PRINCE WILL NOT PRESIDE

Will Send Message to British Association at Leeds Next Week

IMPORTANT SPEAKERS

Darwinian Theory of Descent of Man to be Discussed as it Stands Today

LONDON, Aug. 24.—(Canadian Press).—Being in Canada, the Prince of Wales will be unable to personally deliver the addresses as retiring president when the British Association for the Advancement of Science holds its inaugural general meeting at Leeds on August 31. He will, however, send a message from the Dominion, to be read at the meeting. Sir Arthur Keith will be the new president.

The sessions proper of the great scientific organization will take place from September 10 to 17; 2,500 are expected to attend, a number well above the average.

Sir Arthur Keith's presidential address will be on "Darwin's theory of man's descent, as it stands today." The address will be broadcast by wireless. In all, there will be about 300 scientific communications, addresses, discourses, discussions and papers.

IMPORTANT SUBJECTS

Some of the most important of these are: "The broadening of the outlook in education," by the Duchess of Atholl, parliamentary secretary to the ministry of education, "Rationalisation of Industry," by Prof. D. H. Macgregor; "Outstanding problems of relativity," by Prof. E. T. Whittaker; "the Englishman of the future," by Prof. F. G. Parsons; "Agriculture and national education," by C. G. T. Morrison; and "Forestry and the Empire," by Sir Peter Clutterbuck.

Discussions which are of wide interest as well as importance are those on coal, on prices; on the psychology of special scholastic disabilities, and on the report of the committee on educational training for overseas life.

A new feature this year will be a series of special meetings on textiles. The association, though always concerning themselves with the economic and industrial interests of the localities where they meet have not hitherto arranged a complete series of communications on the applications of science to a particular leading industry.

EXCURSIONS AND LECTURES

Full advantage is being taken of Leeds as a centre for scientific excursions and arrangements have been made for field work in geology, archaeology, agriculture, forestry and for the inspection of various industrial activities and the collection illustrating primitive weaving at Bankfield Museum at Huddersfield.

An exceptionally large number of public lectures have been arranged this year since it was found that they were in strong demand, and the usual arrangements have been made for the admission to the meeting of selected students from universities and colleges and some 60 students have been nominated. Women continue to take an increasing part in the meeting and this year they contribute to all but a few sections.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Queen Charlotte Island Land Recording District of Prince Rupert, and situate at the head of the south arm of De La Beche Inlet, Moresby Island.

TAKE NOTICE that British Columbia Fishing & Packing Co. Ltd., of Vancouver, B.C., occupation Packers, intends to apply for a lease of the following described lands:—

HAD FINE TRIP TO CHICAGOFF

Ald. M. M. Stephens and Party Return on Gasboat From 1,000 Mile Cruise to Alaska

After a pleasant cruise which covered a distance of about 1,000 miles going and coming and which took them to the northerly tip of Chicagoff Island in Icy Straits, Ald. M. M. Stephens, Vince Lade and Sydney Hunter returned home about 5 o'clock yesterday afternoon on the first mentioned's power boat Vera S. Frye. The trip was featured with beautiful weather, with some fog, all the way and there were no untoward incidents to mar its pleasure. The only rough weather was when the little vessel got a dusting while coming down through Clarence Strait between Wrangell and Juneau on Monday. The trip took just two weeks, departure having been made a fortnight ago this morning.

The first stop northbound was Ketchikan, a distance of ninety miles, other daily jumps being Petersburg, 115 miles; Juneau, 115 miles; Hoonah, 75 miles, and Lisianski Inlet, the destination, 70 miles. A side trip was made northbound into Taku Harbor where the little boat remained three or four hours near the immense glacier which comes down to the water's edge. It was a lovely day and, under the sunshine, big chunks of ice were falling off to thrill the visitors.

Two days were spent at Lisianksi Inlet, where Ald. Stephens has mining interests, and starting last Thursday afternoon at 4 o'clock, the trip was made home with stops at Three Hill Island, 25 miles; Shelter Island, 100 miles; Petersburg, 130 miles; Wrangell, 40 miles; Ketchikan, 90 miles, and home.

Both northbound and southbound, the trip was made through Wrangell Narrows where Ald. Stephens reports steamers are starting to pass again. Tide was bucked both ways in the Narrows. On the northbound trip it was a dirty night with rain and mist entering Juneau and the Gastineau Channel light was picked up with some difficulty. South Indian Passage, which is the entrance to Icy Straits, was negotiated with ease although it is regarded as a difficult piece of water. At Wrangell, on the way south, Mr. Stephens met his son, Elgood, who is employed on the American survey ship Explorer.
