

Older Than The Dominion

Closely associated with the growth of Canada is the Sun Life Assurance Co., whose charter was granted in 1865, two years before Confederation. When the Company completed its first fifty years of business, it produced its

JUBILEE POLICY

which is an elastic contract adjustable to individual purposes and conditions. It is ideal for the man who wishes immediate protection but who is unable at the moment to determine the exact type of policy that will ultimately prove best suited to his needs.

Full particulars will be gladly submitted.
