fire can easily start in this way. BEWARE OF GASOLINE

Remember that gasoline explodes and is more dangerous than dynamite. Those using it for cleaning purposes are courting injury and possible death.

Crooked and broken flues and chimneys and especially those surrounded by woodwork are dangerous. Don't neglect your chimney; we are called out to answer a large number of alarms

TAKE NOTICE that Arthur Robertson, for chimney fires every year.

Be careful of all gasoline connections.

If there is a fire hazard near your home or place of business, notify the fire department so that it may be

HANDICAPPED BY CITIZENS

Thus, you can readily see that in spite of everything that your Fire Department may do, it is heavily handicapped in its work unless the citizens as a whole lend it their fullest co-operation. Many fires are absolutely unnecessary and would never have occurred if carelessness and inattention were once. All fires are small in starting

Christian Science Monitor

August, 1926

"During the past ten years, tremendous improvements have been made in machine laundries, and notwithstanding all that may be said to the contrary, the household linen and even fine fabrics, are safer in the hands of a modern laundry than they are in the family washtub.

"From the facts established along this line, it seems to be pretty clearly established that a wife and mother, or any woman who works in the home, may be better employed than working at a tub or supervising an electric washing machine."

With Wet Wash Service only 75c for 15 lbs. a service at least equal to the best home equipment, the logical
