NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to-and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

VANDERHOOF MEETING At the Vanderhoof meeting held in the Nechako Hotel Judge H. E. open until May 15. In the matter game for sport he strongly recommended a uniform date for the open ing of the season, and suggested the first day of September. The Judge made the point that restrictions are not so necessary in this part of the country as down in the southern portion of this province, especially in the shooting territories where sportsmen of the big coast cities enjoy their pleasure with the gun. The speaker pointed out the striking comparison of the small shoot ing territory for the sportsmen of New Westminster and Vancouver and the birds and the vast area of this country and the few guns there are. Judge Robertson declared the game birds in this country will never be exterminated.

MIGRATION OF DUCKS In reference to ducks it was claimed they leave these parts as soon as frost and snow arrives, on account in the southern part of this province tude taken by the Canadian government. shot game for sport, whereas up in these more northern sections game is!

Speculation as to Subjects Talked Over With Mackenzie King **During Baldwin Visit** 

OTTAWA, Aug. 18.—There has been much speculation as to the particular business that brought Premier Baldwin to Canada and the questions which he and Premier Mackenzie King have discussed informally. Mr. King is strong for the Empire but for full and complete autonomy at home and for that reason it is thought that the question is one that has been subject of more or less interesting conversations. If Canada is to remain a part of the British Empire it is pointed out that she must take some part in her own defense. The Liberal party has not been over enthusiastic over a naval program on account of strong opposivolume of guns that are destroying tion from sections of its supporters. The eaders have now come to realize that the country must do something but
