WATER SPORTS AT SALT LAKE

Margaret Palmer Won Prize For Fancy and High Diving

There was an unusually large crowd at the Salt Lakes yesterday to enjoy the swimming and also sports that were put on by the Swimming Club.

Margaret Palmer won the prize for fancy and high diving. Her double somersault was a noteworthy effect. Albert Palmer and Henry Heilbroner were the other competitors to take the eye.

The 30 yards race was won by Henry Heilbroner.

The canoe-tilting competition was a mirth-provoking episode. R. Mortimer and H. Heilbroner won over A. Palmer and D. Frizzell. The other pair were disqualified for bumping their boats. Another event such as this would be very entertaining.

The Club is planning to hold their sports in the middle of August and yesterday's events were the means of enabling the members to sell quite a number of membership tickets.

BEAT GUNMEN TO IT AT CHICAGO KILLING TWO MEN

CHICAGO, Aug. 1.—A doctor beat two gunmen at their own game here, killing them both when they attempted to rob him. The robbers, who have not been identified, posed as patients on entering the doctor's offices, but the physician, Frank L. Nathanson, recently had been robbed and was suspicious.

He stood by his desk, and when they drew their guns he pulled open a drawer, whipped out a pistol, and fired before they could level their weapons.

One fell dead, but the other staggered out, and fell down the stairway into the arms of a policeman, who had heard the shooting.

He died in a hospital.

FRENCH CHEW GUM BUT BAN IS PLACED THEATRE BACK STAGE

PARIS, Aug. 1.—Chewing gum is causing the downfall of many French. The falls usually are physical but French newspapers also think the jaw-working habit is a sort of moral and esthetic decadence.

A fine of twenty francs is imposed on actors and actresses chewing gum back of the stage because soft, sticky "chews" dropped with a careless gesture on the stage have made more than one delicately balanced dancer land on his or her car and caused the loss of much dignity.

The habit has been growing here. It came over with the American Expeditionary Force and chewing gum can be bought in thousands of stores. School children have acquired the taste and second-hand wads are placed on teachers' chair and under desks, just as in America, proving to psychologists that the human family everywhere has certain points of similarity.

WHOOPING COUGH EPIDEMIC PASSING

The whooping cough epidemic seems to have passed the peak in Prince Rupert. Following on the announcement from the medical health office there has been closer attention to the quarantine regulations. There is still quite a lot of it noticeable in the parks.

Reports from outside points show that it is prevalent at many places. The Naas and Skeena are both affected. Locally, however, there seems a slight improvement.

FLAPPERS KEEP BABIES IN PINK OF CONDITION

LONDON, Ont., Aug. 1.—Describing the fine work being accomplished by the London Child Welfare Association in reducing the infant mortality rate and insuring a healthy race of future citizens, Miss Bertha Smith, supervising nurse of that organization, held the closest attention of the Rotary Club at a luncheon. Miss Smith took occasion to defend the modern young flapper against the criticism levelled at her by declaring that these same young flappers, having assumed the responsibilities of motherhood at an early age, are just up-to-date in the efforts to learn all that they possibly can about child hygiene. They vie with each other, Miss Smith affirmed, in keeping their babies in the pink of condition by availing themselves of the splendid opportunities afforded them at the well-baby clinics.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free or partly free permits are available for settlers, campers and travellers, up to ten head.

Electro-Magnetic Belt

You may wonder why and how any appliance can bring relief to so many different ailments. But bear this in mind, friend, that whether you are suffering from Neuritis, Goitre, High Blood Pressure, Eczema, Asthma, Rheumatism, Varicose Veins or Ulcers or any other ailment, except from contagious epidemics such as Scarlet Fever, Small-pox or Measles—that the cause is all the same. You are suffering from a toxic condition that manifests itself in whatever ailment you may have. This condition is brought about by incomplete elimination of dead cells and if nature can be assisted in the process of elimination, you are going to be relieved of your troubles. This is precisely

What Magnetism Does!

We want you to get this message! Just because you may have been told that your case is hopeless or that Electric-Magnetic treatments will not help you, do not give up. We are relieving similar cases every day and receiving evidence of how little we knew a few years ago.

The theory of Electro-Magnetism is founded upon

The Latest Discoveries

of the Rockefeller Institute, the Mayer Foundation, and great German biologists, so do not let scepticism stand in the way of your securing relief. We have cases of long standing varicose ulcers being completely cured in seven weeks, also cases of neuralgia pains being totally relieved with one treatment.

Come in and see what Electro-Magnetic treatments will do for you. The free treatment offer is still open.
