NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to-and at once.

OF ALL absurdities in the foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

WANTS PROSPEROUS CITY

Editor Daily News:

Please allow me space in your valuable paper for the following letter: My time being limited in Prince Rupert for various reasons and severing my business. connections about the middle of August. I came to your city broke through no fault of mine. Being a farmer and having had two crop failures in succession, I returned to my former occupation of auctioneering, at which I can

safely say I have been snuccessful. I can assure you I have met a lot of broad-fainded citizens, businessmen and officials and with their good judgment and my ability I have pulled through. It is too bad there are always a few so narrow that they cannot see any further than the tip of their nose. This is the class that stops developments and the growth of a prosperous city. It is just as easy to make Prince Rupert a two-horse city as a one-horse town. Break away from so much monopolizaition and concessions and influence and throw the door wide open to all comers and all businesses and matters will ad-

just themselves. I prefer handing out bouquets in preference to throwing brick-bats every time. I am for clean business, a prosperous city and larger developments. G. F. BRINE.
