

The World's Favorite Milk

MARNATION Milk could not be the largest selling brand of evaporated milk in the world did it not appeal to more people than any other brand. And it does. It appeals because of its wonderful smoothness and richness, its purity and uniformity. Carnation quality is tested and protected right from the cow to your pantry shelf.

Carnation is the most completely useful milk you can buy. Use it undiluted in place of cream at one-third the cost of cream. Diluted, Carnation adds richness to all cooking and is superior for other milk uses. Carnation is pure, fresh milk—evaporated to double richness and kept safe by sterilization. Order several tins or a case of 48 tins from your grocer.
