Delicious in Place of Cream

HOSE who really know L Carnation Milk know that, used in place of cream, it really "makes" a cup of coffee. Delicious, too, in salad dressings, sauces, gravies, soups. And Carnation works wonders in improving all cooking.

You'll like its finer-than-ever taste, its creamy richness. And its great economy will please

For though Carnation, undiluted, takes the place of cream, it costs only one-third as much. And for cooking, where you dilute it with water, it is economical, too.

CONGRESS IS TOLD OF ARTIFICIAL RAISING CHICKENS IN GERMANY

OTTAWA, Aug. 4.—Owing to increasing demand the frozen egg industry is no longer a sideline but must be conducted on a self-contained basis, I. H Hall of Winnipeg said in an address to the world poultry congress today. In the west increased demand had folundergrade eggs before they had deteriorated and higher prices were being obtained with less loss. The egg-breakimprovement in the quality of eggs, he said, but this, had increased the cost of breaking stock and reduced the available supply.

Mr. Hall said proposals to protect Canadian frozen egg producers by restriction of imports from the Orient were premature, because the demand was in excess of the domestic supply.

Rev. P. E. Baisler Announces That Pastor Will Arrive in Early Autumn

That a new pastor would be here to take charge of St. Paul's Lutheran Church congregation in the early autumn and that work would be started as soon as possible on the new church building

to the Daily News. Mr. Baisler spent July in Fairbanks, Alaska, where he has organized a new church. This is the central point in the interior of the territory and much activity is being shown there just now. The Fairbanks Exploration Company is spending about twelve million dollars in the neighborhood and the result is beneficial to the city. It has now about 3,000 inhabitants and is growing.

"FAMOUS DOCTOR MAKES GREAT DISCOVERY"

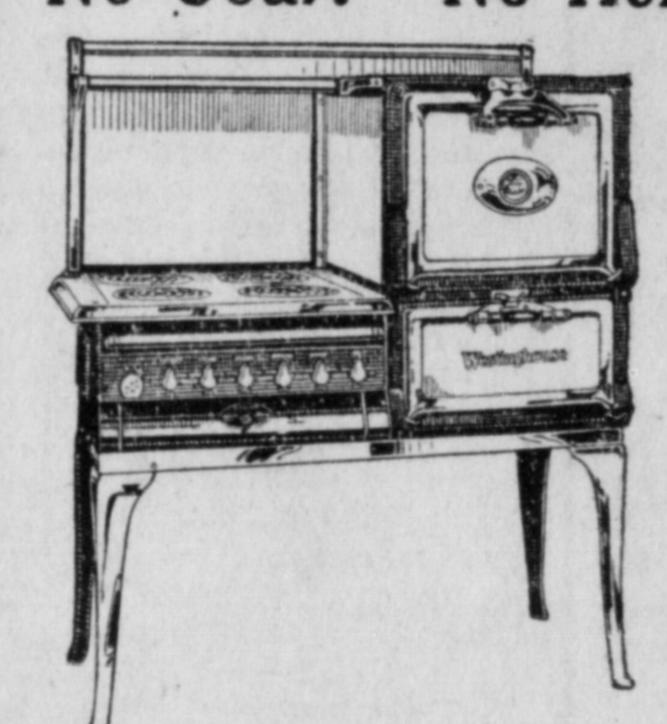

Hardly a month passes that we do not read a headline similar to the above. Slowly but surely disease is being conquered by the group of men whose unremitting toil we hear little about. Little do we realize that behind that startling announcement lies perhaps a lifetime of effort. It is the vocation of the pharmacist to study constantly the new developments of science so that he will be familiar with the new discovery when it is placed on the market.
