

Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

DIRECTION IS TOLD BY WATCH

Plan Not Quite Accurate but Good Enough for General Purposes

When travelling in unfamiliar country, it very often becomes necessary to determine direction. Most people are able in a general sort of way to do so in the daytime by means of the sun if it is shining or at night (speaking more particularly of the northern hemisphere) by means of the north star.

Some people seem to possess the faculty of telling direction by means of the sun with a remarkable degree of accuracy. To those who have difficulty in this regard, the well-known method of making use of the watch in connection with the sun may be employed. This is effected by holding the watch level and pointing the hour hand at the sun and accepting the line midway between it and the figure 12 on the dial as the due south direction.

This will not give direction accurately but will be good enough for most practical purposes. The sun appears to go around the earth in a clockwise direction (to those in the northern hemisphere) making the complete circle in twenty-four hours. The hour hand of the watch makes a revolution once in twelve hours or, in other words, moves twice as fast as the sun appears to travel. Assuming that the sun is due south when the hour hand of the watch is at 12 noon the working out of this simple method becomes quite apparent after a little consideration.

For two reasons the method is not absolute. One is that at noon by the watch, except on four days in the year, the sun is not exactly due south but is varying in its position. Another reason is that the sun does not move around the horizon on a level with the hands of the watch but slantingly, moving up in the morning and down in the afternoon. Thus it is the sun may appear to move farther during an hour near the middle of the day than during the same period of time in the morning or the evening.

EDUCATORS' LIVES UNDER DISCUSSION

Careers of Dr. Ryerson and Dr. Oster Revealed to United Church Young People

The United Church Young People's Society last night discussed the lives of two great Canadian educators—Dr. Egerton Ryerson and Dr. William Oster. Miss E. P. Grassie read a paper on Ryerson who was described as the father of the present system of education in Canada. His pioneer work had been copied throughout the Dominion.

Miss Rogers dealt with Oster, the great teacher of medicine. His career was marked for its outstanding spirit of research and charity.

Interesting discussion followed the reading of the papers after which the usual recreational period was enjoyed.

W. Vandewater, president of the Society, was in the chair.

FIRESIDE CLUB HAS PLEASANT EVENING

Wild as the night was outside the Fireside club at the Baptist Church spent a cosy evening around the fire-side last night. The evening was spent socially with singsong and topics of interest to all by the members.

R. W. Howard presided. Next Monday a special program is arranged that will be of interest to all. Refreshments will be served.

THIRD GRAIN SHIP OF SEASON IS DUE FROM JAPAN FRIDAY

Prince Rupert's third grain ship of the season, the "K" Line steamer San Francisco Maru, left Muroran, Japan, on November 10 and is due here on Friday. The vessel, which is of similar class to other ships of the "K" Line which were here last season, will load full for the United Kingdom or continent. She will be lined at the ocean dock by the dry dock before starting to load. It will be the first Japanese grain ship of the season here and the first one that has required to be lined.

SNOW THICKENS GRAIN MOVING

Winnipeg Report Says 333,000 Bushels in Elevator Here

WINNIPEG, Nov. 22.—The snow is thickening on the prairies and the harvesters have long been trooping back to their homes in eastern Canada but the grain is still on the move in an ever-increasing volume. For the past week, loadings on the Canadian National Railways have been steadily mounting and yesterday was the biggest day since November 11.

The total numbers of cars loaded yesterday on Canadian National lines was 1,258 which represents 1,698,000 bushels. Two million one hundred and sixty thousand bushels were marketed. Grain stored in country elevators was no less than 26,286,000 bushels, an increase of 462,000. Nearly 7,000 cars were in transit to the lake head, 679 arrived, 900 were unloaded, and 1159 were on hand.

Twenty-one boats cleared with 6,155,000 bushels, 19 were loading and 12 were due to arrive.

Four boats cleared from Vancouver where 5,379,000 bushels were in store. Prince Rupert has 333,000 bushels in store.

CATALA RIDES OUT GALE WITH SAFETY

No Preceptible Movement in Firmly Supported Wreck as Result of Blow Last Night

The fact that the wrecked steamer Catala rode out last night's gale with no difficulty whatever heartens the salvors to confidence that any doubts as to a successful salvage are now removed. The vessel was safely supported with land lines on one side and props on the other and, as far as can be learned, there was scarcely a movement.

It is hoped to get the Catala on an even keel within a few days. This will be followed by the putting on of temporary patches and it is expected she may be refloated in a little more than a fortnight's time. Then she will be delivered to the Prince Rupert dry dock.

Harold Brown, general manager of the Union Steamship Co. is returning to Vancouver on the Camoun this evening following a trip of inspection to the wreck.

Mr. Justice W. A. MacDonald and other court officials will reach the city from Vancouver on the steamer Prince Rupert tomorrow morning. Almost immediately after the arrival of the judge, the fall session of the Supreme Court Assizes will be convened.

BADMINTON POPULAR IN NELSON WHERE ALL AVAILABLE FLOORS USED

(Nelson News)
Practically every hall in Nelson that is usable for gymnasium purposes is being used now by some badminton club, in addition to other indoor games that can afford to pay their way. It is on a par with tennis, golf, curling, in that respect. The largest badminton floor in Nelson is the one that was laid in the fair building recently, by the Nelson Badminton Club.

Large advances have been made by badminton in popularity in Nelson, since last winter. One year ago the solid leaders of this sport were predicting that if accommodation were not forthcoming, those interested would undoubtedly build for themselves. Badminton as a game has the elements of permanence, just as has tennis. Two or three years from now, instead of there being less badminton than today, there will probably be twice as much, or up to the capacity of the accommodation, whatever it then may be.

When the present fair building is replaced, as it shortly must be, one of the steady sources of revenue for the new community Pavilion or Arena or Auditorium that should arise will be a healthy badminton rental. For six months of the year that playing floor could be occupied every afternoon and night by this revenue producer, except when preempted for convention or other special purposes. In the other six months a different sort of revenue would be derived. Roller skating, auto shows, conventions, the fair—would do their share toward maintenance.

Badminton is one of the answers to the question: "Will the Arena, beside attracting conventions needing large accommodation and bringing paying visitors from long distances, and putting Nelson on the accommodation map, pay its way?"

CRIBbage LEAGUE

Prince Rupert Cribbage League results last night were as follows:

C.N. Mechanics, 13; Sons of Canada, 14.
Canadian Legion, 13; Moose, 14.
Orange Lodge, 13; Cold Storage, 14.
New Empress Hotel, 18; St. Andrew's, 9.

	W.	L.	Pts.
Grotto	5	2	5
C.N. Operating	5	2	5
Cold Storage	5	2	5
Knights of Columbus	4	3	4
New Empress	4	3	4
Prince Rupert Hotel	4	3	4
Moose	4	3	4
Canadian Legion	3	4	3
Sons of Canada	3	4	3
C.N. Mechanics	2	5	2
St. Andrew's	2	5	2
Orange Lodge	1	6	1

SPORT CHAT

Cold Storage and Maple Leafs meet in the Billiard League tonight with line-ups as follows:

W. H. Long (Cold Storage) vs. Col. S. P. McMordie (Maple Leafs).
A. Murray vs. J. Hamilton.
J. Hillman vs. M. Andrews.
Angus McDonald vs. M. M. McLachlan.

John Bulger vs. George Howe.

Leadership in the Senior Basketball League will be at stake tonight in the game between the Elks and Grand Territorial. A win for the former would put them two up over the Native Sons while the latter, by winning would have one point margin at the top. The Elevator, which has not yet won a game, will endeavor to take one from the High School which is unbeaten so far in the Intermediate League. The third game will be a Junior League fixture between the Tuxis Boys and Stars, the former having already beaten the latter twice.

Art Gagne of Prince George, is the lightest player on the Canadian hockey team this season. The Central Interior
