PIONEERING and more

The fact that we are Prince Rupert's first drug store is not considered as sufficient reason for asking for your patronage. But the fact that our service has grown with the years, that more and more people have tried us and found us not wanting is, we believe, sufficient reason that you too would find our service satisfactory.

Crown Colony Days

Away back in the late sixties thousands of acres of British Columbia's timber were sold for one cent per acre, which looked like a fair price-then. Today similar timber is worth from \$150 to \$200 per acre, so tremendously has timber appreciated in value within the scope of an average lifetime.

What the young growth of today will be worth sixty years from now is beyond computation if it is protected from fire and allowed to reach maturity.

The moral is obvious.

OFFER FROM

Library Board Accepts Offer of British Publications From States

At the meeting of the Library Board last night a letter was received from A. J. Ikin of Bakersfield, California, which reads as follows: Dear Sir or Madam:

On a recent vacation trip north l had the pleasure of a few hours stay in Prince Rupert and spent a few minutes in your library. I noted you did not have "John o' London's Weekly," which is an epitome of British folk lore, literary articles, modern thought, poetry, historical and secular reading. If your library would care to have them I would be pleased to donate some three year's volumes, unbound, and to forward you from time to time the current issues as received. Also would you care to have "History." the quarterly journal of the London Historical Association?

My reason for addressing you is that there must be many British and colonials as well as Canadians who would enjoy a reminder from the "Land of Hope and Glory."

Though a resident in U.S.A. I am a subject of "The King" and a son of "The Empire" and like to try and keep the spirit of the "Sons of Albion" united. An early reply will be appreclated so I can make other distribution in case you are not interested.

Yours very truly, ARTHUR J. IKIN.

The board decided that it could not use the old files of the John o' London's Weekly but would like to have the current numbers and the copies of History. The writer of the letter will be notified and thanked for his generous offer.
