"In 1867 a little body of statesmen, now known as the Fathers of Confederation, assembled. There were 34 of them, children of victor and vanquished, met to consider how best to promote the welfare of their fellow subjects of British North America.

"The Fathers of Confederation dreamed a wonderful dream of uniting the colonists in a land stretching from ocean to ocean. The autumn leaves when the statesmen parted, but they had done their work and done it well. UNION OF EAST, WEST

"The Imperial Parliament passed the British North America Act which united the four provinces and gave birth to A CARTADIARI DOWN the Dominion of Canada. Then commenced the work of uniting the East with the West with bands of steel. Despite the difficulties encountered the energy and completed with such rapidity that it astonished the world. Now there are nine provinces and three territories linked together from sea to sea

"Bleak prairies and wilderness gave away almost overnight to flourishing farms, gardens and orchards. Unparallelled prosperity is everywhere in evidence. Witness Canada's progress in all fields. Fresh promise gives rise t fresh inspirations. Canada's success i a natural and necessary outcome of her immense resources, system of government, and the wonderful spirit of her people and the importance she has always attached to thoroughness in education. Her code of laws stands as trustworthy sentinel to safeguard life and liberty. DRY DOCK ARREARS WILL MAKE DIFFERENCE BETWEEN GAIN OR DEFICIT THIS YEAR

Fifty mills on the total assessmen of \$5,062,239 with a special levy on the assessment of \$293,200 on the dry dock for debenture debt will yield \$259,075.95 according to figures compiled at the city treasurer's office today following the setting of the mill rate by the city council last night. Adding to the estimated revenue from general account for the year of \$68,200 from trade licenses poll taxes, police court fines, liquor and pari-mutuel profits, motor licenses. government school grants, etc., the total revenue will be \$327,275.95 while expenditures for the year are estimated at \$336,125.33. This would leave a deficit of \$8,849.38 but the council is claiming over \$10,000 in arrears of taxes from the dry dock which, received, would more than balance the pudget on the right side of the ledger. The estimated city expenditure for the year is classified as follows:
