Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

ENROLMENT IN SCHOOLS HIGH

Total of 974 Makes a New Record for Prince Rupert—Teachers Submit Reports

There are today more pupils enrolled in Prince Rupert school than ever before in the history of the city. The total, as reported to the board at its meeting by the teachers last night, is 974, made up of equal numbers of boys and girls, 487 each. Enrolments per school are as follows:

	Boys	Girls	Ttl.
High School	61	91	152
Booth Memorial School	233	191	424
Borden Street School	155	165	320
Seal Cove School	27	29	56
Westview School	11	11	22
Totals	487	487	974

Miss S. A. Mills, reporting for Borden Street School, stated that her total enrolment of 320 was an increase over last year's 300. The total did not include the pupils of Westview who last year came to Borden Street School but who were now in their own school in Section Two. The enrolment was the heaviest since she had been here. It was an average of 40 pupils per class. There were 42 pupils in the receiving class. Miss Mills stated that the school had been found to be in excellent condition following the holidays, a vast improvement having been made in the grounds. A few more desks were needed as well as other minor requirements.

Miss E. A. Mercer, principal of Booth Memorial School, had also found her premises in good condition. About 36 larger desks were required, there being an abundance of the smaller sizes. Thirty-eight pupils had been admitted into the receiving class.

Mrs. A. B. Linzey reported a decrease of about ten pupils in Seal Cove School. She asked that leaky gutters be attended to.

Miss Halliwell asked for blinds at Westview School, the reflection of the water having proved trying to both teacher and pupils at times.

Thomas Peddie, High School principal, reported that ten pupils were in attendance at the Senior Matriculation class which had been reopened this year. The fact that this class had been opened made necessary the addition of further reference books to the library as well as further apparatus for advanced science. He would submit a list of the requirements which he estimated would cost altogether about $100. The school needed a few repairs including the elimination of knocking from the heating system.

PAY SECTION FOR LIBRARY

Board Decides to Commence in Small Way With New Novels

The library board last night decided to institute a duplicate pay system in a small way, giving the plan a trial. Thirty new novels will be purchased, duplicates of those placed in the free section, and a charge will be made of ten cents for the first week and fifteen cents for each subsequent week. Later these volumes will be placed on the free shelves. The pay section is to give those who are in a hurry to read the new books an opportunity to secure the use of one for a small payment rather than waiting their turn in the free department. This section will be self-supporting and will not interfere in any way with the free library. It will be opened just as soon as the new books arrive.

The report of the librarian showed that during the month of August 3,353 volumes were taken out by borrowers of which 2,383 were fiction, 305 non-fiction and 665 juvenile. The library was open for 23 days with an average distribution of 145.7 a day.

Eighteen new books were added by gift and 69 by purchase while 17 had to be discarded as worn out. This leaves 5,988 volumes on the schelves or in circulation.

A letter was read from George Rorie commending the proposal to institute a pay section. Several members reported people having spoken approvingly of the suggestion.

Those present at the meeting were G. V. Wilkinson, president, Alderman M. M. Stephens, Mrs. Kirkpatrick, George Sutherland and H. F. Pullen.

BEGINNERS' CLASSES DISCUSSED BY BOARD

Opening Receiving Classes Only One a Year Advocated by Principal of One School

The question of whether beginners should be taken in the public schools twice or only once a year came up at last night's meeting of the school board. Heretofore, it has been the practice to take beginners only once a year at Borden Street, admitting them in September when their sixth birthday fell prior to February 1. In Booth School, however, it has been the custom to open a receiving class on February 1 as well as in September.

Miss Mercer, principal of Booth School, favored having all beginners start in September, eliminating the February opening. She referred to the fact that the mid-year admission often caused difficulty in subsequently grading the children who either had to jump a class or be retarded half a year.

The board decided to let matters stand as they had been. The necessity of having an additional class teacher in the near future was seen.

RAISE IN SALARY GIVEN PRINCIPAL OF HIGH SCHOOL

On motion of Trustee McMeekin, seconded by Trustee Bryant, the school board decided last night to increase the salary of Thomas Peddie, High School principal, by $100 a year.

The matter was brought up by Chairman Rochester who reminded the board that Mr. Peddie had been engaged on the understanding that he would be given an increase of $100 when his first year was up. That year had now expired and Mr. Rochester suggested that the board implement the undertaking.

"Mr. Peddie has done splendid work," remarked Trustee Gilchrist.

MANUAL TRAINING FOR ANNUNCIATION SCHOOL ASKED OF THE BOARD

Permission for eight pupils of Annunciation School, children of city taxpayers, to attend manual training classes in connection with the city schools was sought in a communication placed before the school board last night by Rev. Father P. J. McGrath. The board decided to obtain a ruling on the matter from the education department.

"It is a rather unusual request and one on which I feel we ought to have a little advice," stated Chairman Rochester. He was of the opinion, however, that the board was not compelled to comply with the request. "If people want their children to take manual training, they know where to send them," he remarked.

On motion of Trustees Gilchrist and McMeekin it was decided to refer the matter to the Education Department.

Secretary Williamson reported that manual training classes were already full to capacity.

SPORT CHAT

The Davis Cup, emblematic of the highest honors in the tennis world goes to France. As predicted in these columns America weakened their chances by playing to sentiment. Tilden cannot go on forever, and France took no chances. America did. They won the doubles, but Tilden had to play all three days, whilst Cochet and Lacoste, rested up on Friday, from their hard matches of Thursday to go into Saturday's battle fresh. Had America developed a younger team of doubles players, to protect their aces, they might still be in the picture. The effect of losing the Davis Cup will cause a big upheaval in American tennis, and possibly do the game more good than anything that has happened for many years. Tilden and Johnson are two of the greatest tennis players ever developed, and the loss of the Davis Cup, will never dim the brilliance of past season's play, and successful defence of this coveted trophy.

When Tex Rickard waves his magic wand in Soldiers' Field, Chicago, on the night of September 22, he will have added a new Eldorado to his already long lists of pay dirt. Mining days in Nevada were penurious compared to the triumphal parade of Rickard, the one time proprietor of Goldfield's leading hotel twenty years ago. Nothing less than a million will satisfy the greatest promoter of a decade, if not of all time. This mark was first set at Boyle's Thirty Acres, next at the Polo grounds, New York; then at the Sesqui-Centennial, Philadelphia, a year ago, and recently at the Yankee Stadium. Jack Dempsey put the "mill" in million on each occasion, and from all appearances will put three million into the Chicago melon for Tex Rickard to cut.

Rickard knows his public. Early in life he was taught never to kill the goose that lays the golden egg. He takes particular care not to go to the same well too often, therefore Chicago gets an oppodtunity to grubstake him for the coming winter, and who would not say there is not method in his madness? What other city in America or in the entire world for that matter, could provide the magic wand of Rickard with a feast worthy of the man? From the north, south, east and west to this great western metropolis, will come the greatest crowd in history to witness a battle, which will be almost secondary in point of interest to the remarkable achievement of Tex Rickard.

Briefly here is an approximate idea of the commercial end of it. Probably 150,000 seats will be sold at prices ranging from $5 to $40 each. More than 60 per cent of this vast throng will have paid $25 and upwards for being present. Taking $20 as a grand average price, it is only the work of a school boy to multiply these figures and you have the answer. The man from Goldfield, Nevada, George L. Rickard, taught the east new methods in fight promotion. After Chicago what new height will he climb to, where will the magic wand wave and when?

At a meeting of the executive of the Prince Rupert Football Association, held last night in the city police court with President R. M. Winslow, Secretary F. E. Wermig, Vice-president F. J. Fuller, Ben Self, A. E. Dickens and J. S. Wilson in attendance, it was decided to hold the play-off for the Gilhuly Cup, between the Moose and the Regiment, which was called last Wednesday account of darkness on Thursday evening of this week with G. S. Russell as referee. The hour appointed is 6 p.m. and the game will be half an hour each way.

John McRae returned to the city on yesterday afternoon's train from Terrace where he spent the week-end.
