JAPANESE SLUM TERRIBLE PLACE

Veritable Den of Filth in Which Life Has no Purpose and Odors are Vile

Sadness without strength for tears, squalor too general to permit comparisons which might excite a desire for improvement, misery born dumbly—the sadness, squalor and misery seen in the slum quarter of Nipponi is a revelation of one phase of the modern civilization which claims Tokyo, says the Japan Advertiser.

In the Nipponi slum district from 2,500 to 3,000 persons, representing approximately 700 families, inhabit a veritable den of filth.

Life no longer holds purpose for these creatures, demoralized by misfortune; their only effort is to hold body and soul together for a little longer in the vile odors, dampness and dismal light in which they exist.

A most pathetic spectacle there is decrepit old men and women in rags lying on the mats motionless either from fatigue or because of being invalids. Their heads are so near the doors that passers-by would be able to touch a head on each side of the path at the same time.

With this situation as the background, the Airindan Nipponi settlement was established on February 1, 1920, under the auspices of the Federation of the Tokyo Social Work of Methodist Churches supported by the Canadian Methodist Mission, Airindan.

NOTICE OF SALE

DUNLOP BALLOON TIRES

as literally translated means League of Neighborly Love. The 23 officers of the settlement under the leadership of Rev. P. G. Price and Rev. G. E. Bolt, representatives of the Canadian Methodist Mission, undertake anything required for the improvement of the social condition in this district.

The activities of the settlement are classified into various departments, including the departments for immediate relief, dispensary, primary school, industry, general cultural work, and social education.

Toyko's Lowest Strata
The Japan Advertiser's representative was one of a party aided through the slum quarter known as "the lowest strata of social life in Toyko."

As the party reached the entrance of one of the alleys, a most disagreeable odor issued from the houses standing on both sides of the narrow path which was only three feet wide. The small uncovered gutter below the eaves of the tenement house was filled with noxious sewage which overflowed into the muddy path. This narrow alley was alive with squalid children utterly destitute of playthings.

WEEK-END SPECIALS

WHEAT IS WELL UP IN ALBERTA

Nothing Has Happened Yet to Interfere with Growth and Prospects Good

Wheat seeding has been practically completed over the greater part of central Alberta under the most favorable conditions, according to information supplied to over 80 special correspondents for the Edmonton Journal.

Reports from many districts indicate that all the wheat has been in the ground for some time and that a great deal of it is making a splendid showing while in a few localities the finishing of seeding has been delayed until the present week.

In the great majority of cases the seed bed is reported to be in excellent condition and the growth is rapid as a result of timely local showers. In a number of other districts, however, further rains are needed to offset the effects of drying winds during the past week or two.

Increase in Acreage

One of the most encouraging features of the reports is the almost general increase in acreage under crop in 1926. Very few districts show less than 10 per cent increase this year and in some cases this is as high as 50 per cent. This is accounted for largely by the acreage of new breaking which is seeded this year and by the considerable area of land being brought under cultivation in this part of the province by new settlers.

Apart from the increased acreage in wheat and the other cereal crops, many districts report a growing tendency to sow corn, alfalfa, sweet clover and other forage and silage crops indicative of the spread of diversified farming methods.

Very Little Damage

Practically no damage is reported as yet to the grain which is showing well above ground. In one or two instances slight frosts have occurred and in the southeast corner of the area covered by the reports, grasshoppers and wireworms have made their appearance but active steps are being taken to control these pests.

NOTHING DISCREDITS STATEMENTS OF BIBLE

No Reason Why Ancient Writers Should Tell Anything but Truth, says Speaker

EDMONTON, Jan. 20.—Nothing has been found by the archaeologists to date that has discredited a single statement of fact in the Bible, Dr. M. G. Kyle, president of Xenia Seminary, declared in an address to the Kiwanis club at a luncheon. Nothing of this nature, he prophesied, further, would ever be found.

"Why should the ancients have falsified their documents?" Dr. Kyle asked, in discussing the trustworthiness of ancient writings. They were not, he pointed out, catering to a sensation-loving public, but were commissioned by the kings to set down the truths as they found them.

Dr. Kyle in the course of this address cited numerous instances of where writings once considered expressive merely of a myth were later, through the findings of archaeologists, proven to be historical records. Homer's works, once believed to be merely romance, for instance, now were known to be founded upon

history. The theory of the Babylonian origin of Semetic culture had been dispelled and the existence of the Hittite nation determined through archaeological explorations.

Dr. Kyle's whole address proved interesting, and he was heartily thanked by the club.

EDUCATIONAL AND HISTORICAL TOUR

The Canadian National Railways will operate a forty-three day Personally Conducted Educational Tour to Europe this Summer, sailing via the S.S. "Athenia" from Montreal, July 9, direct to Glasgow. Proceeding from there, the party will visit different points of interest in Scotland, England, Holland, Belgium, Switzerland and France, also an opportunity to visit the Battlefields. Returning to England, will sail from Liverpool on S.S. "Aurania" August 13, for Montreal. Considering the number of points visited, the accommodation provided, and entertainment offered, this is one of the lowest priced Tours ever operated to Europe.

Full particulars, reservations, etc., from any Agent, C.N. Railways, or R. F. McNaughton, District Passenger Agent, Prince Rupert.

TIMBER SALE X 8061.

Sealed Tenders will be received by the District Forester, not later than noon on the 22nd day of June, 1926, for the purchase of Licence X8061, south shore Smith Inlet, to cut 180,000 feet board measure of cedar, spruce, hemlock, balsam and yellow cedar sawlogs.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, or the District Forester, Prince Rupert, B.C.

"Imaginary" Rheumatism Caused by Illfitting Shoes

MANY, many times physicians have diagnosed what appears to be rheumatism, as really being pains arising from the effects of Fallen Arches.

When the foot arches begin to break down, the pain is often ascribed to a sprain or rheumatism. Pain occurs along the inside of the foot, in the heel, also the calf of the leg, and is often located in the knee or hip joints. This condition brings on general muscular weakness—the ligaments are strained, interfering with proper nourishment of the foot. The circulation becomes poor—attendant symptoms appear—numbness, cold, and at times, undue perspiration. To prevent and cure this condition the foot must be given support, combined with the utmost freedom of movement.

Arch Defender Shoes give support to the scaphoid bone when needed, while allowing full flexibility and freedom to the muscular structure of the foot.

If you value your health—join the thousands who have banished foot trouble. Get a pair today.

ARCH DEFENDER SHOE Made in Canada by The Defender Shoe Company, Galt, Ont. SOLD BY Jabor Bros.
