GOVERNMENT CANDIDATE IS ELECTED IRISH GENERAL ELECTION ANNOUNCED TODAY AT DUBLIN

Government Candidate Elected Yesterday at New Westminster When Grey Chosen Over Welsh

Premier MacLean takes it as mandate to carry on and commends people on quiet way of conducting campaign

NEW WESTMINSTER, August 26.—Mayor A. W. Gray defeated C. A. Welsh in yesterday's provincial by-election by a majority of 909, the figures being Gray 2,545 and Welsh 1,636.

Welsh was one of the first to congratulate his lifelong friend Gray on his victory.

It was seen early in the evening that Gray would win and his victory for preliminary hearing on a charge of selling opium, the Premier MacLean expressed gratification at the result and said: "I recognize it is a very heavy responsibility to follow in the footsteps of Hon. John Oliver and it is very gratifying that the electors have given me a mandate to carry on so soon after my taking office. The quiet way in which the people of New Westminster went about this contest impressed me very much. It demonstrates, I think, that the people are not interested in political fireworks. They want their public business attended to efficiently and are not to be stopped or stampeded by the Conservative talk about 'time for a change.'"

Storm Swept Atlantic and Drove Vessels Ashore Nova Scotia Doing Much Damage

Million Dollars Worth of Apples Destroyed, Bridges Washed Out, and Highways Injured—Thirteen People Killed

HALIFAX, August 26.—As a result of terrific storms which swept the Atlantic coast thirteen people are known to have lost their lives off Nova Scotia and Newfoundland. The complete story of wholesale devastation will not be known for some time. Giant waves inundated the Newfoundland coast setting the fishing camps afloat and tearing the boats from their moorings.

Communications and light facilities are being slowly restored to this province today.

The gales swept the whole coast as far south as Cape Cod, Massachusetts. The loss to the Nova Scotia apple crop alone is estimated at more than a million dollars.

Two small steamers, 27 sailing vessels and countless small craft were thrown high and dry on the shore or foundered. Many may be salvaged but the shipping loss will be enormous. As well as losing their boats the fishermen are dealt a severe blow in the destruction of their gear.

Several parts of Nova Scotia escaped damage to gardens and small buildings. At least fifty highway bridges are known to have been washed out and miles of trunk highways are under water, interrupting the tourist traffic while the season was at its height.
