

By George McManis

Neglected Eyes

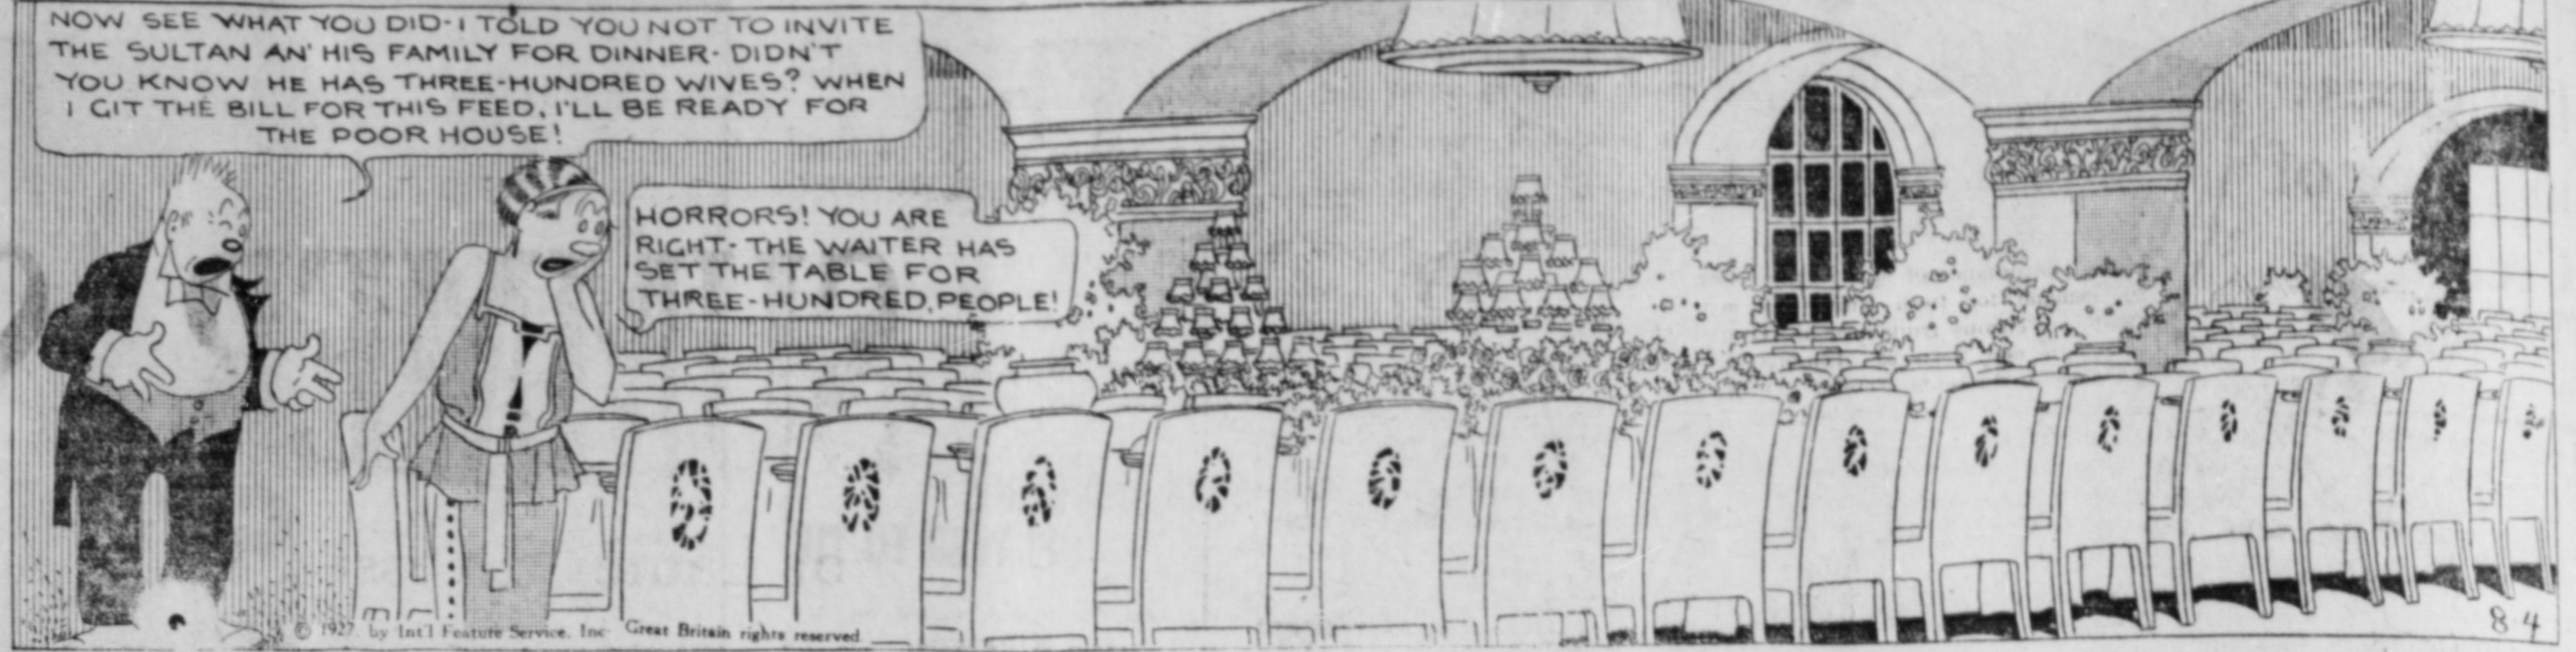

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

BRINGING UP FATHER

IMMIGRANTS FOR CANADA

W. D. Robb, Vice-President of C.N.R. Tells of Work Being Done by Railway

WINNIPEG, Aug. 4.—In an interview here today, W. D. Robb, of Montreal, vice-president of the Canadian National and head of the department of insurance, lands, telegraphs, colonization and development of the Canadian National railways strongly advocated the bringing out of immigrants in families. The Canadian National railways, he said, had found that the scheme of settling families on the land was working out admirably and they were now concentrating their colonization efforts in this direction, single men were necessary, he admitted, but families were more suitable, they settled down in their community and were soon making their contribution to its up-building, and it was because of their experience and influence that other settlers were induced to come to Canada.

SCANDINAVIAN PEOPLE
He gave as an example the Scandinavian countries. Two years ago on a visit to northern Europe, he found that thousands of families of good farming stock and possessed of money were waiting their turn to get into the United States under the quota law. They were not thinking of Canada because they did not know it. Since that time however, Scandinavians had been brought here in large numbers and the effect of their presence here on friends and relatives at home was already being felt.

The important thing, so far as the settlement of families was considered, Mr. Robb said, was after, and the Canadian National Railway were doing in all their power to see that the families were comfortably settled and happy in their surroundings.

Mr. Robb declared that there was no surplus of immigrants in Canada, and provided there was a good crop, which no one doubted, he saw no trouble in the coming winter.

The presence of the immigrants who had come out this spring made the procuring of harvesters from the United States unnecessary this year, he stated.

U.S. SETTLERS
Mr. Robb has just returned from a visit to the United States, where he looked over the situation as regards American settlers for Canada and he spoke most optimistically on this score. The Canadian National had brought out many well-to-do American farmers and their families, 25 per cent greater in numbers than last year—and was still continuing to do so. They were of the most desirable class, sturdy, experienced, ready to buy land and settle down to be of use to the community.

During his stay in Winnipeg, Mr. Robb has been in conference with heads of departments and tonight he will leave for Edmonton after which he will visit the coast.

TERRACE

Mrs. Christie and two children, Billy and Dorothy, of Prince Rupert, are holidaying at Hill Farm.

F. DeKerganmeaux and family are now occupying the new building recently erected directly east of the United church, as a combined kodak printing room, shoe repairing shop and dwelling.

H. M. Willson is erecting a new restaurant building between the Asar block and George Little's office.

On Tuesday afternoon at the home of Mrs. C. R. Gilbert, the hospital auxiliary held its final meeting before the garden party and sale of work which is being held on the lawn of George's Little's home on Wednesday

Agreeably aged, smooth, fragrant—congenial company anywhere

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia

Mr. J. Warne and Miss Donald spent Monday and Tuesday with friends at Remo.

Garfield McKenzie and Lloyd Grey of Prince Rupert are spending a holiday at Hill Farm.

Chas. Toombs of Port Simpson, formerly of Terrace, is visiting at the home of his sister Mrs. J. Thomason, Lakelse Valley.

Mr. and Mrs. E. T. Brooks moved into their new home on Park Avenue this week.

R. H. Graham, of Stewart, B.C. was a visitor here at the beginning of the week.

J. A. Bishopric, mining man of Vancouver, made one of his periodical visits to Terrace this week.

A meeting of those actively interested in the Diamond Jubilee celebration was held in the Terrace Hotel parlor on Monday evening to make final disposition of the funds left over from July. Several good suggestions were submitted, the hospital fund proving the most popular so the choice was made unanimous and the one hundred dollars remaining in the celebration fund will be turned over to the Terrace Hospital Association.

F. Ebbitt and A. Scott of Britannia, arrived from the coast on Tuesday for a visit to this district.

Mrs. B. Deacon of Sidney, B.C. was a visitor here at the beginning of the week.

The B.D. Bridge Club met on Tuesday evening at the home of Mrs. Geo. Dover.

TWO PRESENTATIONS CUP AND CARD CASE

On behalf of the Diamond Jubilee Committee A. J. Prudhomme and R. LePine visited the home of Mr. and Mrs. Peter Doherty yesterday evening to present to Kathleen Patricia Doherty, their baby girl born on Dominion Day, the

silver cup given by the committee. They also presented Miss A. Pillsbury with the silver card case which was awarded to her, the first white girl born in Prince Rupert, who set fire to the Dominion Day bonfire.

ASK IMPROVE GAME GROUND

Jubilee Committee Waited on and Donation From it Suggested

A delegation from the Acropolis Hill Improvement League appeared before the Diamond Jubilee Celebration Committee last evening asking the latter to consider the question of making a grant towards improving the playing pitch.

B. Self outlined the objects of the league and how it had already turned in \$150 to the city for work done on the ground this year. It would make another payment this week. He suggested that the Jubilee committee should consider making one of their objects the same as the league had in view and that they set aside a sum for that purpose. The league had no selfish objective and would co-operate with anybody to further the common interest.

J. S. Wilson on behalf of the Football Association claimed that the safety of the players was of even greater importance than the convenience and comfort of spectators. There were too many watching and not enough taking part in games. For injuries to players the football and baseball committees had spent over \$525 in the last two years. Money spent on putting the ground in a safe condition for the players would benefit the whole city.

F. Scadden spoke along similar lines and stated that he was willing to work with anybody that had such an object in mind.

B. Self in conclusion thought that there would not be enough time to do anything permanent in regard to building a grand stand this year but suggested that plans might be considered and that on the occasion of the Labor Day celebration a memorial foundation stone might be laid with a suitable inscription in honor of Diamond Jubilee. Then a trust fund could be established and next year, with the assistance of all bodies and the council, the stand could be proceeded with.

A. Prudhomme promised the delegation that the matter would receive the consideration of the committee, and the delegation withdrew.

SPORT CHAT

The Rev. William M. Lamance of Mount Vernon has applied for a stage boxing license for his son, Billy Lamance who is scheduled to fight Dana Haswell in a ten-round bout on August 13. The Rev. gentlemen is manager and second for his son.

Pittsburg, leaders in the National League, have three batters heading the individual batting averages and two pitchers leading in pitching records.

In the American League New York supplies the three leading pitchers and the second and fourth in the batting averages.

Jack Dempsey says that win or lose when he meets Tunney in September he will get out of the game forever rather than wait two or three years for a worthy contender.

Francois Coty, perfume manufacturer and proprietor of the Frago has offered a loan of 1,000,000 francs to defray the expenses of preparation of the French Olympic competitors until Parliament is able to vote the money in the fall. The Chamber of Deputies passed the bill appropriating \$2,000,000 and it is felt that the Senate will reconsider their decision. There was a serious possibility that France would not be represented at the Olympic games but the offer of M. Coty practically ensures their participation.

While the destination of the City League has been settled in the football league there is considerable interest in the meeting between the Moose and the Regiment in the league tonight. In only one game has there been more than one goal between these teams this season. The Regiment are out to show that it was a little bad luck that lost them the league while Moose are not desirous of occupying the cellar position after having won two trophies.

LOCATION OF CITY AND GARDENS MADE GOOD IMPRESSION

Mr. and Mrs. E. S. Hoffman of Troutwood, near Dayton, Idaho, are registered at the Central Hotel. They went north with the Cosmopolitan Tour party from Dayton, Ohio, but are going east by train. They have been greatly impressed by the magnificent scenery of the inland passage and the northern waters and go away big boosters for this northern trip.

They were much surprised at the size and up-to-date character of Prince Rupert, while its beautiful location and pretty gardens all made a big impression.

PRESENTATION MADE TO HARRY BREEN BY JUBILEE COMMITTEE

After the business meeting of the Diamond Jubilee Committee yesterday evening a presentation of a silver casserole was made to the secretary, H. Breen, in recognition of the very successful manner in which he had carried out the very numerous duties of the position.

This was without doubt one of the most successful celebrations ever staged, and the smooth running of the various events was due in a very large manner to the capable way in which Mr. Breen kept things going.

FLY-TOX PROTECTION NEEDED

Thirty Different Diseases are Transmitted by Flies

Flies are the filthiest insect known. They deposit germs in three ways. By contact, vomit spots and excreta. They taint everything they touch. Fly-Tox kills flies. It is safe, stainless, fragrant, sure. Simple instructions on each bottle (blue label) for killing ALL household insects. Insist on Fly-Tox. Fly-Tox is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Fellowship. Fly-Tox brings health, comfort and cleanliness. Advt.
