Lady Willingdon, wife of the Governor-General of Canada, addressed a large assemblage of local women at a luncheon today under the auspices of the Women's Canadian Club. Mrs. S. P. ing of "O Canada" and there was vocal blessing before luncheon. Mrs. McMordie introduced Lady Wil-

lingdon as follows: 'Ladies of the Canadian Club and guests from the Imperial Order of the Daughters of the Empire; today is indeed a happy day for all Prince Rupert, having with us the Governor-General of Canada and Her Excellency Lady Willingdon. We are pleased to think our little northern city was not forgotten during this wonderful tour and we welcome them most heartily.

"Our guest of honor and our speaker, Lady Willingdon, needs no introduction from me, but I would like to say that was made a Lady of the Order of the Crown of India, and so beloved by the people that they affectionately called her, 'The Lady of the Golden Heart.' "

LADY WILLINGDON Lady Willingdon said:

"Madam president and ladies of the Prince Rupert Canadian Club: It gives me very great pleasure to meet you all. The warmth of your welcome and our first official visit has touched us

"I have been amazed since we arrived in Canada at the energy and devotion of the women of this country. In the Canadian Clubs you have a country of such wide spaces as is this great Dominion of ours there is always a danger of parochialism and I know of nothing better than the Canadian Club to sustain the interest of one community in another and to make members realize that, while their hometown means much to them, first of all. they are citizens of that Dominion that we all hope some day to see in the front rank of the nations of the world in influence and power,

"It is most interesting to come to your City of Prince Rupert, named centuries later after the leader of one of those great trading companies that have made the British Empire . 'the Company of Gentlemen Adventurers trading in the Hudson Bay.' Like those adventurers we have come to you through troubled waters. Yesterday they admitted they were very troubled and troublesome-but we found a warmer. kindlier welcome than awaited those hardy pioneers, and we hope to come again before our five years are up. Once more let me thank you for your welcome. I wish you all the very best city and your great country of Can-
