Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

TOURIST TRADE GREAT FACTOR IN PROSPERITY

George I. Warren of Victoria Tells of What This Business Means

VICTORIA, Nov. 8.—"Tourist trade is now recognized as a very valuable one throughout Canada. It is estimated that 360,000 tourists visited this city during the past summer, and if each of these visitors averaged $20 expenditure in this city, it would mean that over seven millions of dollars of outside money was left here," Mr. George I. Warren, publicity commissioner, said in addressing the Junior Chamber of Commerce at its general meeting last night.

"These figures are substantiated by the fact that the bank clearings for the four months of May, June, July and August show an increase over the preceding four months of $6,776,255. The bank clearings for these four summer months were over $41,000,000, and estimating seven million of tourist money, it would represent approximately seventeen per cent of the total, even though it is conceded that a greater proportion emanates from tourist business either directly or indirectly The first ten months of this year shaw an increase in bank clearings over 1923 of $11,896,577.

One hotel showed 60,000 registrations last year, while one of our small restaurants during the ninety-day period, served 45,000 meals, most of which were to tourists.

A GREAT FALLACY.

"The tourist exchanges his money for scenery, food, shelter, pleasure, amusement, as well as for other commodities. It is often stated that the principal beneficaries of tourist traffic are the hotels and restaurants, which is a great fallacy."

Mr. Warren then went on to show how the money earned by hotels from tourists found its way into the pockets of citizens in all walks of life.

"That the tourist business is a good investment for Victoria is proved by the fact that almost invariably the newcomer calls at the Bureau, and asks for literature to send to his friends, stating that he intends to come back himself and bring his friends with him. The fact that these people do return shows that this is correct.

"Years ago Los Angeles tried to advertise its industrial possibilities, but was forced to abandon same, and is now not spending a dollar in industrial advertising, although the All-the-Year Club and the Chamber of Commerce this year are spending approximately $1,200,000 in national advertising to get tourists, for they know that out of every thousand tourists, some monied people return to live, and bring their funds for investment. Los Angeles County is levying $700,000 in taxes to spend for tourist advertising, as a means of stimulating their industrial payroll.

"A system of hotels is as much an industrial plant as a grain elevator or cold storage plant."

FINANCIAL POST IS NOT IN AGREEMENT WITH TORY PLATFORM

Says it Deserves a Storm of Ridicule and will not Be Seriously Accepted

(Financial Post)

The press of Canada is still attempting to digest the Conservative platform expressed in resolutions at the Winnipeg convention. The platform is proving to be exceedingly indigestible. It was, of course, a platform containing many pompous imbecilities, and fortunately for Canada, no one seriously expects the Conservatives to stand by every promise in that platform. An attempt was made to please every section of the country and every class in the country; to steal thunder from the Liberals, and take the wind out of the sails of the Progressives; to make many concessions without incurring any serious enemies. Of course, no platform can be drawn that will accomplish such an impossible task. If public attention were not diverted so largely to discussion of the new leader and to the Meighen-Ferguson row, the platform would bring down the storm of ridicule it merits. As it is further examined in clear detachment from the atmosphere of the convention it is likely to be accepted by Liberals and Conservatives alike, as no adequate expression of the political viewpoint of Canadian Conservatism.

KETCHIKAN AFTER AUTOMOBILE DRIVERS WHO WON'T PLAY FAIR

KETCHIKAN, Nov. 9.—As soon as the new traffic ordinance is in effect, city officials will have a "surprise package" to hand out to auto owners and drivers who won't "play fair," but want to "cheat" whenever no officer is around.

For one thing, "plain clothes" men are to be stationed at different places to check up and secure a list of those who do not slow up at street corners, who speed along the public streets and roadways, who neglect to "dim their lights" in passing another car in dark places, and who generally speaking, are careless of traffic rules which are designed for the protection of the public, pedestrians as well as automobilists.

It will soon be getting cold weather and when some of the streets are coated with frost or ice, driving is doubly dangerous. Efforts also will be made to prevent children from pouring water on some of the streets for the purpose of coasting.

CANADIAN APPLES FOR OVERSEAS

"What shall I send the folks in the Old Country?" is a query heard as the Christmas season approaches, but if the average Canadian realized how much our big, juicy, red apples are appreciated and enjoyed by people overseas the problem would be immediately solved.

Canadas luscious rosy apples are relished by young and old alike. They symbolize our brilliant sunshine and warm summer days and they do look Christmasy and cheerful. Northern Spies, McIntosh Reds and Baldwins are the best and the most popular to carry your kind thoughts and good wishes across the sea and standard boxes and barrels of choice hand picked and hand packed fruit, Government inspected, are procurable at reasonable prices from any grocer while the matter of shipment is as simple as the mailing of a card.

The Canadian National Express will call for your apples, transport and deliver them by quick service to any station in Breat Britain, Ireland and most Eurcpean countries.

The transportation charge from Montreal and Quebec up to November 15 or from St. John and Halifax, thereafter, by direct steamer to points in Great Britain, Ireland and the Channel Islands, is $3.40 per standard box and $6.20 per standard barrel, including refrigeration.

For rates to Canadian ports, through rates to Continental stations and other particulars, consult any Canadian National Epress Agent.

SPORT CHAT

There is considerable possibility that Canada will be the scene of the next Olympic winter sports—following those to be held at St. Moritz in February next, and the Federation Internationale of Bobsleighing and Tobogganing is sponsor of the proposal. The A.A.U. of C. quite recently became a member of the Federation. The bobsleighing in connection with the forthcoming Olympics will take place on February 15 and 17 and the "skeleton" contest on the 16th. The meeting of the Federation will take place at St. Moritz on February 16 and Canada will be entitled to representation. In fact, the officers of the Federation are very anxious that the Dominion be represented, as the Federation is desirous of securing detailed information as to the manner in which tobogganing is conducted here, as to implements, type of races, stations and courses, with the end in view of adding this feature to the sports supervised by the Internationale, which is representative of fourteen affiliated nations.

Officers of the Federation have expressed themselves as being particularly happy to see Canada become affiliated as they put it, "because you are masters from the point of view of winter sports." They are hopeful that in connection with the Olympic games when held in America the winter sports will take place in Canada, in which would be included world's championships in bobsleighing, "skeleton," "luge," Canadian tobogganing skiing. There is no national organiaztion in the Dominion, on the roster of the A.A.U. of C. governing the sports being supervised by the International Federation, though there are a great many people interested and actively engaged, and the matter will be discussed at the forthcoming meeting of the A.A.U. of C.
