

A Soldier's Wound is Healed at Last

Remarkable test proves the exceptional healing power of Dr. Chase's Ointment.

For years this ex-service man had suffered with a running wound which Army Surgeons and regular medical practitioners failed to heal. It is only natural that he should now be enthusiastic about the healing power of Dr. Chase's Ointment for he has obtained complete relief by its use. Read his letter.

Mr. Samuel Bozman, Looma, Alta., writes: "I had been bothered with a running wound for the last seven years and was treated by Army Surgeons and Civil Practitioners, but could get no relief. I was in despair, thinking that all my life I must be content to suffer my

lot. I had a brother who knew about Dr. Chase's medicines and on his advice I started using your Ointment. I obtained excellent results from this and am now finally relieved. I have nothing but praise for Dr. Chase's Ointment and would recommend it to any ex-service man troubled as I was with a running wound."

Wherever there is irritation of the skin or a sore which refuses to heal you can depend on Dr. Chase's Ointment to afford prompt and lasting relief. 60 cents at all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto.

DAILY EDITION Tuesday, June 28, 1927

TAKES FORWARD STEP

Yesterday the Daily News took a step forward when it issued a special twelve page Jubilee edition and on the same day announced a reduction in price from a dollar a month to 75c with a still lower rate for annual subscriptions. This change has been made possible through the ability of the News to purchase its paper in car load lots of approximately twenty tons at one time and by every member of the staff working at capacity all the time and giving good service. The work is done by seven employees, two in the editorial end, two in the business section, and three in the mechanical.

It is not intended because of the lower price to in any way diminish the quality of the paper but rather to improve all the time, as has been done in the past. Prince Rupert people deserve a good newspaper. They use it a good deal and it is expected they will use it still more as the city expands. Practically everyone in town reads the Daily News and there is a large country circulation extending from Prince George to Queen Charlotte Islands and from Atlin to Ocean Falls.

What will Mussolini do for enthusiasm when he has licked the world and finally silenced every one of his former red co-patriots?

PRINCE EDWARD ISLAND ELECTION

The election in Prince Edward Island will be construed by many as a straw indicating the rising of another Liberal breeze. So every gain on the other side is interpreted by those who take a keen interest in party politics and who rejoice at every victory for their party and gloat over every gain, no matter what particular local policy happened to affect it.

In Prince Edward Island the election was carried because the people of the island want prohibition and the Conservatives offered a substitute. Most of the people there are farmers and they prefer to be without the liquor traffic.

Liquor promises to be a factor in elections for many a year. So much money is made out of it that immediately there is a seeming settlement, agitation commences again and an effort is made to sway the people. So it will be in Prince Edward Island now.

But Liberals must not take too seriously this gain in Prince Edward Island, just as British Columbia Conservatives must not take too seriously the recent victory in Okanagan. Both were influenced by local conditions.

It would be just like our luck if we were to have a bad cold during the holiday and not be able to attend those ball games.

BIG BURLY VANCOUVER

Vancouver seems likely to become a big burly city - busy, bustling, and yet beautiful. It is taking in some of the adjoining municipalities and will likely take in yet more before the city is properly rounded out.

The move to build a big highway through Stanley Park to connect with West Vancouver by a bridge is also a move in the right direction. If West Vancouver is connected by a bridge it will experience a boom such as has not been seen in and around that city for some time. A beautiful new district will be opened up and later if this, too, is added to the city, its extent will indeed be great and its population large.

The Kamloops police chief says they feed hobos' meals at nine and a half cents each and they have a fine time. Let's see, where is this Kamloops?

The man who does poor work is working for his competitor.

NUMBER OUT TO LECTURE

Christian Science Subject of Interesting Address by Mrs. Ritchie

A large number turned out to the lecture on Christian Science in the Westholme Theatre Sunday night by Mrs. Nelvia E. Ritchie, H. B. Rochester presiding, and it proved most interesting. The following is a brief summary:

Christian Science makes clear to us that God is "the same yesterday, and today, and for ever." It also makes clear to us the availability of this changeless God who is infinite good, this first cause who is the maker, sustainer, and ruler of the universe, forever the same, bestowing all good upon his perfect, spiritual creation. If this first cause or God is changeless, always the same as the Bible states, he could not be corporeal or material in the slightest degree. An intelligent creative cause could not proceed from or include non-intelligent matter.

God is infinite, that is, entirely complete within himself. And Christian Science teaches that since he is within himself divine, that he includes only that which is divine: divine strength, wisdom, health, happiness; all that is good and harmonious. To gain the fairest understanding of God as life, truth and love, and man as his perfect reflection, will give to all hope and assurance.

Now the question is, how may we understand man? We need only turn to the Bible to learn the truth about man. In the first chapter of Genesis we read: "God created man in his own image, in the image of God created he him," and that God gave man dominion over all things. Reasoning from this true basis will disclose to you, and to all who seek salvation, that everything proceeding from God must be God-like, good, complete, and perfect.

In the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, Mrs. Eddy writes: "Jesus beheld in science the perfect man, who appeared to him where sinning mortal man appears to mortals. In this perfect man the Saviour saw God's own likeness, and this correct view of man healed the sick." Let us see what is the correct view of man. First of all, the Bible declares that God created man in the image of himself. Then if man is created in the image and likeness of God, he reflects all of God's qualities.

God is mind, man, then, as God's idea or reflection, expresses always, for God is infinite, this one mind. Then the natural conclusion from the correct view of man is that he is spiritual, because he is the reflection of his Father, Mother, Spirit. Man is intelligent, because the one mind, God, is supreme and eternal.

HEALING

Christian Science, the way of full salvation, has come to bring peace, joy, happiness, and success to the whole world. It is the truth that reveals and makes clear to human comprehension the all-mightiness of God, that he is infinite, all-inclusive good, the sole creator of the universe. Also, it makes clear that man, made in his image and likeness, must and does reflect God's perfection.

As mortals cling steadfastly to this truth about God and man, the light of spiritual understanding will dawn upon human consciousness and penetrate and destroy the mist of materiality, thus revealing to human apprehension the man of God's creating, the glory of God's perfect spiritual creation.

Ten Years Ago in Prince Rupert

As an observance of the fiftieth anniversary of the Confederation of Canada, a mass meeting will be held in the Westholme Theatre next Sunday afternoon. Hon. F. J. Peters, K.C., city solicitor, will tell the story of Confederation.

An enjoyable function yesterday was the picnic to Digby Island organized by Mr. and Mrs. F. R. C. Brown. Hostesses were Mrs. F. H. DuVernet, Mrs. J. H. McMullin, Mrs. A. M. Manson, Mrs. F. G. Dawson, Mrs. A. T. Parkin, Mrs. W. E. Williams and Mrs. C. A. G. Armstrong.

During the month of May last a total of 3,623,060 pounds of halibut was landed at Prince Rupert at compared with 3,071,000 pounds at Seattle, 328,000 pounds at Vancouver and 96,000 pounds at Steveston.

PRINCE RUPERT IN LONDON PUBLICATION

In a supplement to the Canadian Gazette published in London, England, dealing with the foodstuffs produced in Canada is a reference to Prince Rupert as follows:

The Pacific terminus of the Canadian National Railways, Prince Rupert, is Canada's new Pacific seaport. Its harbor is open the year round and owing to its being the nearest to the Orient it holds an important geographical position. Prince Rupert claims to be the largest halibut fishing port in the world and is the centre of important salmon fisheries. Lumbering and mining are amongst the chief industries of the district. A new grain elevator has been added to the port equipment by the Dominion government.

SUBSCRIPTIONS JUBILEE FUND

Additional Amounts Subscribed Since First List Was Published

Further subscriptions for the Diamond Jubilee Celebration have been received, since the first list was published. The lists at the banks and newspaper office are still being held open for anyone else who wishes to donate.

CITY BUILDINGS TO BE DECORATED FOR DIAMOND JUBILEE

The city council last night accepted a recommendation from the board of works providing for the expenditure of \$150 in decorating the city hall, fire hall and reading room for the occasion of the Diamond Jubilee of Confederation. The money is divided into \$100 for special lighting of the building and \$50 for bunting and the work will be in charge of the city engineer and the superintendent of utilities.

Ald. W. J. Greer and Ald. Larsen pointed out that the \$150 would not be a dead loss. It was expected that about \$50 would be salvaged.

STORES TO CLOSE EARLY THURSDAY: OPEN ON SATURDAY

According to a request made by a delegation representing the Dominion Day celebration committee and the Retail Merchants' Association, the city council decided last night to issue a proclamation requiring stores to close at six o'clock Thursday night of this week with the privilege, however, of remaining open all day Saturday if they so desire.

Speaking for the delegation and explaining that he represented the Retail Merchants' Association, L. M. Fuller stated that a telegram had been received from the acting premier of British Columbia announcing that Saturday, in spite of a Dominion proclamation to that effect, would not be a legal holiday. In order that the staffs of the stores might be enabled to see the baseball game Thursday night, the merchants were willing to close at 6 o'clock providing a proclamation were issued to govern all. As far as the Saturday holiday was concerned, it would be the first of the month and the most of the merchants did not wish to close.

A. J. Prudhomme of the Dominion Day celebration committee would have liked to have seen the stores closed all Saturday but the merchants had been liberal with their donations so it was not the wish of the committee to inflict a hardship upon them.

Ald. Perry and Ald. Linzey submitted the motion requiring the stores to close
