DAILY EDITION. Wednesday, March 23, 1927

**TORIES STILL AFTER ELEVATOR.**

Now and then is still to be heard at Ottawa a Conservative protest or twit against the Prince Rupert elevator. Dr. Manion took occasion, as reported in Hansard yesterday, to jest at the plant and revive the Conservative theory that it was a political affair. Dr. King pointed out that it was making good.

As yet we have not heard Mr. Brady's view on the elevator—the advisability of its building or the wisdom of the lease. If Mr. Brady does not share the views of his colleagues he should have enough influence upon them to persuade them to desist from condemning the project whenever the opportunity presents itself of doing so.

**CAPT. MORRISON'S LETTER APPRECIATED.**

The letter from J. M. Morrison, local agent of the Deep Sea Fishermen's Union, printed in the Daily News today, contains some information that the Daily News is glad to receive. To this date, Oriental competition has not been a factor in the halibut fisheries of this coast. If Capt. Morrison's information is fact, and it probably is for he and his organization are in a position to know of such things, there would seem to be immediate danger.

It will be noted that the Daily News, in the editorial referred to, indicated that it would not support the entry of Orientals into the halibut fisheries. The Daily News will support Dr. Tolmie or any other person in efforts to prevent such developments and it takes this opportunity of urging upon the government the desirability of taking steps to protect the white halibut fishermen just as it has done for the salmon fishermen.

We may assure Capt. Morrison that politics does not interfere with the attitude of the Daily News on this subject. Nor do we believe that the fact that this matter is being brought up by Dr. Tolmie will prevent the government from dealing with the situation on its merits.

**GREATEST APPEAL NATIONAL PARKS.**

Possibly the greatest appeal of the Canadian national parks lies in the fact that notwithstanding the many conveniences introduced for the comfort of travellers through these immense virgin areas, none of the lure of the unknown has been lost. Primeval forests, peopled by hundreds of wild birds and animals, creep down to the towns in the parks and border the roads and trails. The beautiful lakes team with fish, and the upland gardens are masses of wild flowers. Here, surely, is the tourist land ideal, where the mental and physical man may be refreshed and invigorated.

**LUXURIES AND NECESSITIES.**

The automobile was once condemned by a religious sect as a worldly luxury. There have been many religious sects and denominations which have denied their converts every luxury and every pleasure not definitely spiritual. This one sect banned the automobile because it did not believe it to be a necessity of life.

This religious body made that mistake so often made by the individual and sometimes made by a generation or an age of mankind. That error lay in failing to see the value of luxury as the experiment station of necessity. The luxury of today is often the necessity of tomorrow. The patrons of luxury foster progress and by their patronage give to mankind that luxury when it has become a necessity.

In its incipency the automobile was a luxury. It did not become a necessity until it had been mechanically perfected, many years after it had been adopted by the wealthy as a luxury. The wealthy by adopting the automobile as a luxury made it financially possible for the engineers and inventors to perfect it for commercial purposes. The same was true of the electric light and many other civilized comforts.

In isolated communities with no luxuries, people lack imagination to change, and continue their primitive discomforts. Luxury which represents desire to refine life contributes much; that which is ostentatious does not.

**AN ARGUMENT FOR EUGENICS**

**FINAL TEST OF DEMOCRACY IS CAPACITY TO BREED LEADERS, SAYS ADVOCATE**

VICTORIA, March 23.—“The final test of democracy is its capacity to breed leaders,” declared Dr. Douglas W. Graham, Victoria medical specialist, in addressing a local service club as an advocate of eugenics.

“Social reforms, although improving, will eventually drift backward unless drastic measures are taken to offset the present system of democracy,” said Dr. Graham, who held out fear of retrogression in the lineage of mankind.

“The brain and breed of men is not progressively getting better and the physiological diseases of men's body are increasing, just as are the mental ailments, major and minor, which are the burden of the human race.”

**SEES NO NECESSITY FOR HARDSHIP AND DIRT IN TRAINING**

PARIS, March 22.—General Gouraud, one-armed war hero and military governor of Paris, sees no necessity for dirt and hardship as part of war training. He believes young conscripts will be better soldiers for having had a tolerable time during their enforced service, and to stimulate interest, has offered prizes for the best kept barracks and individual quarters.

Barracks heretofore have been notoriously badly kept, cold and depressing. While General Gouraud's initiative applies only to Paris, it is believed the idea of making a soldier comfortable is sure to be approved unanimously, as every able-bodied Frenchman has been or is a potential inhabitant of barracks.

**WOMEN PLAY GREAT PART IN POLITICS**

Private Secretary of Many Cabinet Ministers Writes Articles

EDMONTON, March 23.—(Canadian Press)—The private secretary of many cabinet ministers in a series of articles on politics and those who deal in them says: “When the job or favor seekers fail on their own account they often get their women folks to plead for them. I have often thought that a book could be written about the part women play in politics; but as a normally prudent person, I have no thought of writing it. The one thing which won my admiration during that long period of 20 years as a private secretary was the supreme patience of my ministers with these callers who not only wasted valuable time but made life a sore trial at times.”

**REV. J. R. FRIZZELL IS GYRO SPEAKER**

Addressed Service Club This Afternoon, Taking “Power, Purpose and Poise” as Subject

Rev. J. R. Frizzell, minister of the First Presbyterian Church, addressed the Gyro Club today at its regular monthly open meeting in the Commodore Cafe. He gave the members of the club and their guests an inspirational talk on the motto of the organization, “Power, Purpose and Poise” and stressed the necessity of friendship and unanimity of effort. President E. A. Mann, who occupied the chair, thanked the speaker for his interesting remarks.

Morris Blott, who is a new member of the club, favored the gathering with vocal solos. Charlie Balagno accompanying.

**EDMONTON PREPARING FOR RUPERT VISITORS**

Advises that a deputation representing the Prince Rupert Board of Trade would visit the city in April in response to an invitation from the local board were received by secretary John Blue.

Plans for its reception and entertainment are now under way.

Last fall a deputation from the local board visited Prince Rupert and inspected the grain elevator and other terminal facilities and the return visit is to show the coast men the manifold advantages possessed as a distributing centre by Edmonton.—Edmonton Bulletin.

**TELEPHONE FRIGHT LATEST DISEASE**

Long Distance is Befuddling to Some Folks Just Like Stage Fright

LONDON, March 23.—“Telephone fright” is preventing some persons from hearing well and speaking clearly when using the new wireless telephone service across the Atlantic. It is akin to stage fright, the thought of speaking three thousand miles across the ocean being just as befuddling to those persons as appearance before a large audience.

When telephones first came into use in England it took a long time for some customers to get over “phone fright.” Telephone officials jestingly charge that Rudyard Kipling and old-fashioned folk who refuse to have telephones are still suffering from the ailment.

**Pneumonia Left Her With A Bad Cough**

Mrs. W. R. Bennett, 2307-14th St. West, Calgary, Alta., writes:—“Over a year ago, before my twins were born, I had an attack of pneumonia which left me with a very bad cough.”

Being under the doctor's care, he tried first one thing and then another, but I coughed day and night. A friend brought me a bottle of Dr. Wood's Norway Pine Syrup.

for to try, and after coughing for two months and taking four six ounce bottles of cough medicine, I got rid of my cough with one and a half bottles of Dr. Wood's Norway Pine Syrup.”

Price 35c. per bottle, large family size 60c.; put up only by The T. Milburn Co., Limited, Toronto, Ont.

**GETTING AWAY WITH MURDER RARE IN BERLIN CITY TODAY**

BERLIN, March 23.—Getting away with murder is rare in Berlin. Official figures show that 103 of 106 murders reported in Berlin during twenty months ending December 31, were completely cleared up by police. Of 49 persons charged with manslaughter, all but three were caught.

**Ten Years Ago in Prince Rupert**

MARCH 23, 1917  
The steamer Prince Rupert, which sailed from here for Vancouver last night at midnight, was this morning high and dry on Genn Island. The accident occurred in a heavy snow storm. The passengers were all brought back to the city.

**In The Letter Box**

ORIENTALS AND HALIBUT

Editor, Daily News.  
Your editorial in your issue of March 21 headed “Anxiety of Dr. Tolmie” in the interests of the fishing industry should not be allowed to go unchallenged for you are evidently ignorant of many of the facts of which Dr. Tolmie is informed on fishing conditions on the B.C. coast.

As Japanese fishermen are being gradually displaced from the salmon fisheries, they are naturally anxious to find employment for themselves and their boats, many of them are suitable for halibut fishing. I have it on the best of authority that one of the largest fishing companies on this coast has already engaged thirty Japanese boats, carrying two and three men to the boat, and is negotiating for another thirty similar boats to engage in the halibut fishing industry. These Japanese fishermen are guaranteed by the Company against loss and are to be paid eight cents per pound for their fish. This, I think, constitutes a very grave menace to the white fishermen engaged in halibut fishing and halibut fishermen generally, appreciate in no small degree, the effort of Hon. Dr. Tolmie at Ottawa to nip this matter in the bud. Should the Company above referred to succeed in employing sixty Japanese boats, it would mean the employment of one hundred and twenty to one hundred and eighty Japanese fishermen, where white fishermen should be employed and, through the nature of the contract, would have a tendency to demoralize the market for both Canadian and American white fishermen.

It is not true that the press of Canada, and particularly of British Columbia coast cities, largely dependent on the fishing industry, should get behind our public men and support them in any move which is likely to prevent the demoralization of one of our great natural resources, regardless of what party any section of the press may

**BRIGHTEN YOUR HOME — AT LITTLE EXPENSE**  
**New Pattern Effects**

**Rich in Oriental Colorings**

See these new, richly-colored Congoleum Gold Seal Art-Rug patterns at your dealer's—there are many new color effects that will appeal to you as the most attractive rug patterns you have ever seen.

You can enjoy the fresh charm of these attractive rug patterns in your home without further delay.—Congoleum Gold Seal Art-Rugs are now offered at prices you can so easily afford—and genuine Congoleum Gold Seal Art-Rugs with the Gold Seal on the surface are fully guaranteed.

The new, longer-wearing, easy-to-clean surface will save you countless hours of tiresome beating and sweeping.

re fit to support? Dr. Tolmie, through his protest in the House of Commons, has raised a question which should have the support of every British Columbian, regardless of his political affiliations.

J. M. MORRISON,  
Agent of the Deep Sea Fishermen's Union

**IN THE SUPREME COURT OF BRITISH COLUMBIA.**

Re PRINCE RUPERT HYDRO-ELECTRIC COMPANY LIMITED  
SALE BY ORDER OF THE COURT  
TAKE NOTICE that pursuant to the order of Mr. Justice D. A. McDonald dated the 18th day of February, 1927, in the “bonafide” action instituted in the Supreme Court of British Columbia between The Royal Trust Company and Prince Rupert Hydro-Electric Company Limited and others, being R.1902.1916, brought to enforce the terms of an indenture dated the 30th day of June, 1911, tenders are invited by George Edward Winter the Receiver appointed by the order of this Court dated the 15th day of September, 1916, and the decree in the said action dated the 21st day of November, 1916, for the purchase of all the remaining properties and assets of the said Company. The said properties are described as follows:

1. That certain parcel of land and premises situate in the Province of British Columbia more particularly described as Lot 695, Range 9, Coast District, containing 160 acres more or less.
2. That certain parcel of land and premises situate in the Province of British Columbia more particularly described as Lot 1386, Range 5, Coast District, containing 37 81/100 acres, more or less, excepting thereout a strip of land one chain in width measured from highwater mark.
3. That certain parcel of land and premises situate in the Coast District, Province of British Columbia, and more particularly described as Lot 695, Range 5, containing 32 50/100 acres more or less.
4. Maps dealing with surveys of drainage areas rainfall and runoff data, designs of dams, power plants, transmission lines and receiving station for Falls and Khatawa Rivers development, and plans of works.

The Receiver is informed that the above lands parcels 1, 2 and 3 were selected by the engineers of the Prince Rupert Hydro-Electric Company Limited as being suitable sites for the construction of water power plants.

Tenders may be made for all the said parcels together or for one or more separately.

Particulars and conditions of sale may be had upon application at the office of Messrs. Riddell, Stead, Hodges & Winter, Bank of Nova Scotia Building, Vancouver, or at the office of the undersigned.

DATED the 2nd day of March, 1927.  
WILSON, WHEELER & SYMES  
Solicitors for the Plaintiff,  
640 Pender Street West, Vancouver, B.C.
