Cost of Shipping Coal to Ontario is Decided

Railway Commission Reports on Cost Which Operator Says is Too Great to be Overcome

OTTAWA, September 14.—The proposal to ship Alberta coal to Ontario received a bad jolt today when the Board of Railway Commissioners reported on the cost of the scheme. The majority report finds that the out-of-pocket cost of moving Alberta coal to Ontario is \$7.20 a ton. Inclusive of the cost of transportation, overhead and superintendence the cost is \$10.07 a ton and the cost "plus an element of profit" would be \$12.20 a ton.

Commissioner Frank Oliver dissented from the views of the majority finding the "out of pocket" cost to be \$6.50 a ton.

YANKEES WIN THE PENNANT

Pittsburg Pirates' Chances Look Better for National League Victory

NEW YORK, Sept. 14.—The pennant chances for the Pirates looked better today than before, they being three full games in the lead as a result of New York and St. Louis dividing a double header and these two teams having five more games to play together.

For the fifth time since 1918 the Yankees captured the American league championship when they beat Cleveland in a double header. Ruth made homers in both games bringing the total to 52 which is seven behind his 1921 record.

NATIONAL LEAGUE

New York 2-12, St. Louis 5-6. Chicago 5, Brooklyn 6. Philadelphia 2, Cincinnati 5. Boston 1-4, Pittsburgh 6-5.

AMERICAN LEAGUE

Cleveland 3-3, New York 5-6. Chicago 5, Philadelphia 15. St. Louis 4-2, Boston 5-3. Detroit 2-3, Washington 3-5.

LOCAL CANNERY CASE ARGUED

Sommerville Cannery Appeal Being Heard by Supreme Court Judge

VANCOUVER, Sept. 14.—Prince Rupert figured in the Vancouver courts again yesterday. On a stated case for appeal by Magistrate Alexander, who acquitted accused in the police court, A. B. Macdonald, counsel for the Dominion Fisheries department, asked Mr. Justice Macdonald of the supreme court to find the Sommerville Cannery Co. guilty of the charge of operating a cannery at Seal Cove, Prince Rupert without obtaining a Dominion license. The right of the federal authorities to license a cannery is at issue.

The Magistrate held that Parliament had no power to enact Section 7A of the fisheries act compelling a fish cannery to take out an annual license. Mr. Justice Macdonald's judgment will be final in the matter but the Ottawa authorities have arranged for a reference on the constitutional question to the supreme court of Canada.

OLD GLORY IS PICKED UP BY STEAMER KYLE

Wing and Tanks Found But Engine and Body Gone Says Message From Vessel

NEW YORK, Sept. 14.—A message from the steamer Kyle says Old Glory wreckage has been picked up consisting of 34 feet of wing containing three tank sections, glass, fuel, gauges and feed pipes. The fourth tank was missing. The other three contained gasoline. The engine and body had evidently been torn from the wings.

CALGARY, Sept. 14.—The finding of the commission kills the hope of sending Alberta coal to Ontario" Jesse Gouge, a Drumheller operator said today.

SEEN BETTER PROSPECTS

EDMONTON, Sept. 14.—That Alberta coal will be moving to Ontario by the early part of the new year is the expectation in provincial government circles as the outcome of the Railway Board's findings. The prospect for moving coal is thought generally brighter.

French Canadians Will Soon Outnumber English Speaking Declares Prominent Speaker

VANCOUVER, September 14.—With the French Canadian population doubling every twenty years, J. A. Paulhus, vice-president of the Chamber de Commerce de Montreal in an address to the Canadian Chamber of Commerce yesterday, predicted that they would outnumber the English speaking part of the population by 1950. He said the habitant had assisted in Canada's great problem of underpopulation by raising large families of healthy and vigorous sons and daughters and by teaching them to settle on the farms and lands of the Dominion.

Rich High Grade Silver Ore Strike is Made on Kitsault River on Silver Cord Group

A new strike of high grade silver-lead-zinc ore has been made on a big quartz vein which has been traced for a distance of 2,000 feet on the Silver Cord group on the northeast fork of the Kitsault River which is under development by the Kitsault-Eagle Silver Mines Ltd., stated W. G. McMorris, head of the company, who was a passenger bound from Alice Arm to Vancouver on the Catala last night. The assay value of the ore has not yet been determined but similar appearing ore encountered on No. 1 level of the mine assayed 258.8 ounces of silver to the ton. The new find is a continuation of this high grade ore and the latest exposure shows ten feet of ore, two feet on the footwall side being almost solid galena-zinc while the balance is good milling ore. Development work will be continued on the surface showings as well as driving a No. 2 tunnel.

The same company is also developing the LeRoy group and a 200 foot vein has been opened up showing ore with values in gold, silver, lead and zinc up to \$60 per ton.

At the Eagle group on the main Kitsault River, which the company is also developing, it is expected that a big vein of ore will be encountered in the very near future.

Mr. McMorris stated that it was possible three shifts would be maintained on both the Eagle and Silver Cord groups this winter as a result of the splendid showings that had been recently discovered.

Storm Struck Coast of Mexico Taking Big Toll of Life and Property

NOGALES, Arizona, September 14.—A cyclone of intense severity which whipped up a tidal wave is believed to have extended over a thousand miles of the coast line last Wednesday spreading death and destruction over the west coast of Mexico. The first information of the disaster reached here Tuesday. Meagre reports are that the death toll might reach into hundreds while other hundreds, maybe thousands, have been made homeless. Shipping suffered heavily.

Three seaports Guaymas, Salina Cruz, and Manzanillo are reported to have suffered property loss while two vessels are missing. The storm is described as one of the worst hurricanes in the history of western Mexico.

The hurricane which swept the west coast of Mexico for three days last week was one of the worst experienced in that district, said a wireless report received by the Panama Mail Steamship Company from Captain Holland of the liner City of Panama from Mazatlan. He said that his own ship put out to sea and rode out the storm for four days.

Bright Yellow Wood With Several Wires Dangling From It Seen off Flattery

SAN FRANCISCO, Sept. 14.—A piece of wreckage painted a bright yellow with several wires dangling from it and thought possibly to be part of the monoplane Golden Eagle missing from the Honolulu flight contestant, was sighted in the ocean several miles off Cape Flattery on September 1 by members of the crew of the four-masted fishing schooner William H. Smith. Captain Gustav Schmidt, master of the vessel, reported Tuesday. The vessel was not equipped with wireless and no one on board had any knowledge of the airplane race. The ship was four days out from the Aleutian Islands. It was thought to be a piece of another vessel and no attempt was made to pick it up.

SEES PORTS OF COUNTRY BUSY

Premier of Saskatchewan Says Route From Liverpool to Japan Shortened 1,000 Miles

VANCOUVER, Sept. 14.—Addressing the Canadian Chamber of Commerce last night, Premier Gardiner of Saskatchewan said that because of the changing trade routes and development of the wheat land Vancouver must eventually become the metropolis of Canada. The route from Liverpool to Japan would be shortened a thousand miles by the Hudson Bay railway. The Premier believed that if Canada were fully developed there would be more trade than all the ports could handle.

LOCAL CATTLE QUITE FREE OF TUBERCULOSIS

J. D. Macdonald, provincial veterinarian, who has been on a visit to the district inspecting cattle, before leaving for the south on the Catala, told the Daily News that everything here was quite free from tuberculosis. "Last year when I was here everything was all right and today I find the same condition," he said.

Mr. Macdonald also went to Woodcock and inspected the herds and found them absolutely healthy. He was particularly pleased at the result of his visit as up to the year just closed there had been tubercular infection, apparently introduced from the south.
