Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

SPORT CHAT

A summary of the results in the recent match between Oxford and Cambridge Universities on the one hand and Harvard and Yale on the other shows that Cambridge had five wins, three seconds, three thirds, Oxford had two wins, four seconds, one third; Yale had three wins, two seconds, four thirds and Harvard two wins, three seconds, four thirds.

A. H. Millar who won the 100 yards for Harvard is over two hundred lbs. in weight. His time was 10 1-10 against on a heavy track.

In the long jump won by C. P. Deacon of Yale with 23 ft. 9½ in. the other three competitors all jumped over 23 feet too.

In the annual cricket fixture between the Gentlemen and Players in England, A. Kennedy of Hampshire took all ten wickets in the Gentlemen's first innings for 27 runs.

A party of four, Suzanne Lenglen, Fraulein Dora Koring, of Germany, Karl Kozeluh and Howard Kinsey are touring the north of England. They will play on a court of boards specially erected for the games and covered with canvas.

The failure of the British tennis players to do better, against the Americans specially is explained in some quarters by the theory that the Britishers treat tennis too much just as a game and lack that aggressiveness so characteristic of the Americans.

Len Johnson, the Lancashire colored middleweight, is to meet the ex-amateur champion Jack Elliott at the London ring this month.

Against tennis players who specialize in top spin shots the cut stroke is very valuable. While really a defensive stroke, yet because it keeps so low and goes away from one's opponent it is just the type of shot that puts an aggressive top-spin player at a disadvantage.

Some of the big cricket scores recently include 260 by Bates of Glamorgan, 196 by Bowley of Sussex, 134 by Whysall of Notts and 113 by Chapman of Kent.

The Giants have completed the purchase of Bill Walker pitcher from the Denver Club of the Western League. They paid $25,000 for him. Last season he won 24 victories against 9 defeats and struck out 174 batsmen.

The crew of the Kent School who went from America to complete in the Henley regatta met the Prince of Wales at Eton. They were charmed by the manner in which he received them and the interest he had evidently taken in their tour.

With interest in swimming so high in local circles it would be worth while if some of the swimmers timed themselves over a measured distance. Miss Geraghty of New York recently broke her own record for the 100 years breast stroke when she covered the distance in 1 minute 19 2-5 seconds. Now our local mermaids know what they have to do.

The credit balance that the Diamond Jubilee committee has in hand as a result of the celebration day sports is interesting several organizations. The committee was at the Acropolis Hill on Friday evening apparently looking over the ground.

Many suggestions are being put forward. A grand stand is one of the improvements talked about. This would benefit every kind of sport. Rain may not affect a game much but it does keep away spectators. Now if the spectators knew that there was shelter available from rain or too intense sun and wind a bigger turnout would be seen at the games.

The question arises, has the board enough money to make a substantial start in the project? Is it the most necessary form of improvement?

The Acropolis Hill Improvement League is doubtless in close touch with the men with the money. The league is desirous of putting the playing pitch in order. This is worthy of the committee's consideration. Many of the games are adversely affected by the poor surface. Indeed some parts are positively dangerous to the players. It is to be hoped that the committee will take this question into consideration when they meet.

On one occasion during the game between Terminals and Moose a goal was scored by Moose and some Terminals were inclined to try to argue that the ball had not gone into the net but had gone outside. The net was broken and the ball had gone right through. There was no doubt of the legality of the goal, but it brings up the old question of new nets. If they are not obtained soon the season will be over.

With the brand of football on the upward trend it is likely that there will be some exceedingly close fought games before the season ends. A net that is too "holy," that is has too many holes,—is wholly unnecessary and only a possible source of trouble and contention. The football authorities should take this matter into consideration and attend to it.

One of the most improved swimmers and divers among the girls at Salt Lakes is Margaret Gilchrist. There are several other young promising mermaids who will be worth watching in the forthcoming sports.

SUNDAY TENNIS AT WINNIPEG

(Evening Tribune

By a large majority vote the Parks Board decided last week that there should be no Sunday tennis in Sargent Park. Presumably the decree will apply to all other parks owned by the city.

It is doubtful whether the actions of the Parks Board will be approved by the citizens as a whole. It is too much like trying to turn back the hands of the clock. The public attitude towards Sunday observance has changed, for better or for worse, during the last decade or so.

In any case it is inconsistent to place the ban on Sunday tennis while permitting the playing of golf on the municipal links. The two games are on all fours. Any objection which may be raised against one may be raised fairly against the other. Sunday work should be kept within the narrowest possible compass but the public parks are opened on Sundays, and this necessitates the presence of attendants in any case.

Like golf, tennis is a clean, healthy, outdoor game and one which should be encouraged. Further, it may be played without noise of any kind. Fifty yards away from the average tennis court there might be no indication that a game was in progress.

In Winnipeg the summer weeks are few and opportunity for wholesome outdoor recreation should not be denied. Withholding public facilities for playing tennis on Sundays is both inconsistent and uncharitable. The Parks Board should reconsider its decision.

SMALL ATTENDANCE AT RIFLE RANGES

The First North B.C. Regiment held their weekly shoot on Saturday afternoon on the McNichol ranges. No spoon was awarded as there were not enough competitors. Scores were as follows:

	200	500	600	Tl.
W. Brass	30	33	29	92
A. Wylie	29	30	32	91
M. Lamb	30	31	30	91
R. Wilson	25	31	29	85
B. Wilson	20	28	28	76

The annual regimental shoot will probably be pulled off next Sunday.

The world's first electric train was operated at the Canadian National Exhibition in Toronto.
