Awaiting Divorce by French Courts Pass Time at Gambling Tables

CANNES, France, Sept. 14. - The Reviera, long pictured a dawdling and gambling ground for gay tourists is becoming a rendezvous for sufferers of marital woes, in the opinion of divorce lawyers and income tax experts.

Many of the well-dressed women and men who foregather nightly at the green baize-covered gaming tables are really gambling for stakes of the heart and not the purse, they say. The games of chance in which they indulge sometimes recklessly, are merely the turning of wheels of the divorce courts of Paris then they do the roulette wheels of the Casino.

On the tables they place sums of money, but in documents filed in Paris courts they have placed their emotions, croupier's rake was taking away from and they are far more concerned to him. win there than here. Delorme, of the Canadian Government Information Bureau at Woonsocket, Rhode Island, is making a trip through the west to gain first hand information about busines conditions and opportunities available

in Western Canada. Mr. Delorme stated that at present there are about 1,500,000 French Canadians in the New England States. Many are returning to their old parishes in Quebec, but there is a pronounced movement to the west. Most of the people who wish to come west, he said, have little capital, but should develop into sturdy settlers.

## WITH SIXPENCE TO START WITH ONLY

WINNIPEG, Sept. 13. - Around the world with sixpence to start off with! An Irishman said it couldn't be done. so Munro MacLennan, of Aberdeen Scotland, decided to do it. The wager

is an ice cream cone. MacLennan arrived in Winnipeg recently on a harvesters' special, his sixpence still intact, having earned a few v shillings working on a farm near Claremont. He expects to harvest in the Saskatoon district and make enough money to carry him as far as the coast as long as he keeps travelling west.

Away back in the late sixties thousands of acres of British Columbia's timber were sold for one cent per acre, which looked like a fair price-then. Today similar timber is worth from \$150 to \$200 per acre, so tremendously has timber appreciated in value within the scope of an average lifetime.

What the young growth of today will be worth sixty years from now is beyond computation if it is protected from fire and allowed to reach maturity.

The moral is obvious.
