair job for the Kaiyuu Maru and it is expected the work will run into \$200,000.

The ship is beached at Blenkinsop Bay, where patching the hull is being completed. Officials of the Pacific Salvage Company stated this week they expect to refloat the vessel, following which she will be towed to Vancouver and drydocked for survey by underwriters and shipyard surveyors.

Both the Victoria Machinery Depot and Yarrows, Limited, will send one of their men over to Vancouver to make a bid for the contract. Damage to the vessel is of such an extent that it will take approximately three months to complete, and will provide employment for some 150 to 200 men. Victoria firms will make a strong effort to secure this contract.

## MUCH TOUGH AND SPROUTED GRAIN

Only Forty per cent of Prairie Grain  
Threshed at Week End

Fine weather has prevailed during the past week in Alberta and in parts of Saskatchewan and threshing is general says the Bank of Montreal report. Elsewhere on Prairies there have been further rains. There will be much tough and sprouted grain, but extent of this will depend on future weather, as probably not more than 40 per cent of threshing has been completed. In Quebec quality of grain crops as a whole has been affected adversely by heavy rains during the harvesting operations. In Ontario dry weather during the past week has enabled most farmers to complete their grain harvesting. In Maritime Provinces weather conditions for completing harvest have been favorable and roots will be a good yield. In British Columbia harvesting of all crops, except late apples and roots, is practically completed.

## WATER NOTICE.

Division and Use.

TAKE NOTICE that Robert George Johnston, whose address is Inverness, Canada, will apply for a license to take and use 10,000 gallons per day of water out of creek west of what is known as Kitsoo, known as (no name), which flows south-east and drains into Trout Bay about 400 feet south along the beach from the south-east corner of Kitsoo Island. The water will be diverted from the stream at a point about 500 feet from its mouth and will be used for domestic and canner purposes upon the land described as Lot "A", Kitsoo I.R. This notice was posted on the ground on the 15th day of September, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is September 14th, 1926.

ROBERT GEORGE JOHNSTON,  
Applicant.

## WATER NOTICE

Division and Use.

TAKE NOTICE that J. Kyle, whose address is Wrangell, Alaska, and Telegraph Creek, B.C., will apply for a license to take and use 2,000 miners' inches flow of water out of Bucks gulch, which flows easterly into Dease Creek. The water will be diverted from the stream at a point about two miles up the stream from its mouth into Dease Creek and will be used for hydraulic mining purposes upon bench placer claims known and described as leases No. 120 and 121. This notice was posted on the ground on the 23rd day of July 1926.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Telegraph Creek.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is September 14th, 1926.

H. D. KYLE, Applicant.

## ANNIVERSARY UNITED CHURCH

LARGE NUMBERS TOOK PART IN BIG  
ANNUAL EVENT

The Prince Rupert United (Methodist) Church celebrated its eighteenth anniversary with special services on Sunday and a congregational supper last night.

On Sunday the pulpit was taken by Rev. William Allen of Terrace and there were two excellent services. Music in the morning was by the children and, in the evening, by the senior choir.

There were two hundred present at the supper and concert, both of which were under the auspices of the Ladies' Aid. Mrs. J. Krievsky president. The social parlors were suitably decorated and a splendid fare was provided for the large turnout.

After the supper, the festivities were carried into the auditorium of the church where a program of much excellence was enjoyed. Mrs. Anderson, accompanied by Mrs. Donald Ross, and Mrs. F. W. Allen and J. S. Wilson, accompanied by Mrs. Cullen, were much appreciated soloists. A vocal duet by Mrs. Allen and Mr. Wilson proved very popular and Miss M. A. Way's piano solos were of their usual quality and skill. Miss Marjorie Lancaster's violin solos, with Mrs. H. C. Fraser accompanying, were much applauded and Miss Louie Fisher won the audience with her clever elocutionary numbers.

In the course of the evening, Rev. William Allen, punctuating his remarks with humorous sallies, delivered a fine address on "The Changes in the Kirk" dealing with the development of the services from the olden days to the modern. He also referred to the many improvements in church music.

The evening's entertainment was brought to a close with the singing of the National Anthem.

## GOSSIP ABOUT WOMEN

### ORDERS MEN TO WORK

On a tour of investigation among the villages of the Black Sea region, the Governor found that farm work was being done by women, while their lords and masters sat in the village coffee houses smoking and gossiping.

The Governor gave orders to the mayor of each village in this district, that every able bodied man should be forced to work in the fields during the day and that none should be allowed to sit in the coffee houses during the hours when the women were toiling.

### ALL HAIR LONG

The island of Ushant, in Brittany, claims to be the only point left in Europe wherein bobbed hair is unknown. The women all wear their hair long and down the back. Viewed from the rear it is difficult to discern among the female element, children, mothers or grandmothers, as they all look like young girls of a generation past, when long curls were the rule.

### RENEW SUFFRAGE FIGHT

French militant suffragists are going to carry their demand for the vote to every town, village and farmhouse in France. Under the leadership of Mme. Marthe Bray, president of the League for Immediate Suffrage, flying parties will tour France in automobiles, concentrating their work on the individuals.

Heretofore feminine persuasion has been brought to bear largely on the politicians. There have been many "fair promises," says Mme. Bray, but little action.

The League for Immediate Suffrage hopes by its personal appeal to the people of the country to get a measure granting suffrage to women through the next session of Parliament, which meets this month.

### LONDON'S "SHE-SHYLOCKS"

"She-Shylocks of the Slums" is the epithet applied to women who specialize in small loans to wives of working men in the poor districts of England's great cities.

One of these money lenders has been fined five pounds for transaction in which the interest charged was at the rate of 866 per cent a year. The lady was not fined for her high interest rate, but for operating without a licence. The business could have been legalized merely by filling out a form and paying a small fee.

There are hundreds of "She-Shylocks" in Great Britain. They make loans for a few shillings to poor, ignorant women who usually meekly submit to exorbitant interest charges rather than let their husbands know they are in the toils of money lenders.

### WOMAN BLACKSMITH

Rosa Steinklauber, blacksmith, is one of the best known artisans in Eggenburg, Austria.

A diploma testifies that she is a "fully articulated, having served her apprenticeship and satisfied her examiners that she is entitled to call herself a master blacksmith."

Rosa is a cartwright as well as a blacksmith. She is a handsome woman, whose strength is equal to that of any man, and can shoe the most refractory horse.

### PREMIUM FOR NURSING

A premium of 750 marks for all mothers nursing their children for at least 16 weeks has been appropriated by the Reichswehr Ministry for Public Welfare. This premium will be paid to the persevering mother at the expiration of the 16th week and repeated

# The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful and interesting.

Every manager of a household—every member of the household who shares the responsibility for the family's welfare—should make a habit of reading the ads.

Read the advertisements in order  
to buy wisely

after the 20th and 24th week.

### COOK 30 YEARS

Premier Briand has retained his cook over a period of thirty years. On each of his twelve sojourns in various ministries, M. Briand took the faithful cook along with him. She enjoys a high reputation among the diplomats and statesmen who attend banquets given at the Quai d'Orsay and has become such an important person that she was recently interviewed.

"Monsieur Briand may be in the right place at the Foreign affairs," she volunteered, "but I would hate to have him go to the Finances."

"Why," asked the interviewer, "He never checks up my accounts," she replied.
