A SAILOR'S EXPERIENCE

RHEUMATISM AND PILES ENDED BY "FRUIT-A-TIVES"

MR. S. FLOYD.

"For some time I had been suffering with rheumatic pains in my shoulders. I decided to try 'Fruit-a-tives'. In a very short while I had relief for the first time. I also had a touch of bleeding piles and found that 'Fruit-a-tives' worked like a charm. I would not be without a box. I think they are really marvellous."—Mr. S. Floyd, Nanaimo, B.C.

Mr. Floyd is one of thousands who owe their present good health to "Fruit-a-tives".

The "charm" of "Fruit-a-tives" is simple. "Fruit-a-tives" is composed of fresh fruit juices intensified and combined with tonics. In a natural way it corrects constipation, stomach, kidney and bladder troubles, rids the system of poisons and purifies the blood. "Fruit-a-tives" is sold everywhere. 25c and 50c a box. Test it, yourself. Commence now.

She Tripped and Fell

A child at play trips and falls. There follows a ten years' period of acute and intermittent ill-health, which no one connects with that fall, until a chiropractor gets the case.

Only the chiropractor can know how often a fall, an accident, or a sudden violent jar has preceded years of illness, the actual and direct cause being unsuspected while continued treatment of symptoms is in progress.

The spine is the foundation of our frame, and must absorb the shock of every accident. If one of its little bones be moved out of line every so slightly as a result, there will be nerve pressure and ill-health must follow.

This cause should be suspected in every case of unexplained illness—a visit to the chiropractor will establish the facts.

"Our 14 year old daughter had a severe fall when 4 years old. Since then she has never been free from headaches and pain and weakness in back and limbs. She could not play like other children for she would always stumble and fall. Five years ago she had an attack of appendicitis which frequently recurred. Anemia then developed, and for two years she has been infected with boils. When an unusually severe attack of appendicitis occurred four months ago it was said her only hope was an operation. Fearing this, we turned her over to a chiropractor. She was better after the second adjustment, improved steadily thereafter and gained better than a pound a week under his care. Her troubles have practically all disappeared and she now feels better than ever before."—C. C. Hanvelt, Chiropractic Research Bureau, Statement No. 2106-G.
