# WILD ORGIE AT WINNIPEG ENDS IN DEATHS IN HOSPITAL

### Signals Were Heard at Newfoundland Wireless Station Monday Last

Clergyman Reports Having Heard Plane Over Newfoundland Sunday but Vessels Unable to Discover Trace Missing "Dawn"

ST. JOHN'S, Newfoundland, December 28. - The Western Union operator at Hearts Content picked up signals Monday reading "Where are we, can you locate us?" The signals were strong and it is thought they may have been from the seaplane "Dawn" which left New York Friday for Harbor Grace, Newfoundland, and failed to arrive. To many they indicate that there is still hope for the safety of the crew.

Rev. Edward Bishop reports from Pouch Cove, twenty miles north of here, hearing a plane passing Sunday.

# CLOSED DOWN

Bad Weather Makes Stoppage of Operations on Planking Necessary

About a mile of planking and some three miles of paving, remains to be done on the Kaien Island Highway before the road is completed to Galloway Rapids. Meantime, on account of snow and ice and generally unfavorable weather conditions, work is closed down until such time as there is an improvement. It will take three months time to complete the road. Before the highway can be extended for use, the bridge will have to be built across Galloway Rapids to the mainland.

On the completion of the road to Galloway, it will extend about eight miles from the centre of the city-two or three miles to the city limits and about five miles beyond.
