Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

WARM DAYS COMING BVE AND BVE—BUT DONT NEGLECT THAT COAL SUPPLY

We'd all like to wait for the warm weather to heat our homes but when Spring chills the house there's only one thing to give it warmth—that is coal.

You cannot have balmy weather by wishing for it, but you can give your home a balmy "feel" if you use good fuel.

Mrs. F. Cade, Elmwood, Man., writes:—"My little boy caught cold while out playing in the snow. He coughed incessantly all that night and the next day, and nothing I gave him seemed to relieve him. When my husband came home he brought a bottle of
