The same man could rake out the weeds, see that problems which continually present the dressing rooms are kept clean and orderly and care for a boat themserges where large bodies of ore and lifebuoys and generally make the place modern and sanitary. are baing mined and their metals re-

At present the lake is filling a great need and is used a good , werea CHANGES IN ORE deal. If swimming lessons were given the young people, the value Having oze bodies blocked out with of the lake would be much increased and parents who today hesitate vears of tonnage in sight would seem at allowing their children to go there unattended would not hesitate to do so if there was some responsible party in charge to see that business of mining. It makes a fair known. everything is safe. start to be sure, and gives abundance

It's a good thing to have a jubilee sometimes in order that we may see the pictures of the men who were reviled as politicians while they were alive and after death were canonized as statesmen and fathers of the country.

Don't be jealous of the joyous. There are too many long faces in the world today. What is needed is more sunny smiles.

CATER TO TOURISTS

Automatic footers." Fire is no longer the main bia, and the popularity of the judges' In catering to tourists here is one of the difficulties encounelement of the operation; we are taking choice was evidenced in unmistakable tered. A man and wife from Chicago came in a few days ago. On the water from the hills in greater fashion when thousands of his fellowthe train they inquired how they might employ the time they planned quantities as time goes on in order to citizens assembled in Beacon Hill Park Made only by Victor to stay in the city, something like three or four days. When told Orthophonic get as near as possible to the maximum cheered Capt. St. Clair to the echo logic for the Trademark that there were no sidetrips except to Stewart and no way of getting recovery of metal values. When the as he received the award at the hands out to visit the points of interest except by chartering a launch they furnaces of Anyox were first blown in of Mayor Pendray says the Victoria there were four in all, each one being Times. were disappointed. It was pointed out that the work of organizing parties of tour- capable of treating 800 tons of original For thirty-three years Capt. St. Clair ists and arranging for launch trips was usually done by the tour or every twenty-four hours, or a total was instructor of physical education in of some 3,000 tons a day for the four the public schools of Victoria, and Victrola ist hotels but as there was not a tourist hotel in Prince Rupert there units. Because the character of the ore many of former pupils who received was no one to do it. If the railway had a hotel here, parties would has continued to change since that their early physical training at his be made up often at Jasper and the hotel management would either time, at present only one furnace is hands were in the throngs who pressed have launches to take guests on trips or would make arrangements operating, the bulk of the ore now forward after the formal ceremony to with local people to handle them at so much each.
